**Employment Policy and the Regulation of Part-time Work in the European Union** Silvana Sciarra, Paul Davies, Mark Freedland, 2004-07-01 This book originates from the research project New discourses in labour law held at the European University Institute A detailed analysis of part time work regulation is presented for seven European countries in order to ascertain how internal domestic choices of the legislatures have merged into the Open method of co ordination The impact of European employment policies is considered in parallel with the implementation of the Directive on part time work thus providing a complete overview of both soft and hard law mechanisms available to national policy makers In this 2004 work the interaction between law and policy emerges as a dynamic and constantly changing process of exchange between national and supranational actors through the use of concrete examples of lawmaking Labour law is put forward as being central in the current evolution of European law and this centrality is presented as a confirmation of innovation and

continuity in regulatory techniques      *Migration at Work* Fiona-Katharina Seiger, Christiane Timmerman, Noel B. Salazar, Johan Wets, 2020-09-25 The willingness to migrate in search of employment is in itself insufficient to compel anyone to move The dynamics of labour mobility are heavily influenced by the opportunities perceived and the imaginaries held by both employers and regulating authorities in relation to migrant labour This volume offers a multidisciplinary approach to the study of the structures and imaginaries underlying various forms of mobility Based on research conducted in different geographical contexts including the European Union Turkey and South Africa and tackling the experiences and aspirations of migrants from various parts of the globe the chapters comprised in this volume analyse labour related mobilities from two distinct yet intertwined vantage points the role of structures and regimes of mobility on the one hand and aspirations as well as migrant imaginaries on the other *Migration at Work* thus aims to draw cross contextual parallels by addressing the role played by opportunities in mobilising people how structures enable sustain and change different forms of mobility and how imaginaries fuel labour migration and vice versa In doing so this volume also aims to tackle the interrelationships between imaginaries driving migration and shaping regimes of mobility as well as how the former play out in different contexts shaping internal and cross border migration Based on empirical research in various fields this collection provides valuable scholarship and evidence on current processes of migration and mobility      **Accounting for Feminism** Kathryn Haynes, 2025-04-25 Although gender challenges in accounting are widely acknowledged research often addresses the position of men and women in relation to various issues without necessarily challenging the underlying structures and social constructions of gender In contrast this book takes a much more overtly feminist position informed by feminist theory feminist methodology and feminist activism to challenge these constructs and resulting inequalities The book addresses contemporary global feminisms and their potential emancipatory implications for accounting as a profession and as a tool or technology It explores feminist theorisations of accounting offering new insights into their relevance and provides a rich theoretical and practical resource to advance knowledge in the discipline and stimulate further interdisciplinary research Rather than being issue driven with chapters organised to address particular concerns that relate to gender and accounting such as parenthood career progression accountability etc the structure of this book is such that the feminist theoretical position is the starting point for each chapter The book highlights the range of ways that feminism in its various forms and from numerous theoretical perspectives can contribute to an understanding of the challenges relating to gender race and class occurring within accounting and the ways of overcoming them In this way the book provides an integrated discussion of feminist theories and the emancipatory potential of applying them to accounting that will appeal to readers whatever their orientation to feminism      **Paradoxes of Emancipation** Dimitris Soudias, 2023-08-15 In *Paradoxes of Emancipation* Dimitris Soudias traces the formation of political subjectivity in times of crisis by attending to the 2011 occupation of Syntagma Square in Athens the heart of the Greek anti austerity movement following the debt crisis Soudias conceives of the

Syntagma Square occupation as a lens through which we can critically engage with broader theoretical and political issues the crumbling promises of the capitalist imaginary the epistemic spirit of neoliberal rationalities the spatialized practices of navigating precarity and uncertainty and the prospects for a radically better tomorrow By challenging both the romanticization of anti austerity activism and the reduction of neoliberalism to mere free market thinking Soudias reveals that the relationship between political subject formation and emancipation in neoliberalism is utterly paradoxical In their effort to overcome neoliberal rationalities individuals also partly stabilize them Interweaving the stories and insights of activists with sociology geography and political theory this book makes bold claims about the future of emancipation by envisioning an alter neoliberal critique In so doing Paradoxes of Emancipation presents an illuminating inquiry into how our experiences with capitalist crises lead to profound reevaluations of ourselves that challenge our expectations of the future

Challenging the Market International Working Group on Labour Market Regulation and Deregulation,2004 For two decades economic and social policy in most of the world has been guided by the notion that economies function best when they are fully exposed to competitive market forces In labour market policy this approach is reflected in the widespread emphasis on flexibility a euphemism for the retrenchment of income support and social security the relaxation of labour market regulations and the enhanced power of private actors to determine the terms of the employment relationship These strategies have had marked effects on labour market outcomes leading to greater vulnerability and polarization and not always in ways that enhance worker centred flexibility The authors offer a more balanced analysis of the functioning and effects of labour market regulation and deregulation By questioning the underpinnings of the flexibility paradigm and revealing its often damaging impacts on different countries sectors and constituencies they challenge the conclusion that unregulated market forces produce optimal labour market outcomes The authors conclude with several suggestions for how labour policy could be reformulated to promote both efficiency and equity

**Emancipating the Female Sex** June Edith Hahner,1990 June E Hahner s pioneering work Emancipating the Female Sex offers the first comprehensive history of the struggle for women s rights in Brazil Based on previously undiscovered primary sources and fifteen years of research Hahner s study provides long overdue recognition of the place of women in Latin American history Hahner traces the history of Brazilian women s fight for emancipation from its earliest manifestations in the mid nineteenth century to the successful conclusion of the suffrage campaign in the 1930s Drawing on interviews with surviving Brazilian suffragists and contemporary feminists as well as manuscripts and printed documents Hahner explores the strategies and ideological positions of Brazilian feminists In focusing on urban upper and middle class women from whose ranks the leadership for change arose she examines the relationship between feminism and social change in Brazil s complex and highly stratified society

**A Sustainable Tourism Workforce** Shelagh Mooney, Richard N.S. Robinson, David J. Solnet, Tom Baum, 2024-02-15 This book brings together issues of social justice and the neglect of a sustainable orientation to the tourism workforce This has resulted in an impoverished unsustainable and transient workforce that does not meet the aims of UN sustainable goals within the sector or indeed the UNTWO Code of ethics towards its employees The introductory review and 15 chapters in this volume each make a unique and distinct contribution to knowledge The opening review presents a critique of current definitions of sustainability in an employment and specifically in a tourism employment context acknowledging and critiquing extant literature It uniquely recognises the themes submitted on the topic of sustainable work in the book as well as those which comprise the final selection of chapters These exercises culminate in the presentation of a refreshed conceptualisation of sustainable employment The chapters were mapped onto a proposed conceptual framework which recognises the multi dimensional influences of the evolving Sustainable Development Goals SDGs recent Sustainable Human Resource Management SHRM and tourism literature and fresh contributions to theory Additionally the introductory review offers concluding remarks that the authors hope will influence and guide future research endeavours The book will be invaluable to educators students and policymakers interested in information and guidance on managing sustainable tourism Several chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism

**Time and the Rhythms of Emancipatory Education** Michel Alhadeff-Jones, 2016-10-26 Time and the Rhythms of Emancipatory Education argues that by rethinking the way we relate to time we can fundamentally rethink the way we conceive education Beyond the contemporary rhetoric of acceleration speed urgency or slowness this book provides an epistemological historical and theoretical framework that will serve as a comprehensive resource for critical reflection on the relationship between the experience of time and emancipatory education Drawing upon time and rhythm studies complexity theories and educational research Alhadeff Jones reflects upon the temporal and rhythmic dimensions of education in order to re theorize and address current societal and educational challenges The book is divided into three parts The first begins by discussing the specificities inherent to the study of time in educational sciences The

second contextualizes the evolution of temporal constraints that determine the ways education is institutionalized organized and experienced The third and final part questions the meanings of emancipatory education in a context of temporal alienation This is the first book to provide a broad overview of European and North American theories that inform both the ideas of time and rhythm in educational sciences from school instruction curriculum design and arts education to vocational training lifelong learning and educational policies It will be of key interest to academics researchers and postgraduate students in the fields of philosophy of education sociology of education history of education psychology curriculum and learning theory and adult education The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

*Ruling Emancipated Slaves and Indigenous Subjects* Olukunle P. Owolabi, 2023 An examination of the divergent developmental legacies of forced settlement and colonial occupation on both sides of the Black Atlantic world The European powers that colonized much of the world over the last few hundred years created a variety of social systems in their various colonies In *Ruling Emancipated Slaves and Indigenous Subjects* Olukunle P. Owolabi explores the divergent developmental trajectories of Global South nations that were shaped by forced settlement where European colonists imported African slaves to establish large scale agricultural plantations or by colonial occupation which resulted in the exploitation of indigenous non white populations Owolabi shows that most forced settlement colonies emerged from

European domination with higher levels of education attainment greater postcolonial democratization and favorable human development outcomes relative to Global South countries that emerged from colonial occupation after 1945 To explain this paradox he examines the distinctive legal administrative institutions that were used to control indigenous colonial subjects and highlights the impact of liberal reforms that expanded the legal rights and political agency of former slaves following abolition Spanning three centuries of colonial history and postcolonial development this is the first book to systematically examine the distinctive patterns of state building that resulted from forced settlement and colonial occupation in the Black Atlantic world
