is a fine example of how a single piece can interrogate the styles expressions genres and aesthetics of major often conflictual trends in European culture In this book Stephen Downes begins by placing Henze s Tristan in its wider context and in the context of Henze s compositional output and writings He considers Henze s description of the genesis of the work by examining row tables and sketches draft and annotated parts and a full score with corrections and conductor s annotations This analysis of form raises issues of genre harmony and melody temporality unity and intertextuality and places the work in the formal aesthetics characteristic of romanticism modernism and postmodernism Key concepts in the critical legacy of Tristan are discussed and the book concludes by considering Henze s later works placing the techniques and aesthetics of Tristan in the context of the composer s subsequent developments The book is accompanied by a CD containing the 1975 DG recording of Tristan conducted by Henze

Critical Terms for Art History, Second Edition Robert S. Nelson, Richard Shiff, 2010-03-15 Art has always been contested terrain whether the object in question is a medieval tapestry or Duchamp s Fountain But questions about the categories of art and art history acquired increased urgency during the 1970s when new developments in critical theory and other intellectual projects dramatically transformed the discipline The first edition of Critical Terms for Art History both mapped and contributed to those transformations offering a spirited reassessment of the field s methods and terminology Art history as a field has kept pace with debates over globalization and other social and political issues in recent years making a second edition of this book not just timely but crucial Like its predecessor this new edition consists of essays that cover a wide variety of loaded terms in the history of art from sign to meaning ritual to commodity Each essay explains and comments on a single term discussing the issues the term raises and putting the term into practice as an interpretive framework for a specific work of art For example Richard Shiff discusses Originality in Vija Celmins s To Fix the Image in Memory a work made of eleven pairs of stones each consisting of one original stone and one painted bronze replica In addition to the twenty two original essays this edition includes nine new ones performance style memory monument body beauty ugliness identity visual culture visual studies and social history of art as well as new introductory material All help expand the book s scope while retaining its central goal of stimulating discussion of theoretical issues in art history and making that discussion accessible to both beginning students and senior scholars Contributors Mark Antliff Nina Athanassoglou Kallmyer Stephen Bann Homi K Bhabha Suzanne Preston Blier Michael Camille David Carrier Craig Clunas Whitney Davis Jas Elsner Ivan Gaskell Ann Gibson Charles Harrison James D Herbert Amelia Jones Wolfgang Kemp Joseph Leo Koerner Patricia Leighton Paul Mattick Jr Richard Meyer W J T Mitchell Robert S Nelson Margaret Olin William Pietz Alex Potts Donald Preziosi Lisbet Rausing Richard Shiff Terry Smith Kristine Stiles David Summers Paul Wood James E Young

The Beautiful, the Sublime, and the Grotesque Michael J. Matthis, 2020-06-01 The eighteenth century Enlightenment represents a turn toward experience that is toward the experiencing subject Still the Enlightenment involves an aspiration toward objective truth in the ideals of the newly emerging sciences and in the experiments in democracy that

were beginning to transform the political landscape of Europe and America Immanuel Kant's towering philosophical achievement in his critical works helps to reformulate a meaning of objectivity that is congenial to the climate of inquiry and freedom in that remarkable century a meaning that is unburdened of the metaphysical commitments of many of his predecessors Kant's revolution in philosophical thought gives us an objectivity that is crucially related to epistemic conditions rooted in subjectivity a correlation between subjectivity and objectivity that carries over as well into his critical treatises concerned with ethics and aesthetics This book of essays explores the tension between subjectivity and objectivity as it develops in the Enlightenment in Winkelmann Hume and Kant The focus is upon aesthetic theories concerning the beautiful the sublime and the grotesque The question by two of the authors as to whether aesthetic enjoyment of the blues is morally justified underscores an interest in these essays in the connection between aesthetics and ethics This concern of the relation of aesthetics to judgments in cognition and in morality underlies an area of peculiar interest to Kant and therefore to many of these essays Finally the authors examine a turn toward the subjective in the Postmodern world of art and aesthetic theory a turn that represents a relaxation of the original Enlightenment tension between subjectivity and objectivity It also represents perhaps a grotesque turn toward the extreme of subjectivity in the realm of Postmodern theory an extreme toward which at least one of the authors casts a critical eye

Visual Shock Michael Kammen, 2009-04-22 In this lively narrative award winning author Michael Kammen presents a fascinating analysis of cutting edge art and artists and their unique ability to both delight and provoke us He illuminates America's obsession with public memorials and the changing role of art and museums in our society From Thomas Eakins's 1875 masterpiece *The Gross Clinic* considered too big bold and gory when first exhibited to the bitter disputes about Maya Lin's Vietnam War Memorial this is an eye opening account of American art and the battles and controversies that it has ignited

The Law of Beauty Fabio Macioce, 2025-07-25 This book examines the longstanding yet ambiguous and deeply complex relationship between law and aesthetics Despite numerous studies dedicated to the topic the relationship between aesthetics and law tends to be interpreted as one between two approaches two thematic horizons two disciplines or two distinct semantic universes Conversely the book argues that legal phenomena cannot be properly understood without grasping the relevance of aesthetics within the experience of law itself nor the intrinsically political and regulatory character of aesthetic experience considering how it shapes our social world by affecting people as sensate bodies The book examines a series of current issues that arise from the ambiguous relationship between law and aesthetics such as the legal status of aesthetic objects the aesthetic analysis of legal texts the conflicts between aesthetics and legal principles as well as the legal relevance of ugliness It is only by taking into account the inextricable nexus between aesthetics and aesthesis that is both the epistemological level and the question of how people see hear and feel that we can understand these issues This book will appeal to scholars and students in legal theory and philosophers with interests in law and aesthetics

Johnson, 2010 In this elegant new study Galen Johnson retrieves the concept of the beautiful through the framework of Merleau Ponty's aesthetics Although Merleau Ponty seldom spoke directly of beauty his philosophy is essentially about the beautiful In Johnson's formulation the ontology of Flesh as element and the ontology of the Beautiful as elemental are folded together for Desire Love and Beauty are part of the fabric of the world's element Flesh itself the term at which Merleau Ponty arrived to replace Substance Matter or Life as the name of Being Merleau Ponty's Eye and Mind is at the core of the book so Johnson engages as Merleau Ponty did the writings and visual work of Paul Cézanne Auguste Rodin and Paul Klee as well as Rilke's commentary on Cézanne and Rodin From these widely varying aesthetics emerge the fundamental themes of the retrieval of the beautiful desire repetition difference rhythm and the sublime The third part of Johnson's book takes each of these up in turn bringing Merleau Ponty's aesthetic thinking into dialogue with classical philosophy as well as Sartre Heidegger Nietzsche and Deleuze Johnson concludes his final chapter with a direct dialogue with Kant and Merleau Ponty and also Lyotard on the subject of the beautiful and the sublime As we experience with Rodin's Balzac beauty and the sublime blend into one another when the beautiful grows powerful majestic mysterious and transcendent Aesthetics Primer Boyd

White,2009 The Aesthetics Primer is intended for anyone interested in the topic of aesthetics and how it can influence directions in education The text is suitable for university courses that address aesthetics specifically but also art education values education philosophy of education and qualitative research methods While examples are frequently taken from art the primer is applicable beyond the discipline of aesthetic education The text approaches its topic from two directions First there is a theoretical and philosophical section providing a historical context for the term aesthetics It then provides a practical application describing a research protocol that examines how participants respond to record and reflect on their aesthetic encounters These activities result in a merging of aesthetic responses and in the examples provided art criticism The implication is that the exercise could be extended to include other educational disciplinary foci as well The research clearly indicates emerging patterns of self and social awareness that result from subjects participation **Arthur Danto's**

beholder but it s also in the language we use and everywhere in the world around us In this elegant witty and ultimately profound meditation on what is beautiful Crispin Sartwell begins with six words from six different cultures ancient Greek s to kalon the Japanese idea of wabi sabi Hebrew s yapha the Navajo concept hozho Sanskrit sundara and our own English language beauty Each word becomes a door onto another way of thinking about and looking at what is beautiful in the world

and in our lives In Sartwell s hands these six names of beauty and there could be thousands more are revealed as simple and profound ideas about our world and our selves *The Faithful Artist* Cameron J. Anderson,2016-11-10 Drawing upon his experiences as both a Christian and an artist Cameron J Anderson traces the relationship between the evangelical church and modern art in postwar America While acknowledging the tensions between faith and visual art he casts a vision for how Christian artists can faithfully pursue their vocational calling in contemporary culture Believing and Acting G. Scott Davis,2012-03-16 How should religion and ethics be studied if we want to understand what people believe and why they act the way they do In the 1980s and 90s postmodernist worries about led to debates that turned on power truth and relativism Since the turn of the century scholars impressed by cognitive science have introduced concepts drawn from evolutionary biology neurosciences and linguistics in the attempt to provide naturalist accounts of religion Deploying concepts and arguments that have their roots in the pragmatism of C S Peirce Believing and Acting argues that both approaches are misguided and largely unhelpful in answering the questions that matter What did those people believe then How does it relate to what these people want to do now What is our evidence for our interpretations Pragmatic inquiry into these questions recommends an approach that questions grand theories advocates a critical pluralism about religion and ethics that defies disciplinary boundaries in the pursuit of the truth Rationality on a pragmatic approach is about solving particular problems in medias res thus there is no hard and fast line to be drawn between inquiry and advocacy both are essential to negotiating day to day life The upshot is an approach to religion and ethics in which inquiry looks much like the art history of Michael Baxandall and advocacy like the art criticism of Arthur Danto
