Lessons in Likeness Estill Curtis Pennington,2011 Between 1802 when the young Kentucky artist William Edward West began to paint portraits while on a downriver journey and 1920 when the last of Frank Duveneck s students worked in Louisville a large number of notable portrait artists were active in Kentucky and the Ohio River Valley In *Lessons in Likeness* Portrait Painters in Kentucky and the Ohio River Valley 1802 1920 Estill Curtis Pennington charts the course of those artists as they painted a variety of sitters drawn from both urban and rural society The work is illustrated when possible from The Filson Historical Society collection of some four hundred portraits representing one of the most extensive holdings available for study in the region Portraiture involves artists and subjects known as sitters and is an art that

combines elements of biography aesthetics and cultural history Private portraits often attract an oral history that enlivens the more colorful aspects of local tradition and culture Public portraits of towering figures such as George Washington Henry Clay and Abraham Lincoln were often reproduced in printed format to satisfy popular demand and subsequently attained an iconic timeless status Lessons in Likeness is organized in two parts Part One the cultural chronology serves as a backdrop to the biographies of the portrait artists This section identifies stylistic sources and significant historical moments that influenced the artists and their milieus Rather than working in isolation portrait artists were connected to the world around them and influenced by prevailing trends in their trade Early in the nineteenth century for instance Matthew Jouett journeyed to Boston for study with Gilbert Stuart and upon his return to Kentucky painted in a style that subsequently influenced an entire generation Later artists notably Oliver Frazer and William Edward West studied the lessons of Thomas Sully in Philadelphia Sully popularized the lush warmly colored and highly flattering style of portraiture practiced by many of the itinerant artists whose careers were facilitated by the introduction of steam and rail travel The Civil War provoked a dramatic shift in the cultural terrain further augmented by the rise of photography and the emergence of academic art centers Painters who had previously worked with a master painter or learned on their own were now able to study at established schools especially in Cincinnati which became one of the leading centers for the teaching of art in late nineteenth century America Several of the teachers there Frank Duveneck and Thomas Satterwhite Noble in particular had firsthand experience with avant garde European styles notably the realism and naturalism practiced in Munich and Paris in the last quarter of the nineteenth century and then taught in the art schools of New York and Philadelphia Part Two profiles the artists from this area and period who have appeared in previous art historical literature and have an identifiable body of work represented in public and private collections Individual biographies provide details of the artists lives sources for further study and locations of works in public collections

The Migrant's Time Saloni Mathur, 2011-09-27 The conditions of alienation and exclusion are inextricably linked to the experience of the migrant This volume explores both the increasing emergence of the theme of migration as a dominant subject matter in art as well as the ways in which the varied mobilities of a globalized world have radically reshaped art's conditions of production reception and display In a selection of essays fourteen distinguished scholars explore the universality of conditions of global migration and interdependence inviting a rethinking of existing perspectives in postcolonial transnational and diaspora studies and laying the foundation for empirical and theoretical directions beyond the terms of these traditional frameworks

The Logic of Slavery Tim Armstrong, 2012-08-27 In American history and throughout the Western world the subjugation perpetuated by slavery has created a unique culture of slavery That culture exists as a metaphorical artistic and literary tradition attached to the enslaved human beings whose lives are owed to another who are used as instruments by another and who must endure suffering in silence Tim Armstrong explores the metaphorical legacy of slavery in American culture by investigating debt

technology and pain in African American literature and a range of other writings and artworks Armstrong's careful analysis reveals how notions of the slave as a debtor lie hidden in our accounts of the commodified self and how writers like Nathaniel Hawthorne Rebecca Harding Davis Booker T Washington W E B Du Bois Ralph Ellison and Toni Morrison grapple with the pervasive view that slaves are akin to machines

Henry Ossawa Tanner Naurice Frank Woods, Jr.,2017-07-06 Over the last forty years renewed interest in the career of Henry Ossawa Tanner 1859-1937 has vaulted him into expanding scholarly discourse on American art Consequently he has emerged as the most studied and recognized representative of African American art during the nineteenth century In fact Tanner in the spirit of political correctness and racial inclusiveness has gained a prominent place in recent textbooks on mainstream American art and his painting *The Banjo Lesson* 1893 has become an iconic symbol of black creativity In addition Tanner achieved national recognition when the Philadelphia Museum of Art in 1991 and the Pennsylvania Academy of the Fine Arts in 2012 celebrated him with major retrospectives The latter exhibition brought in a record number of viewers While Tanner lived a relatively simple life where his faith and family dictated many of the choices he made daily his emergence as a prominent black artist in the late nineteenth century often thrust him openly into coping with the social complexities inherent with America's great racial divide In order to fully appreciate how he negotiated prevailing prejudices to find success this book places him in the context of a uniquely talented black man experiencing the demands and rewards of nineteenth century high art and culture By careful examination on multiple levels previously not detailed this book adds greatly to existing Tanner scholarship and provides readers with a more complete richly deserved portrait of this preeminent American master
