Epic To Novel:

Theory of the Novel Michael McKeon, 2000-12 McKeon and others delve into the significance of the novel as a genre form issues in novel techniques such as displacement the grand theory narrative modes such as subjectivity character and development critical interpretation of the structure of the novel and the novel in historical context **Twentieth-century Epic Novels** Theodore Louis Steinberg, 2005 Every age that has produced literary epics has also produced variations on the elements that constitute the epic Twentieth Century Epic Novels examines the most popular 20th century manifestations of epic sensibilities by looking closely at five major examples of the 20th century epic novel **Introducing Bakhtin** Sue Vice, 1997 The Russian critic and theorist Mikhail Bakhtin is once again in favor his influence spreading across many discourses including literature film cultural and gender studies This book provides the most comprehensive introduction to Bakhtin's central concepts and terms Sue Vice illustrates what is meant by such ideas as carnival the grotesque body dialogism and heteroglossia These concepts are then placed in a contemporary context by drawing out the implications of Bakhtin's writings for current issues such as feminism and sexuality Vice's examples are always practically based on specific texts such as the film *Thelma and Louise* Helen Zahavi's *Dirty Weekend* and James Kelman's *How late it was how late*

Cervantes' Epic Novel Michael Armstrong-Roche, 2009-05-08 Miguel de Cervantes conceived his final work *The Labours of Persiles and Sigismunda* A Northern Story 1617 as a great prose epic that would accomplish for its age what Homer and Virgil had done for theirs And yet by the eighteenth century *Don Quixote* had eclipsed *Persiles* in the favour of readers and writers alike and the later novel is now virtually forgotten except by specialists This study sets out to help restore *Persiles* to pride of place within Cervantes's corpus by reading it as the author's summa as a boldly new kind of prose epic that casts an original light on the major political religious social and literary debates of its era At the same time it seeks to illuminate how such a lofty and solemn ambition could coexist with Cervantes' evident urge to delight Grounded in the novel's multiple contexts literature history and politics philosophy and theology and in close reading of the text Michael Armstrong Roche aims to reshape our understanding of *Persiles* within the history of prose fiction and to take part in the ongoing conversation about the relationship between literary and non literary cultural forms Ultimately he reveals how Cervantes recast the prose epic expanding it in new directions to accommodate the great epic themes politics love and religion to the most urgent concerns of his day **Epic, Novel and the Progress of Antiquity** Ahuvia Kahane, 2025-08-21 This book rethinks the characterization of two highly contrastive forms of ancient literary tradition epic and novel and re frames their function as dynamic points of reference in the history of ideas and in our understanding of the interface between antiquity and the modern Epic and novel have often been construed in terms of sharp contrasts temporally with the epic anchored in the canonical beginnings of classical literature as opposed to the novel which rises only late in the ancient era hierarchically with epic regularly occupying the canonical core while the novel often resided in the periphery and in terms of specific highly

contrasting attributes sublime vs subversive an aspiration to oral song vs an intimate association with book culture heroic vs anti heroic or mock heroic Ahuvia Kahane argues for the fallibility of each of several major differential attributes to the point of generic disintegration He then constructs a new understanding of epic and novel in antiquity as part of a more fragile dynamic framework governed by intertextuality and openness on the one hand and by fragmented interpretive traditions on the other *The Cambridge Companion to the Novel* Eric Bulson,2018-06-28 This Companion focuses on the novel as a global genre and examines its role impact and development

The Epic in Film Constantine Santas,2008 Encourages us to wonder why critics have routinely dismissed the epic film This work argues that blockbuster and artistic are not mutually exclusive terms and that epic film is an inherently profound genre in its ability to tap into a nation s dreams and fears The Encyclopedia of Epic Films Constantine Santas,James M. Wilson,Maria Colavito,Djoymi Baker,2014-03-21 Soon after film came into existence the term epic was used to describe productions that were lengthy spectacular live with action and often filmed in exotic locales with large casts and staggering budgets The effort and extravagance needed to mount an epic film paid off handsomely at the box office for the genre became an immediate favorite with audiences Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years Length was and still is one of the traits of the epic though monolithic three to four hour spectacles like *Gone with the Wind* 1939 and *Lawrence of Arabia* 1962 have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy Although the form has evolved during many decades of existence its central elements have been retained refined and modernized to suit the tastes of every new generation The Encyclopedia of Epic Films identifies describes and analyzes those films that meet the criteria of the epic sweeping drama panoramic landscapes lengthy adventure sequences and in many cases casts of thousands This volume looks at the wide variety of epics produced over the last century from the silent spectacles of D W Griffith and biblical melodramas of Cecil B DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg Each entry contains Major personnel behind the camera including directors and screenwriters Cast and character listings Plot summary Academy Award wins and nominations DVD and Blu ray availability Resources for further study This volume also includes appendixes of foreign epics superhero spectaculars and epics produced for television along with a list of all the directors in the book Despite a lack of overall critical recognition and respect as a genre the epic remains a favorite of audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters The Encyclopedia of Epic Films will be of interest to academics and scholars as well as any fan of films made on a grand scale

Face to Face Carol Adlam,Rachel Falconer,Vitalii Makhlin,Leslie Pinfield,1997-06-01 So far in the West the dissemination of Bakhtinian thought has proceeded with little or no awareness of contemporary approaches to Bakhtin in his homeland This collection offers unprecedented access to leading Russian research in juxtaposition with important Western scholarship on Bakhtin Taking its cue from Bakhtin as founder of dialogical

criticism Face to Face aims to stimulate dialogue across disciplines and national boundaries

The Quest for Epic in Contemporary American Fiction Catherine Morley, 2008-09-25 This volume explores the confluences between two types of literature in contemporary America the novel and the epic It analyses the tradition of the epic as it has evolved from antiquity through Joyce to its American manifestations and describes how this tradition has impacted upon contemporary American writing

Narrative Theory Kent Puckett, 2016-11-07 Kent Puckett's *Narrative Theory A Critical Introduction* provides an account of a methodology increasingly central to literary studies film studies history psychology and beyond In addition to introducing readers to some of the field's major figures and their ideas Puckett situates critical and philosophical approaches towards narrative within a longer intellectual history The book reveals one of narrative theory's founding claims that narratives need to be understood in terms of a formal relation between story and discourse between what they narrate and how they narrate it both as a necessary methodological distinction and as a problem characteristic of modern thought Puckett thus shows that narrative theory is not only a powerful descriptive system but also a complex and sometimes ironic form of critique *Narrative Theory* offers readers an introduction to the field's key figures methods and ideas and it also reveals that field as unexpectedly central to the history of ideas

The Bakhtin Circle and Ancient Narrative Robert Bracht Branham, 2005 Mikhail Mikhailovich Bakhtin 1895-1975 has become a name to conjure with We know this because he is now one of those thinkers everyone already knows without necessarily having to read much of him Doesn't everyone now know how polyphony functions what carnival means why language is dialogic but the novel more so how chronotopes make possible any concrete artistic cognition and that utterances give rise to genres that last thousands of years always the same but not the same Like Marx and Freud in the twentieth century or Plotinus and Plato in the fourth a familiarity with Bakhtin's thinking is so commonly assumed at least in the Humanities as to be taken for granted He is no longer an author but a field of study in his own right As Craig Brandist of the Bakhtin Centre at Sheffield University reports the works of the Bakhtin Circle are still appearing in Russian and English and are already large in number There are now several thousand works about the Bakhtin Circle The freedom given to contributors to address any text or topic under the general rubric of *The Bakhtin Circle and Ancient Narrative* has produced a remarkable variety of essays ranging widely over different periods genres and cultures While most of the contributors chose to explore Bakhtin's theory of genre or to take issue with his account of one genre Greek romance the remaining contributions defy such convenient categories What all the essays share with one another and those collected in *Bakhtin and the Classics* is the attempt to engage Bakhtin as a reader and thinker

Cervantes' Persiles and the Travails of Romance Marina S. Brownlee, 2019-08-22 This collection of original essays presents new ways of looking at Cervantes' final novel *Persiles* a work that engages with geopolitical models of race ethnicity nation and religion takes its inspiration from the highly influential Ethiopian Story the *Aithiopika* of Heliodorus With particular relevance to the period the *Persiles* questions the issue of cultural pluralism in the Spanish empire and emphasizes

the need to rethink the radically altered category of lo b rbaro the barbarian which included not only the Jew the Muslim and the Gypsy but also the criollo the mestizo and the indiano a new multiracial and multiethnic reality that posed a profound challenge to early modern Spain The contributors offer a range of perspectives in spatial theory psychology and subjectivity visual culture and literary theory **Critical Essays on Literature, Language, and Aesthetics** Saroja
