Episcopal Visitations In Bedfordshire 1706 1720:

Episcopal Visitations in Bedfordshire, 1706-1720 Bedfordshire Historical Record Society, 2002 Responses to the bishop's questionnaire reveal cross section of parish life *Anglican Confirmation* Phillip Tovey, 2016-04-15 Confirmation was an important part of the life of the eighteenth century church which consumed a significant part of the time of bishops of clergy in their preparation of candidates and of the candidates themselves in terms of a transition in their Christian life Yet it has been almost entirely overlooked by scholars This book aims to fill this void in our understanding and offers an important contribution and correction of our understanding of the life of the church during the long eighteenth century in both Britain and North America Tovey addresses two important historical debates the pessimist optimist debate on the character and condition of the Church of England in the eighteenth century and the debate on the re enchantment of the eighteenth century which challenges the secular nature of society in the age of the Enlightenment Drawing on new developments of the study of visitation returns and episcopal life and on primary research in historical records Anglican Confirmation goes behind the traditional Tractarian interpretations to uncover the understanding and confidence of the eighteenth century church in the rite of confirmation The book will be of interest to eighteenth century church historians theologians and liturgists alike

The Clerical Profession in the Long Eighteenth Century, 1680-1840 W. M. Jacob, 2007-09-06 A study of the clergy of the Church of England as a professional group during the later Stuart and Georgian periods Jacobs describes their social backgrounds selection and education lifestyles and supervision and challenges long held views that most were inappropriately educated poverty stricken and neglectful of their duties **The Middle Sort of People in Provincial England, 1600-1750** H. R. French, 2007-07-05 Exploring the origins of middle class status in the English provinces during a formative period of social and economic change this book provides the first comparative study of the nature of social identity in early modern provincial England It questions definitions of a middling group united by shared patterns of consumption and display and examines the bases for such identity in three detailed case studies of the middle sort in East Anglia Lancashire and Dorset Dr French identifies how the middling described their status and examines this through their social position in parish life and government and through their material possessions Instead of a coherent unified middle sort of people this book reveals division between self proclaimed parish rulers the chief inhabitants and a wider body of modestly prosperous householders who nevertheless shared social perspectives bounded within their localities By the eighteenth century many of these chief inhabitants were trying to break out of their parish pecking orders not by associating with a wider middle class but by modifying ideas of gentility to suit their circumstances and pockets French concludes as a result that while the presence of a distinct middling stratum is apparent the social identity of the people remained fragmented restricted by parochial society on the one hand and overshadowed by the prospect of gentility on the other He offers new interpretation and insights into the composition and scale of the society in early modern England **Baptism, Church and Society in**

Modern Britain David M. Thompson, 2007-01-01 This book is an enlarged version of the author's Hulsean Lectures in the University of Cambridge for 1983. It considers the main movements in the theology of baptism both that of infants and believers in Great Britain from the Evangelical Revival to the publication of the World Council of Churches Faith and Order Commission's consensus statement on Baptism, Eucharist and Ministry of 1982. Thus as well as the shifts in the Church of England from evangelical to tractarian broad church to liberal catholic there is a survey of the views of Methodists, Baptists and Congregationalists with reflections from the scene in Scotland and Ireland during the same period. It offers a survey of popular belief and practice about baptism from the eighteenth century to the present because of the author's conviction that theological movements have to be seen in their historical context. In the case of baptism in particular a consistent difference has persisted between popular perceptions and the Churches' expectations which poses significant challenges to the understanding of the Churches' mission in contemporary society.

Antiquaries Rosemary Sweet, 2004-05-28 Eighteenth century Britain saw an explosion of interest in its own past, a past now expanded to include more than classical history and high politics. Antiquaries, men interested in all aspects of the past, added a distinctive new dimension to literature in Georgian Britain in their attempts to reconstruct and recover the past. Corresponding and publishing in an extended network, antiquaries worked at preserving and investigating records and physical remains in England, Scotland and Ireland. In doing so they laid solid foundations for all future study in British prehistory, archaeology and numismatics and for local and national history as a whole. Naturally they saw the past partly in their own image. While many antiquaries were better at fieldwork and recording than at synthesis, most were neither crabbed eccentrics nor dilettanti. At their best, as in the works of Richard Gough or William Stukeley, antiquaries set new standards of accuracy and perception in fields ranging from the study of the ancient Britons to that of medieval architecture. Antiquaries is the definitive account of a great historical enterprise.

The Post-Reformation John Spurr, 2014-06-11 The 17th century was a dynamic period characterized by huge political and social changes including the Civil War, the execution of Charles I, the Commonwealth and the Restoration. The Britain of 1714 was recognizably more modern than it was in 1603. At the heart of these changes was religion and the search for an acceptable religious settlement which stimulated the Pilgrim Fathers to leave to settle America, the Popish plot and the Glorious Revolution in which James II was kicked off the throne. This book looks at both the private aspects of human beliefs and practices and also institutional religion, investigating the growing competition between rival versions of Christianity and the growing expectation that individuals should be allowed to worship as they saw fit.

The Cambridge Companion to Puritanism John Coffey, Paul C. H. Lim, 2008-10-09 Puritan was originally a term of contempt and Puritanism has often been stereotyped by critics and admirers alike. As a distinctive and particularly intense variety of early modern Reformed Protestantism, it was a product of acute tensions within the post-Reformation Church of England. But it was never monolithic or purely oppositional and its impact reverberated far beyond seventeenth century England and New England. This

Companion broadens our understanding of Puritanism showing how students and scholars might engage with it from new angles and uncover the surprising diversity that fermented beneath its surface The book explores issues of gender literature politics and popular culture in addition to addressing the Puritans core concerns such as theology and devotional praxis and coverage extends to Irish Welsh Scottish and European versions of Puritanism as well as to English and American practice It challenges readers to re evaluate this crucial tradition within its wider social cultural political and religious contexts **The Publications of the Bedfordshire Historical Record Society**, 2014 **Religion and the Book Trade** Caroline Archer, Lisa Peters, 2015-09-18 This volume brings together a selection of the papers presented at the Print Networks conference at the National Library of Wales Aberystwyth in July 2011 The conference theme Religion and the book trade was chosen to mark the four hundredth anniversary of the publication of the King James Bible Numerous events throughout the United Kingdom and the English speaking world took place to commemorate this historic event the Print Networks conference being one of many Religious books be they tracts sermons homilies hymn books or Bibles were primarily used by all denominations to spread their version of Christianity to attract people to their cause and to retain the loyalty of supporters But these publications are also credited with the survival of indigenous languages and naturally the printers and distributors of these religious works were crucial to the process of spreading both religion and literacy among the population The contributions to this book cover a wide gamut of religion and the book trade from the sixteenth to the twentieth centuries Most of the chapters are concerned with the European book trade and concentrate on Christian religions and cover both Catholic and Protestant particularly Nonconformist Dissenter experiences Most of the chapters relate to the British and Irish book trade but there are also contributions discussing Italy and the Netherlands There are chapters relating to the printers and publishers of religious works authorship the issue and production of religious periodicals the promoters of religious libraries and clandestine elements of the trade This volume emphasises the pivotal role played by those in the book trade printers publishers or booksellers in the distribution of religious works and demonstrates that spreading the ideas of their authors creators or translators would have been far more difficult without their involvement This book will be of interest to academics independent scholars heritage professionals and research students in the fields of book trade history book arts bibliography bookbinding printing and typographic history publishing social and industrial history and religious history The Welsh Church from Reformation to Disestablishment, 1603-1920 Glanmor Williams, 2007 A comprehensive study of the religious establishment in Wales and its impact on Welsh society Sir Glanmore Williams The Welsh Church from Reformation to Disestablishment 1603 1920 is an important contribution to the study of Welsh history and its relation to the history of Britain as a whole *Reformation without end* Robert G. Ingram, 2018-03-27 This study provides a radical reassessment of the English Reformation No one in eighteenth century England thought that they were living during the Enlightenment instead they saw themselves as facing the religious intellectual and political problems unleashed by the

Reformation which began in the sixteenth century Moreover they faced those problems in the aftermath of two bloody seventeenth century political and religious revolutions This book examines how the eighteenth century English debated the causes and consequences of those revolutions and the thing they thought had caused them the Reformation It draws on a wide array of manuscript sources to show how authors crafted and pitched their works *The Eighteenth Century* American Society for Eighteenth-Century Studies, Jim Springer Borck, 2006-12 This 17th volume from the series of bibliographies of the 18th century is divided into sections on printing and bibliographic studies historical social and economic studies philosophy science and religion the fine arts literary studies and individual authors Annual Bibliography of British and Irish History, 2002 Special Series List & Index Society, 1968 Contains copies of lists and indexes from the British Public Record Office and other British public archives British National Bibliography for Report Literature, 2002-12 **The British National Bibliography** Arthur James Wells, 2002 **Publications of the Bedfordshire Historical Record Society**, 1950 The Diary of Benjamin Rogers, Rector of Carlton, 1720-1771 Benjamin Rogers, 1950 Catalogi codicum manuscriptorum bibliothecae Bodleianae...
