Equity And Health Views From The Pan American Sanitary Bureau

Lori d'Agincourt-Canning, Carolyn Ells

Equity And Health Views From The Pan American Sanitary Bureau:

Equity & Health Pan American Sanitary Bureau, 2001 The Pan American Sanitary Bureau gathers information on and examines issues relating to the disparities in health conditions and services in the Americas especially as they relate to socio economic indicators such as education income class ethnicity and race geographic location and gender The concept of equity has emerged as a guiding principle for the Bureau's work The articles gathered in this publication discuss how this idea can underpin the Bureau's work at the operational level and can be incorporated into technical co operation activities Many of the perspectives expressed in the collection come from conceptual work developed through the Bureau's ongoing work with collaborating institutions such as the Rockefeller Foundation and the World Bank as well as academic and professional bodies in the region

The Puzzle of Latin American Economic Development Patrice Franko, 2018-09-07 Thoroughly revised and updated this foundational text provides the basic economic tools for students to understand the problems facing the countries of Latin America In the fourth edition Patrice Franko analyzes challenges to the neoliberal model of development and highlights recent macroeconomic changes in the region Including charts and tables with the most current data available the book also offers a wealth of new boxed discussions and vignettes

Social Determinants, Health Disparities and Linkages to Health and Health Care Jennie Jacobs Kronenfeld, 2013-09-23 This volume looks at the key links between social determinants health disparities and health and health care There is a particular focus on macro level systems and micro level issues including the examination of issues for patients carers and providers of care

Psychology of Black Womanhood Danielle Dickens, Dionne Stephens, 2024-06-05 Psychology of Black Womanhood is the first textbook to provide an authoritative jargon free affordable and holistic exploration of the sociohistorical and psychological experiences of Black girls and women in the United States while discussing the intersection of their identities The authors include research on young middle aged and maturing women LGBTQ women and non binary individuals women with disabilities and women across social classes This textbook is firmly rooted in Black feminist womanist and psychological frameworks that incorporate literature from related disciplines such as sociology Black African American studies women's studies and public health Psychology of Black Womanhood speaks to the psychological study of experiences of girls and women of African descent in the United States and their experiences in the context of identity development education religion body image physical and mental health racialized gendered violence sex and sexuality work relationships aging motherhood and activism This textbook has implications for practice in counseling social work health care education advocacy and policy

Global Applications of Culturally Competent Health Care: Guidelines for Practice Marilyn "Marty" Douglas, Dula Pacquiao, Larry Purnell, 2018-07-02 This book is unique in its global approach to applying the Guidelines for Culturally Competent Nursing Practice that were recently endorsed by the International Council of Nurses ICN and distributed to all of its 130 national nursing associations The purpose of this book is to illustrate how these guidelines can be put into clinical practice and to

show how practitioners from different countries with diverse populations can implement them The first chapter provides the conceptual basis for Culturally Competent Health Care and describes how the guidelines were developed Each of the next 10 sections presents a chapter describing a specific guideline followed by three or four chapters with detailed case studies to illustrate how the guideline was implemented in a particular cultural setting All case studies follow a similar format and are written by international authors with clinical expertise and work experience in the culture being presented This book will be useful for advanced practice nurses healthcare students clinicians administrators educators researchers and those who provide community health or population based care *Global Health Care: Issues and Policies* Carol Holtz, 2020-09-01

Global Health Care Issues and Policies Fourth Edition is a comprehensive resource for nursing students focused on critical and timely global health topics [World Development Report 2012](#) The International Bank for Reconstruction and Development / The World Bank The International Bank for Reconstruction and Development / The World Bank, 2011-09-28 The lives of women around the world have improved dramatically at a pace and scope difficult to imagine even 25 years ago Women have made unprecedented gains in rights education health and access to jobs and livelihoods More countries than ever guarantee equal rights in property marriage and other domains Gender gaps in primary schooling have closed in many countries while in a third of all countries girls now outnumber boys in secondary school And more young women than men attend universities in 60 countries Women are using their education to participate more in the labor force they now make up for 40 percent of the global labor force and 43 percent of its farmers Moreover women now live longer than men in every region of the world Despite the progress gaps remain in many areas Women are more likely to die relative to males in many low and middle income countries than their counterparts in rich countries especially in childhood and during their reproductive years Primary and secondary school enrollments for girls remain much lower than for boys in many Sub Saharan African countries and some parts of South Asia as well as among disadvantaged populations Women are more likely than men to work as unpaid family laborers or in the informal sector to farm smaller plots and grow less profitable crops operate in smaller firms and less profitable sectors and generally earn less Women especially poor women have less say over decisions and less control over household resources And in most countries fewer women participate in formal politics than men and are underrepresented in the upper echelons The *World Development Report 2012 Gender Equality and Development* argues that closing these persistent gender gaps matters It matters because gender equality is a core development objective in its own right But it is also smart economics Greater gender equality can enhance productivity improve development outcomes for the next generation and make institutions more representative Building on a growing body of knowledge on the economics of gender equality and development the Report identifies the areas where gender gaps are most significant both intrinsically and in terms of their potential development payoff and where growth alone cannot solve the issues It then sets forth four priorities for public action Reducing excess female mortality and closing education

gaps where they remain Improving access to economic opportunities for women Increasing women s voice and agency in the household and in society Limiting the reproduction of gender inequality across generations **Policing Democracy** Mark Ungar,2020-03-03 2011 Winner of the Charles H Levine Memorial Book Prize of the International Political Science Association Latin America s crime rates are astonishing by any standard the region s homicide rate is the world s highest This crisis continually traps governments between the need for comprehensive reform and the public demand for immediate action usually meaning iron fisted police tactics harking back to the repressive pre 1980s dictatorships In *Policing Democracy* Mark Ungar situates Latin America at a crossroads between its longstanding form of reactive policing and a problem oriented approach based on prevention and citizen participation Drawing on extensive case studies from Argentina Bolivia and Honduras he reviews the full spectrum of areas needing reform criminal law policing investigation trial practices and incarceration Finally *Policing Democracy* probes democratic politics power relations and regional disparities of security and reform to establish a framework for understanding the crisis and moving beyond it **Health in the Americas 2002** Pan American Health Organization,2002 The 2002 edition of this quadrennial publication presents a regional analysis of the health situation and trends in the Americas region as well as for each of the 47 countries and territories in the region It is published in two volumes and covers mainly the years from 1997 2000 This edition focuses upon the inequalities in health Volume One looks at issues dealing with leading health and health related indicators ranging from mortality and changes in life expectancy to the relationship between health and income distribution It also considers current health conditions and trends including disease prevention and control health promotion and environmental protection Volume Two examines each country s overall health conditions including institutional organisation health regulations and the overall operation of health services World Development Report 2012 World Bank,2011-09-01 This year s World Development Report looks at facts and trends regarding the various dimensions of gender equality in the context of the development process **Equity and Health: Views from the Pan American Health Organization** Pan American Health Organization,1999 *La Salud en Las Americas* Pan American Health Organization,2002 La principal publicacion de la OPS que analiza la situacion de salud y sus tendencias en las Americas En esta edicion de 2002 el analisis de La salud en las Americas esta orientado a documentar las desigualdades en el ambito de la salud *Ethical Issues in Women's Healthcare* Lori d'Agincourt-Canning,Carolyn Ells,2019-04-02 Numerous issues confront women s healthcare today among them the medicalization of women s bodies cosmetic genital surgery violence against women HIV perinatal mental health disorders This volume uniquely explores such difficult topics and others at the intersection of clinical practice policy and bioethics in women s health care through a feminist ethics lens With in depth discussions of issues in women s reproductive health it also broadens scholarship by responding to a wider array of ethical challenges that many women experience in accessing health care Contributions touch on many themes previously tackled by feminist ethics but in new contemporary ways Some chapters expand into new fields in

the bioethics literature such as the ethical issues related to the care of Indigenous women uninsured refugees and immigrants women engaged in sex work and those with HIV at different life stages and perinatal mental health disorders Authors seek to connect theory and practice with users of the health system by including women s voices in their research Bringing to bear their experience in active clinical practice in medicine nursing and ethics the authors contemplate new conceptual approaches to important issues in women s healthcare and make ethical practice recommendations for those grappling with these issues Topical and up to date this book provides a valuable resource for physicians nurses clinical ethicists and researchers working in some of the most critical areas of women s health and applied ethics today **In**

Pursuit of Health Equity Eric D. Carter, 2023-07-05 Throughout Latin America social medicine has been widely recognized for its critical perspectives on mainstream understandings of health and for its progressive policy achievements Nevertheless it has been an elusive subject hard to define with puzzling historical discontinuities and misconceptions about its origins Drawing on a vast archive and with an ambitious narrative scope that transcends national borders Eric D Carter offers the first comprehensive intellectual and political history of the social medicine movement in Latin America from the early twentieth century to the present day While maintaining a consistent focus on health equity social medicine has evolved with changing conditions in the region Carter shows how it shaped early Latin American welfare states declined with the dominance of midcentury technocratic health planning resurged in the 1970s in solidarity against authoritarian regimes and later resisted neoliberal reforms of the health sector He centers socialist and anarchist doctors political exiles intellectuals populist leaders and rebellious technocrats from Argentina Chile Brazil and other countries who responded to and shaped a dynamic political environment around health equity The lessons from this history will inform new thinking about how to achieve health equity in the twenty first century **Promoting Men's Mental Health** David Conrad, Alan White, 2018-04-17

A welcome and important contribution to a thankfully growing debate Mental illness remains in some ways the last great taboo in our society a taboo which leads directly to stigma and discrimination which for some can be even worse than the symptoms of their illness This book in part is about encouraging men who have reached crisis point to seek help Equally it s about prevention and sets out some of the excellent work being done on that I hope it can inspire practitioners and policy makers to initiate similar interventions develop new ones and lift the promotion of men s mental health much higher up the agenda both in the UK and abroad A From the Foreword by Alastair Campbell Men in all their diverse groups settings lifestyles and stages of life can face considerable challenges to their mental wellbeing from specific cultural and societal factors causing difficulties for themselves and those who live and work with them In addition these men may respond better to certain approaches and treatment Promoting Men s Mental Health outlines the breadth of the challenges and provides guidance for those working in primary care on targeting and helping men who need support Good mental health is more than the absence of mental illness and this book therefore highlights methods to promote positive mental health by increasing

psychological wellbeing competency and coping skills and by creating supportive living and working environments The book highlights examples of best practice throughout the UK Europe and America and will be essential reading for primary care and mental health professionals and all those with an interest in men s mental health We need to be more innovative in the way we try to reach men This book will help stimulate further discussion and hopefully encourage men to seek help or support From the Foreword by Louis Appleby Splitting the Bill Nora Lustig, Judith Morrison, Adam Ratzlaff, 2019-01-03

Ethnic and racial gaps in economic outcomes labor opportunities and access to basic services such as education and health remain a challenge throughout Latin America Taxes and public spending are two effective tools governments have at their disposal to help close these gaps However fiscal policy tools are underutilized to reduce inequality in Latin America as compared to developed OECD member economies This is one of the first studies disaggregated by ethnicity and race to analyze patterns of government spending and taxation and is focused on five countries Bolivia Brazil Guatemala Mexico and Uruguay The study finds that taxes and spending are mostly colorblind in all countries and therefore do relatively little to reduce pre existing gaps in poverty across ethnic and racial lines Moreover the study observes that direct income taxes and direct transfers such as conditional cash transfer programs along with education primary and secondary and health services are mostly progressive in ethno racial terms Meaning Afro descendants and indigenous peoples receive more of the benefits and bare less of the costs compared to their share of the population Whereas indirect sales taxes subsidies tertiary education spending apart from Brazil and pension programs are far less progressive and can be even regressive in ethno racial terms Meaning Afro descendants and indigenous peoples pay more than their share The negative distributional effects for education and pension programs are related to lower access to education and formal labor market opportunities for indigenous peoples and Afro descendants in the countries analyzed **WATER MANAGEMENT IN LATIN AMERICA AND THE CARIBBEAN** Jorge Alejandro Silva Rodríguez de San Miguel, 2018-03-27 American Journal of Public Health ,2004-07 *Bulletin of the World Health Organization* World Health Organization, 2006 Social Pathways to Health Vulnerability Dula F. Pacquiao, Marilyn "Marty" Douglas, 2018-11-30 Primarily intended for DNP and PhD students in nursing and health care who are expected to design research to identify health related problems and solutions this book focuses on the concepts theories and processes of how social determinants affect the health of populations Using specific social determinants as an organizing framework it presents ample scientific evidence from health and social disciplines of the universal processes that produce the social patterning of health inequities This book is organized into three major parts beginning with the social pathways to health vulnerability followed by research methods and subsequently frameworks for action The methods section provides selected research approaches suitable for studying the impact of social variables on population health as well as the outcomes of multilevel interventions Each chapter provides an in depth presentation of relevant theoretical knowledge and research based examples of work conducted in the area The book addresses the specific

implications for health professional leaders such as nurses or health policy makers highlighting their role in achieving macrosocial changes to promote health among specific vulnerable populations Both of the book s editors are prominent and highly respected scholars in their field The team of authors is highly multidisciplinary including experts from the fields of medicine public health education and epidemiology who have conducted research on the social determinants of population health Combining their varied perspectives this book offers a valuable resource for graduate students PhD MD DNP MSN etc faculty researchers and clinicians in health professions
