Chinese Politics in the Hu Jintao Era: New Leaders, New Challenges Willy Lam, 2016-07-01 Drawing on hundreds of interviews with top Chinese officials parliamentarians scholars and businessmen Willy Lam a renowned journalist and

writer on Chinese affairs presents a first hand multi dimensional account of twenty first century China and the impact of fourth generation leaders including President Hu Jintao and Premier Wen Jiabao Lam goes behind the glitzy facade of nouveau riche Beijing and Shanghai to examine how the Hu leadership has tried to extend the Communist Party's mandate of heaven by tackling an array of daunting problems the weakening legitimacy of the Party's leadership restless peasants angry workers political stagnation over the lack of reform foreign relations difficulties unreliable energy supplies resurgent nationalism and the increasingly dubious Chinese model of development The author assesses possible contributions that the new classes of private businessmen professionals and intellectuals as well as new ideas such as nationalism globalization and federalism will make to economic prosperity and political liberalization The book also includes a chapter on foreign policy which contains an insightful account of Beijing's evolving and sometimes difficult relations with the United States Europe Japan and other major countries and blocs as well as the role of the People's Liberation Army

The Constitutional and Legal Development of the Chinese Presidency Zhang Runhua, 2014-11-05 This book investigates the legal and political evolution of Chinese presidency from the period of its forerunner in the 1930s its establishment in 1954 to its abolition in 1975 and its restoration in 1982 and discovers that the presidency has evolved from a traditional Chinese title into a political position and then a state institution that has the constitutional appearance of a Western style semi presidency However politically it has functioned in a Stalinist party state with Chinese characteristics whose candidates have been produced according to the CCP's step by step succession rules designated by the party leaders Real political decision making power has not only been limited by these succession rules but also by the president's role and status within the CCP's collective supreme body The author weaves the themes of Chinese politics and law together and explores not only the political implications of those

constitutional provisions and amendments regarding this office but also the constitutional significance of the CCP's major political practices such as Mao Zedong's power of last say, his idea of two fronts, his controversial abolition of the chairmanship, Deng Xiaoping's idea of the nucleus of leadership and diplomacy of the head of state by Chinese presidents, thus illuminating how law has been made in those unpredictable political environments and how politics has been defined by law. The author concludes that the office of president is the key to understanding how power in China derives first from the CCP, second from the military and third from the government loosely prescribed by laws. Even more important, the millennia-old Confucian concept of the charismatic leader is alive and well. While all eyes are on the new incumbent, his predecessors have loomed large and continue to exert significant influence on him. Underlining decades of constitutional evolution and shifting political dynamics have been the changing foreign influences and local demands on China. With so many variables at play, the office of the president will certainly continue to evolve.

In an authoritarian society, these changes are mediated significantly through the power of language, carefully controlled by the political elites. Discourse as a way of speaking and doing things has become an indispensable instrument for the authority to manage a fluid, increasingly fragmented but highly dynamic and yet fragile society. Written by an international team of leading scholars, this volume examines socio-political transformations of contemporary Chinese society through a systematic account, analysis, and assessment of its salient discourses and their production, circulation, negotiation, and consequences. In particular, the volume focuses on the interplay of politics and media. The book's intended readership is academics and students of Chinese studies, language and discourse, and media and communication studies.

Deadly Decision in Beijing Yang Su, 2023-03-02 In this play-by-play account of the elite politics that led to the military crackdown during the 1989 Tiananmen protests, Su addresses the repression of the protest in the context of political leadership succession. He challenges conventional views that see the military intervention as a necessary measure against a revolutionary mobilization. **The International Political Economy of China's Exchange Rate Policy Making** Zhaohui Wang, 2021-01-21 This book examines the international political economy of China's exchange rate policy making from

theoretical and empirical perspectives It identifies the limitations in the existing Economics studies on the RMB exchange rate and the research gap of the Comparative Political Economy CPE and International Political Economy IPE approaches to exchange rate politics The author develops a three level game framework for China s exchange rate policy making based on revision and synthesis of the existing CPE and IPE approaches which provides a richer portrait of the dynamism and complexity of China s exchange rate policy making The book has applied the three level game framework to empirically analyzing China s exchange rate policy making under the Hu Wen administration The book also discusses some further exploration of China s exchange rate policy in the Xi era and comparative case study of exchange rate policy making It is a timely and rigorous study on the role that international and domestic politics play in forging China s exchange rate policy making in the twenty first century

Inauspicious Beginnings Université du Québec à Montréal. Centre d'études des politiques étrangères et de sécurité, Raoul-Dandurand Chair of Strategic and Diplomatic Studies, 2004 At the end of the Cold War many experts in the international community expected a new world order to emerge in which international security institutions Instead the emerging order was marked by the overwhelming power of the United States which under the Bush Sr and Clinton administrations did not see such a system as a necessity

Chinese Politics in the Era of Xi Jinping Willy Wo-Lap Lam, 2015-03-12 Renowned for his coverage of China s elite politics and leadership transitions veteran Sinologist Willy Lam has produced the first book length study in English of the rise of Xi Jinping General Secretary of the Chinese Communist Party CCP since November 2012 With rare insight Lam describes Xi s personal history and his fascination with quasi Maoist values the factional politics through which he ascended the configuration of power of the Fifth Generation leadership and the country s likely future directions under the charismatic princeling Despite an undistinguished career as a provincial administrator Xi has rapidly amassed more power than his predecessors He has overawed his rivals and shaken up the party state hierarchy by launching large scale anti corruption and rectification campaigns With a strong power base in the People s Liberation Army and a vision of China as an awakening lion Xi has been flexing China s military muscle in sovereignty rows with countries including Japan Vietnam and the Philippines while trying to undermine the influence of the United States in the Asia Pacific region While Xi is still fine tuning his art of governance his zero tolerance for dissent and his preoccupation with upholding the privileges of the red aristocracy and the CCP s status as perennial ruling party do not bode well for economic political or cultural reforms Lam takes a close look at Xi s ideological and political profile and considers how his conservative outlook might shape what the new strongman calls the Great Renaissance of the Chinese race

Bully of Asia Steven W. Mosher, 2017-11-27 The Once and Future Hegemon In a world bristling with dangers only one enemy poses a truly mortal challenge to the United States and the peaceful and prosperous world that America guarantees That enemy is China a country that invented totalitarianism thousands of years ago whose economic power rivals our own that believes its superior race and culture give it the right to universal deference that teaches its people to hate America for

standing in the way of achieving its narcissistic dream of world domination that believes in its manifest destiny to usher in the World of Great Harmony which publishes maps showing the exact extent of the nuclear destruction it could rain down on the United States Steven Mosher exposes the resurgent aspirations of the would be hegemon and the roots of China's will to domination in its five thousand year history of ruthless conquest and assimilation of other nations brutal repression of its own people and belligerence toward any civilization that challenges its claim to superiority The naive idealism of our China hands has lulled America into a fool's dream of engagement with the People's Republic of China and its peaceful evolution toward democracy and freedom Wishful thinking says Mosher has blinded us to the danger we face and left the world vulnerable to China's overweening ambitions Mosher knows China as few Westerners do Having exposed as a visiting graduate student the monstrous practice of forced abortions he became the target of the regime's crushing retaliation His encyclopedic grasp of China's history and its present day politics his astute insights and his bracing realism are the perfect antidote for our dangerous confusion about the Bully of Asia *The Making of Chinese Foreign and Security Policy in the Era of Reform* David M. Lampton, 2001 This is the most comprehensive in depth account of how Chinese foreign and security policy is made and implemented during the reform era It includes the contributions of more than a dozen scholars who undertook field research in the People's Republic of China South Korea and Taiwan Chinese Politics in the Xi Jinping Era Cheng Li, 2016-10-18 Chinese politics are at a crossroads as President Xi Jinping amasses personal power and tests the constraints of collective leadership In the years since he became general secretary of the Chinese Communist Party in 2012 Xi Jinping has surprised many people in China and around the world with his bold anti corruption campaign and his aggressive consolidation of power Given these new developments we must rethink how we analyze Chinese politics an urgent task as China now has more influence on the global economy and regional security than at any other time in modern history Chinese Politics in the Xi Jinping Era examines how the structure and dynamics of party leadership have evolved since the late 1990s and argues that inner party democracy the concept of collective leadership that emphasizes deal making based on accepted rules and norms may pave the way for greater transformation within China's political system Xi's legacy will largely depend on whether he encourages or obstructs this trend of political institutionalization in the governance of the world's most populous and increasingly pluralistic country Cheng Li also addresses the recruitment and composition of the political elite a central concern in Chinese politics China analysts will benefit from the meticulously detailed biographical information of the 376 members of the 18th Central Committee including tables and charts detailing their family background education occupation career patterns and mentor patron ties *Sino-American Relations* Xiaobing Li, Qiang Fang, 2025-10-01 Sino American Relations brings together high quality research articles in order to examine one aspect of the political mechanism of modern China from empire to the PRC political initiatives to root out corruption Proceeding chronologically the eleven chapters explore modern political history through a particular focus on the anti corruption campaigns of early modern and

modern China Our interdisciplinary analysis draws on methodologies from several distinct fields including political science civil law and mass media Such an analysis reveals the unique characteristics of China s urbanization which have transformed not only the country but also the CCP from a rural based totalitarian party to a city centered authoritarian party and from a party of the people to a party of powerful interest groups by 2002 2016
