[Great Passenger Ships 1950-1960](#) William H. Miller, 2016 The 1950s was a fascinating decade for the great liners After the global devastation of two decades of war and Depression shipyards were creating one new liner after another it seemed to rebuild and renew passenger ship services all over the world There were the likes of the Kungsholm and Oslofjord from Scandinavia the French Flandre and a succession of new liners from P O Orient the Italian Line Messageries Maritimes and many more The new hopeful era of the 1950s was highlighted by such brilliant headline making ships as the speedy United States breaking records on an unprecedented scale the engines aft Southern Cross and the mastless Orsova Showcased beautifully by the stunning images and nostalgic outlook

of prolific maritime historian William H Miller this book shines a well earned spotlight on some of the world s most popular passenger liners *The Electrical Journal* ,1928 **Boat Trains: The English Channel & Ocean Liner Specials** Martyn Pring,2021-01-18 A study of the specialty train including its history development and operation beginning at the end of the nineteenth century In many ways this title featuring the evolution of cross channel boat trains and the many dedicated services responsible for moving international passengers to and from trans Atlantic steamers is an extension of luxury railway travel But that s not the full story as it encapsulates more than 125 years of independent and organised tourism development At the end of the nineteenth century faster and more stable twin screw vessels replaced cross channel paddlers resulting in a significant expansion in the numbers of day excursionists and short stay visitors heading to Belgium France and the Channel Islands Continental Europe as it had done since the end of the Napoleonic Wars beckoned introducing ideas of modern day mass tourism Numerous liners bestriding the globe were British domiciled Major ports became hives of commercial activity involving moving freight and mail as well as transporting all manner of travellers Not only was there intense competition for passenger traffic between the Old and New World and Britain s imperial interests greater numbers of well heeled tourists headed off to warmer winter climes and also experimented with the novel idea of using ocean steamers as hotels to visit an array of diverse destinations Cruise tourism and the itinerary had arrived as Ocean Special boat trains became essential components of railway and port procedures Whilst some railway operations were dedicated to emigrant traffic continental and ocean liner boat trains were also synonymous with the most glamorous travel services ever choreographed by shipping lines and railway companies working closely in tandem This well illustrated book explores the many functions of boat train travel This book should appeal to the rail fan the ship enthusiast the connoisseur of travel posters and those interested in the business of transportation I know of nowhere else one can find so much information on boat train operation in one book Well worth a read by anyone interested in the interconnectivity of different means of public transportation Charles H Bogart Steamship Historical Society of America **The Electrician** ,1928 **Coastal Passenger Liners of the British Isles** Nick Robins,2011-09-12 At the beginning of the last century it was possible to sail from London to Glasgow via the south coast ports and Belfast returning along the east coast from either Dundee or Leith for as little as five pounds Those were the days when 300 passengers were landed twice weekly at Grangemouth or Dundee from the London boat and the coastal passenger and cargo liner was in its heyday catering both for the first class tourist as well as offering keenly priced second class fares for the like of football fans following away matches Sadly these wonderful steamer services are now largely forgotten but this new book will stir fond memories of the ships and their coastal voyages The Depression of the 1930s coupled with competition from both railway and the motor coach were to spell the end for many of the coastal liners while heavy losses incurred in World War II left only a few ships each offering just a handful of passenger berths The story of their one hundred years of service is accompanied by numerous fascinating anecdotes and the book

focuses as much on the social need for coastal passenger services the men and women who provided the services and the passengers who used them as it does on the nuts and bolts of the ships themselves This beautifully presented book will delight both ship enthusiasts and all those who enjoy the maritime and social history of the British Isles **The Third Era in the Petroleum Trade** Robert R.
