honky tonk to gospel to bluegrass to rockabilly leading up through the decades to the music's massive commercial success today. But above all Country Music is the story of the musicians. Here is Hank Williams's tragic honky tonk life, Dolly Parton rising to fame from a dirt poor childhood, and Loretta Lynn turning her experiences into songs that spoke to women everywhere. Here too are interviews with the genre's biggest stars, including the likes of Merle Haggard to Garth Brooks to Rosanne Cash. Rife with rare photographs and endlessly fascinating anecdotes, the stories in this sweeping yet intimate history will captivate longtime country fans and introduce new listeners to an extraordinary body of music that lies at the very center of the American experience. *LIFE*, 1946-03-04. Leo, Marek Paryz, 2011-08-08. This compilation of essays by 20 scholars trained in comparative literatures, art history, critical theory, and American cultural studies further explores and expands the spirited and energetic field of visual cultural studies and its cognate or supplemental projects of visual practices and visual literacy. Their topics and perspectives engage contemporary re-theorizations of text, of word and image, while their alignments, ruptures, slippages, and aporias fall across a range of media practices and institutions. These include photography and exhibition, film, television, entertainment, journalism, poetry, and literature, as visual and spectacular performances and graphic narratives, but also their discursive intersections with race and ethnicity, their conjugations of gender, their tense and constitutive relations within multiple public spheres, and post-modernities.
