Kress,2014-07-03 Erich Fromm s body of work written more than 50 years ago was prophetic of the contemporary moment Increasingly global society is threatened by the many headed monster of corporate greed neo liberalism nihilism extreme fundamentalist beliefs and their resulting effects on the natural world and the lived lives of people Fromm clearly warned us of the peril of the misuse of technology and the destructive nature of man s perverse desire to possess control and or destroy Through his theories of having vs being the importance of hope as active resistance and his notion of freedom as the capacity to love self and others Fromm encouraged his readers to cultivate biophilic ways of being in the world that will counter and heal the impending necrophilic plunder of man s hubris This multi authored volume sheds new light on Fromm s forgotten role in the formation of contemporary thought through an engaging variety of reflexive and historical narratives from fields of sociology clinical psychology political science critical theory of religion and education Key concepts from his body of work are interpreted and expressed in ways that offer hopeful and humane alternatives to the present global conditions of despair greed and depersonalization [The Dunayevskaya-Marcuse-Fromm Correspondence, 1954-1978](#) Kevin B. Anderson,Russell Rockwell,2012-04-13 This book presents for the first time the correspondence during the years 1954 to 1978 between the Marxist Humanist and feminist philosopher Raya Dunayevskaya 1910 87 and two other noted thinkers the Hegelian Marxist philosopher and social theorist Herbert Marcuse 1898 1979 and the psychologist and social critic Erich Fromm 1900 80 both of the latter members of the Frankfurt School of Critical Theory In their introduction editors Kevin B Anderson and Russell Rockwell focus on the theoretical and political dialogues in these letters which cover topics such as dialectical social theory Marxist economics socialist humanism the structure and contradictions of modern capitalism the history of Marxism and of the Frankfurt School feminism and revolution developments in the USSR Cuba and China and emergence of the New Left of the 1960s The editors extensive explanatory notes offer helpful background information definitions of theoretical concepts

and source references Among the thinkers discussed in the correspondence some of them quite critically are Karl Marx G W F Hegel Rosa Luxemburg Georg Luk cs Theodor Adorno Max Horkheimer Jean Paul Sartre Simone de Beauvoir V I Lenin Nikolai Bukharin Sigmund Freud Leon Trotsky Mao Zedong Daniel Bell and Seymour Martin Lipset As a whole this volume shows the deeply Marxist and humanist concerns of these thinkers each of whom had a lifelong concern with rethinking Marx and Hegel as the foundation for an analysis of capitalist modernity and its forces of opposition

Formulated Experiences Peter L. Rudnytsky, 2019-03-29 In *Formulated Experiences* Peter L Rudnytsky continues his quest for a re vision of psychoanalysis by coupling his revival of the unjustly neglected figure of Erich Fromm with his latest groundbreaking research on Ferenczi and Groddeck Committed at once to a humanistic and to a literary psychoanalysis Rudnytsky explores the subjective roots of creativity and critiques the authoritarianism that has been a tragic aspect of Freud s legacy Through his clinically informed interpretations he brings out both hidden realities and emergent meanings of the texts and authors he examines including Shakespeare s Othello and Macbeth as well as Milton s Paradise Lost A preeminent scholar of the history and theory of psychoanalysis Rudnytsky displays an interdisciplinary expertise that makes *Formulated Experiences* truly sui generis and unlike any existing book Bridging the artificial divide between the academic and clinical worlds his eloquent championing of the interpersonal and relational traditions will captivate contemporary psychoanalysts and psychotherapists while his insightful close readings provide a model for psychoanalytic literary critics

Prescribing the Dharma Ira Helderman, 2019-02-08 Interest in the psychotherapeutic capacity of Buddhist teachings and practices is widely evident in the popular imagination News media routinely report on the neuropsychological study of Buddhist meditation and applications of mindfulness practices in settings including corporate offices the U S military and university health centers However as Ira Helderman shows curious investigators have studied the psychological dimensions of Buddhist doctrine for well over a century stretching back to William James and Carl Jung These activities have shaped both the mental health field and Buddhist practice throughout the United States This is the first comprehensive study of the surprisingly diverse ways that psychotherapists have related to Buddhist traditions Through extensive fieldwork and in depth interviews with clinicians many of whom have been formative to the therapeutic use of Buddhist practices Helderman gives voice to the psychotherapists themselves He focuses on how they understand key categories such as religion and science Some are invested in maintaining a hard border between religion and psychotherapy as a biomedical discipline Others speak of a religious secular binary that they mean to disrupt Helderman finds that psychotherapists approaches to Buddhist traditions are molded by how they define what is and is not religious demonstrating how central these concepts are in contemporary American culture

Sociological Amnesia Alex Law, Eric Royal Lybeck, 2016-03-03 The history of sociology overwhelmingly focuses on the winners from the classical canon Marx Durkheim and Weber to today s most celebrated sociologists This book strikingly demonstrates that restricting sociology in this way impoverishes it as a form of historically reflexive knowledge and

obscures the processes and struggles of sociology's own making as a form of disciplinary knowledge. Sociological Amnesia focuses on singular contributions to sociology that were once considered central to the discipline but are today largely neglected. Chapters explore the work of illustrious predecessors such as Raymond Aron, Erich Fromm, and G. D. H. Cole, as well as examining exceptional cases of reputational revival, as in the case of Norbert Elias or Gabriel Tarde. Through understanding the obstacles of recognition faced by female sociologists like Viola Klein and Olive Schreiner and public intellectuals like Cornelius Castoriadis, the volume considers the reasons why certain kinds of sociology are hailed as central to the discipline whilst others are forgotten. In so doing, the collection offers fresh insights into not only the work of individual sociologists but also into the discipline of sociology itself, its trajectories, forgotten promises, and dead ends.

The Great Refusal Andrew Lamas, Todd Wolfson, Peter N. Funke, 2017-01-23 Herbert Marcuse examined the subjective and material conditions of radical social change and developed the Great Refusal, a radical concept of the protest against that which is. The editors and contributors to the exciting new volume *The Great Refusal* provide an analysis of contemporary social movements around the world with particular reference to Marcuse's revolutionary concept. The book also engages and puts Marcuse in critical dialogue with major theorists including Slavoj Žižek and Michel Foucault among others. The chapters in this book analyze different elements and locations of the contemporary wave of struggle, drawing on the work and vision of Marcuse in order to reveal, with a historical perspective, the present moment of resistance. Essays seek to understand recent uprisings such as the Zapatistas in Mexico, the Arab Spring, and the Occupy movement in the context of Marcuse's powerful conceptual apparatus. *The Great Refusal* also charts contemporary social movements against global warming, mass incarceration, police brutality, white supremacy, militarization, technological development, and more, to provide insights that advance our understanding of resistance today. Contributors include Kevin B. Anderson, Stanley Aronowitz, Joan Braune, Jenny Chan, Angela Y. Davis, Arnold L. Farr, Andrew Feenberg, Michael Forman, Christian Fuchs, Stefan Gandler, Christian Garland, Toorjo Ghose, Imaculada Kangussu, George Katsiaficas, Douglas Kellner, Sarah Lynn Kleeb, Filip Kovacevic, Lauren Langman, Heather Love, Peter Marcuse, Martin J. Beck, Matthew Russell, Rockwell A. K. Thompson, Marcelo Vieta, and the editors.

The Frankfurt School, Jewish Lives, and Antisemitism Jack Jacobs, Jack Lester Jacobs, 2015 This book explores the ways in which the Jewish backgrounds of leading Frankfurt School Critical Theorists shaped their lives, work, and ideas.

Revisiting the Frankfurt School David Berry, 2016-04-08 What has become known as the Frankfurt School is often reduced to a small number of theorists in media, communication, and cultural studies. Challenging this limitation, *Revisiting The Frankfurt School* introduces a wider theoretical perspective by introducing critical assessments on a number of writers associated with the school that have been mostly marginalized from debate. This book therefore expands our understanding by addressing the writings of intellectuals who were either members of the school or were closely associated with it but often neglected. It thus brings together the latest research of an international team of experts to examine the work of figures such as the social

psychologist Erich Fromm the philosophy of Siegfried Kracauer the writer on media and communication Leo Lowenthal introducing Hans Magnus Enzenberger to the debate whilst also shedding new light on the work of Max Horkheimer Theodor Adorno Herbert Marcuse Walter Benjamin and Jürgen Habermas A critical reassessment of the contributions of the Frankfurt School and its associates to cultural media and communication studies as well as to our modern understanding of new media technology and debate within the public sphere this book will appeal to those with interests in sociology philosophy social psychology social theory media and communication and cultural studies Moral Energy in America Rebecca K.
