Healer The Drug Pusher:

God, Sex, Drugs & Other Things Howard Frankl, 2016-05-18 Howard Frankl's *God Sex Drugs and Other Things* begins with three essays on subjects found in the title: one essay on drugs, one on sex, and one on God. The 'Other Things' turn out to be Money and Murder, and there is an essay on each of these topics. The book comes to a close with a short epilogue on the reality that holds the whole work together: call it compassion, call it universal salvation, or just call it Love. Writer Ernesto Cardenal calls this a bold book. In it are things writers don't dare say. Only God. And he has said them in the Bible. But since we read the Bible so often, those things don't shock us. They shock us when someone says the same things in a new way. This is an orthodox book, but to some it will not seem so because it presents the dogmas with a freshness and originality we're not used to.

Women Healers Through History, 2020-04-30 First published in 1993, Elisabeth Brooke's powerful exploration of women's role as healers through the ages and their continuing fight for recognition is now expanded and updated. Tracing a lineage that spans the centuries, this revisionist history celebrates women in medicine from ancient Egypt, Greece, and Rome through to the Middle Ages, the Renaissance, and the present day. Drawing on primary sources, the lives of revolutionary healers are explored in this comprehensive overview from Trotula to Hildegard von Bingen, Mary Seacole to Wendy Savage. Informed by the author's appreciation of the politics of medicine, this revised edition features brand new sections on community medicine, indigenous healers, end-of-life care, and twentieth-century pioneers such as Rosemary Gladstar, Ina May Gaskin, and Louise Hay.

The Healer and the Drug Pusher Daya Dissanayake, 2009 *Hidden Healers* Stephanie S. Covington, 2024-04-02 A gripping and deeply felt examination of incarcerated women's lives. With unflinching clarity, *Hidden Healers* cuts through the myths about incarcerated women to expose the all too real brutalities they face within a criminal legal system never designed for them. Backed by three decades of experience providing therapeutic programs inside prisons across the United States, trauma specialist Dr. Stephanie Covington has used her unique access to amplify the voices of the women themselves. Their stories illuminate realities most never see: that most women who get caught up in the criminal justice system have themselves been victims of harm; that the degradations of today's prisons and jails only magnify their trauma; and that incarcerated women regularly risk punishment to tend to one another's well-being in unexpected acts of kindness. Grounded in research and rich with personal narrative, *Hidden Healers* is a poignant and riveting look inside women's prisons and jails, and what we can do to help.

Healers or Dealers? Richard P. Allison, 2021-07-28 Do no Harm. There is an innate trust built into us since childhood that our doctor spent years learning and studying how to help people. But what if that trust is broken? Are they all brought to justice for the confidences they've betrayed and the countless lives they've helped ruin? In *Healers or Dealers*, readers get a front-row seat to the jaw-dropping true accounts written by the retired investigator who experienced them and attempted to hold these doctors accountable. His stories show a direct correlation between doctors' questionable conduct with illegal administering, dispensing, and prescribing of opioids and the craze that plagues our

nation today Couple this with the addictions that unwaveringly rival those we see in the worst of America's inner cities and a pharmaceutical opioid epidemic is born

Drug Dealer, MD Anna Lembke, 2016-11-15 The disturbing connection between well meaning physicians and the prescription drug epidemic Three out of four people addicted to heroin probably started on a prescription opioid according to the director of the Centers for Disease Control and Prevention In the United States alone 16 000 people die each year as a result of prescription opioid overdose But perhaps the most frightening aspect of the prescription drug epidemic is that it's built on well meaning doctors treating patients with real problems In *Drug Dealer MD* Dr Anna Lembke uncovers the unseen forces driving opioid addiction nationwide Combining case studies from her own practice with vital statistics drawn from public policy cultural anthropology and neuroscience she explores the complex relationship between doctors and patients the science of addiction and the barriers to successfully addressing drug dependence and addiction Even when addiction is recognized by doctors and their patients she argues many doctors don't know how to treat it connections to treatment are lacking and insurance companies won't pay for rehab Full of extensive interviews with health care providers pharmacists social workers hospital administrators insurance company executives journalists economists advocates and patients and their families *Drug Dealer MD* is for anyone whose life has been touched in some way by addiction to prescription drugs Dr Lembke gives voice to the millions of Americans struggling with prescription drugs while singling out the real culprits behind the rise in opioid addiction cultural narratives that promote pills as quick fixes pharmaceutical corporations in cahoots with organized medicine and a new medical bureaucracy focused on the bottom line that favors pills procedures and patient satisfaction over wellness Dr Lembke concludes that the prescription drug epidemic is a symptom of a faltering health care system the solution for which lies in rethinking how health care is delivered

Fats that Heal, Fats that Kill Udo Erasmus, 1993 In *Fats that Heal Fats that Kill* expert Udo Erasmus takes an in depth look at the oil industry Read about the politics of health and the way our bodies assimilate oil Learn about modern healthful oils like flax evening primrose and hemp

Beyond Boundaries of Biomedicine, 2003-01-01 Cultural forces shape much of medicine including psychiatry and medicine shapes much of our culture Medicine provides us with beneficial treatments of disease but it also causes harm increasingly so in the form of overmedication enhanced by the pharmaceutical industry The book explores boundaries of medicine and psychiatry in a cultural setting by building bridges between unconnected literatures Boundaries have to be redrawn since effects of the environment biological social and political on health and disease are undervalued Potential beneficial effects of diet therapies are a recurrent theme throughout the text with particular emphasis on omega 3 fatty acids Deficiencies of these acids in common diets may contribute to many chronic diseases and psychiatric disorders The book uncovers limitations of evidence based medicine which fosters a restrictive view of health and disease Case studies include the biology of migraine limitations of biological psychiatry conventional versus alternative medicine science religion and near death experiences

Healing Cultures

Nirekha De Silva,2023-10-12 This book showcases the diverse range of healing cultures and explores how government action can have an impact through determining promoting protecting or destroying traditional cultural aspects of healing and wellbeing based on a case study of Sri Lanka It argues that diverse forms of healing practices matter not only because of their value in the health and wellbeing of the community but also because they strongly contribute towards the intangible cultural heritage of the country Identifying the diverse forms of healing practices existing in the country and the role of the existing regulatory mechanisms determines the potential for protecting the diversity of healing Despite Sri Lanka being historically rich in traditional knowledge and expression very little if anything has been written on regulating traditional practices related to health and wellbeing in the country a lacuna which this volume fills **Managing Chronic Pain in an**

Age of Addiction Akhtar Purvez,2018-10-15 As a nation we are facing an unprecedented opioid crisis that is killing more than 65 000 people a year It is destroying our families and decimating our neighborhoods And it is costing us billions As more and more people are dealing with chronic pain and as the opioid crisis reaches epic proportions alternative approaches to understanding pain and its management are necessary Here Dr Akhtar Purvez a seasoned researcher pain specialist and pain advocate offers basic information about pain and pain conditions and considers how we approach pain from cultural biological and medical perspectives He discusses the latest minimally invasive interventional approaches like nerve blocks and ablation procedures and neuromodulation techniques like peripheral nerve spinal cord and brain stimulation The uses of marijuana and associated interventions is reviewed and Purvez walks readers through the process of assessing pain finding a doctor who can treat it and methods for coping with pain through non medical approaches like meditation Anyone coping with pain or helping someone who is will find here a ready resource that offers hope and understanding *Unshockable*

Love John Burke,2014-08-26 Why were sinners so attracted to Jesus yet repelled by the religious It had everything to do with the heart of Jesus They sensed that Jesus was for them not against them When broken sinful people feel repelled by Christians we must assess whether our hearts reveal the heart of God or reflect the heart of the Pharisees Through this engaging study of Jesus s encounters with imperfect people combined with real life stories of ordinary people having Christlike impact readers will learn how to show unshockable love toward those around them **California.
