A Catalogue of Cartoons on Public Health and the Prevention of Disease American Medical Association. Council on Health and Public Instruction, 1914 *A Catalogue of public health cartoons ...* American Medical Association. Council on Health and Public instruction, 1914 *Health Care-toons* Ed Fischer, Jeff Haebig, 1991 A unique cartoon book which combines wisdom and humor to invite and challenge you to look and feel your best *Nation's Health* ,1922 *The Trump Presidency in Editorial Cartoons* Natalia Mielczarek, 2023-09-18 The Trump Presidency in Editorial Cartoons engages with close to one thousand editorial cartoons to analyze the visual representations of President Donald Trump and his responses to six news events during his term in office Natalia Mielczarek traces the mechanisms through which the drawings construct the president's image and their potential rhetorical consequences for interpretation Through this analysis Mielczarek argues that the right leaning cartoons largely erase the president's likeness from their plotlines acting as a shield against accountability for Trump Left leaning cartoons on the other hand tend to clone the president and exaggerate his image in most of their stories often functioning as tools of symbolic censure and punishment Through these de and re contextualization tactics that make President Trump either largely absent or hyper present in the narrative the cartoons construct inadvertent rhetorical paradoxes and coalesce around ideological heroes and villains This result Mielczarek posits more closely resembles partisan propaganda rather than political commentary and social critique Scholars of communication political science and media studies will find this book of particular interest *Nation's Health* John Augustus Lapp, Charles-Edward Amory Winslow, Frank Leslie Rector, 1922 ***Journal of the American Medical Association*** ,1912

China's International Communication and Relationship Building Xiaoling Zhang, Corey Schultz, 2022-06-24 This book provides a comprehensive and up to date scholarly examination of how China builds international relationships through public diplomacy practices together with an assessment of the impact of these practices around the world It explores the sources of China's evolving strategies how the past influences the present and the impact of domestic factors that shape China's communication strategies Including a wide range of detailed examples the book also discusses how far China is creating new models that will reshape the current landscape of public diplomacy Chapters 1 and 11 of this book are freely available as downloadable Open Access PDFs under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com> *PathoGraphics* Susan Merrill Squier, Irmela Marei Krüger-Fürhoff, 2020-06-08 Culturally powerful ideas of normalcy and deviation individual responsibility and what is medically feasible shape the ways in which we live with illness and disability The essays in this volume show how illness narratives expressed in a variety of forms biographical essays fictional texts cartoons graphic novels and comics reflect on and grapple with the fact that these human experiences are socially embedded and culturally shaped Works of fiction addressing the impact of an illness or disability autobiographies and memoirs exploring an experience of medical treatment

and comics that portray illness or disability from the perspective of patient family member or caregiver all of these narratives forge a specific aesthetic in order to communicate their understanding of the human condition This collection demonstrates what can emerge when scholars and artists interested in fiction life writing and comics collaborate to explore how various media portray illness medical treatment and disability Rather than stopping at the limits of genre or medium the essays talk across fields exploring together how works in these different forms craft narratives and aesthetics to negotiate contention and build community around those experiences and to discover how the knowledge and experiences of illness and disability circulate within the realms of medicine art the personal and the cultural Ultimately they demonstrate a common purpose to examine the ways comics and literary texts build an audience and galvanize not just empathy but also action In addition to the editors the contributors to this volume include Einat Avrahami Maureen Burdock Elizabeth J Donaldson Ariela Freedman Rieke Jordan stef lenk Leah Misemer Tahneer Oksman Nina Schmidt and Helen Spandler Chapter 7 Crafting Psychiatric Contention Through Single Panel Cartoons by Helen Spandler is available as Open Access courtesy of a grant from the Wellcome Trust A link to the OA version of this chapter is forthcoming

Protest Arts, Gender, and Social Change
Ousseina D. Alidou, 2024-04-23 Protest Arts Gender and Social Change Fiction Popular Songs and the Media in Hausa Society across Borders by Ousseina Alidou examines how a new generation of novelists popular songwriters and musical performers in contemporary Hausa society are using their creative works to effect social change This book empathizes with the reality of the forms of oppression social isolation and marginalization that vulnerable and underprivileged communities in contemporary Hausa society in Northern Nigeria and the Niger Republic have been experiencing from the mid 1980s to the present It also highlights the ways in which song performances produce an intertextual dialogue between their lyrics and visual dramatic narratives to raise awareness against social ills including gender based violence and social inequalities exposed by biomedical health pandemics such as HIV and COVID 19 In these creative Hausa narratives the oppressed and marginalized have agency in articulating their own experiences While there is an abundance of social science studies giving voice to the dominant actors of hegemonic violence in Hausa society there is a dearth of works that center the voices of the afflicted unprivileged and marginalized class among whom are women and youth One aim of this book is to examine the ways popular songs and fiction fill up the humanistic urgency to capture the dignity of the life of those dehumanized by local national and international hegemonic religious and secular forces The book focuses on the resistance narratives of one female novelist and six song composers and performers that generate alternative counterhegemonic responses to dominant patriarchal discourses produced by cultural religious and political elites thus reaching out to marginalized local and national communities and global audiences Alidou interweaves the social political and biomedical epidemics with the concept of Hausa interiority to create a unique perspective on contemporary Hausa culture and politics through the lens of artistic productions

Political Cartoons Visual Discourses During the 2018 2021 Electoral Crisis examines the ways in which the work of Israeli political cartoonists broadens conversations about contemporary challenges in the country Matt Reingold shows how 21 cartoonists across 10 different Israeli newspapers produced cartoons in response to the country's social and political crises between December 2018 June 2021 a period where the country was mired in four national elections Each chapter is structured around an issue that emerged during this period with examples drawn from multiple cartoonists This allows for fertile cross cartoonist discussion and analysis offering an opportunity to understand the different ways that an issue affects national discourse and what commentaries have been offered about it By focusing on this difficult period in contemporary Israeli society the volume highlights the ways that artists have responded to these national challenges and how they have fashioned creative reimaginations of their country
