BOOK JACKET *A New History of Ireland* Theodore William Moody,Francis X. Martin,Francis John Byrne,1976 A New History of Ireland in nine volumes provides a comprehensive new synthesis of modern scholarship on every aspect of Irish history and prehistory from the earliest geological and archaeological evidence through the middleages down to the present day Back cover *Edmund Rice and the First Christian Brothers* Dáire Keogh,2008 In 1944 W T Cosgrave described the Christian Brothers as Ireland's gift to civilization More recently a former government minister called them a shower of savage bastards This history aims to get beyond these stereotypical representations of Edmund Rice and the first generation Christian Brothers to see them as they saw themselves and were understood by their contemporaries It goes beyond hagiography and interprets the Brothers within context against the background of Catholic Emancipation the modernization of Irish society and the fashioning of the Church according to the norms of the Council of Trent *Nano Nagle* Deirdre Raftery,Catriona Delaney,2018-10-22 The first biographical study of Nano Nagle the foundress of the Presentation order of nuns that positions her within Irish social history and assesses her vast international legacy Nano Nagle The Life and the Education Legacy draws on archival materials from three continents providing a compelling account of how one woman's extraordinary life challenged social constraints and championed social justice and equality Leading education historian Deirdre Raftery has produced not only a vital new biographical study of an exceptional Irish woman but also a study of how thousands of Irish women joined the Presentation order of nuns and taught in their schools all over the world Within that is the story of the Irish female diaspora in Newfoundland India North America England Australia Africa and the Philippines Nano Nagle The Life and the Education Legacy throws opens a new window on an unknown aspect of Irish social history

while also demonstrating Ireland's significant contribution to the global history of female education The Life and Times of Daniel Murray Thomas J. Morrissey, Thomas J Morrissey, 2021-04-01 Daniel Murray was undoubtedly the outstanding Irish Catholic archbishop of the nineteenth century. He was a man of elegance and charm, ready to listen to others and to find good in them. To the redoubtable Bishop Doyle of Kildare and Leighlin, the archbishop was an angel of a man. His concern for the education of the poor led to the founding of the Irish Sisters of Charity and the invitation to Dublin of the Sisters of Mercy and the Irish Christian Brothers. His interest in the education of the middle class was manifested in the foundation of the Sisters of Loreto and in his support for the schools of the Jesuits and the Vincentians. A man of great pastoral energy, he built numerous churches and readily encouraged lay involvement in the work of the diocese. He was actively involved in assisting the Holy See in the appointment of priests and bishops around the world and his efforts to provide aid to the needy during the Great Famine and the veneration and respect he inspired in his clergy further contributed to the high esteem in which he was held. And yet he is a virtually forgotten figure in Irish history. This neglect is related to the stance he took on some issues of the day: his support for certain government initiatives, his opposition to his clergy's involvement in politics, and his caution about openly supporting Repeal. *Edmund Rice, 1762-1844* Dáire Keogh, 1996 **The Transforming Power of the Nuns** Mary Peckham Magray, 1998 Mary Peckham Magray argues that the Irish Catholic cultural revolution in the nineteenth century was effected not only by male elites as previous scholarship has claimed but also by the most overlooked and underestimated women in Ireland: the nuns. Once thought to be merely passive servants of the male clerical hierarchy, women's religious orders were in fact at the very center of the creation of a devout Catholic culture in Ireland. Often well educated, articulate, and evangelical, nuns were much more social and ambitious than traditional stereotypical views have held. They used their wealth and their authority to effect changes in both the religious practices and daily activity of the larger Irish Catholic population, and by doing so, Magray argues, deserve a far larger place in the Irish historical record than they have previously been accorded. Magray's innovative work challenges some of the most widely held assumptions of social history in nineteenth-century Ireland. It will be of interest to scholars and students of Irish history, religious history, women's studies, and sociology. **Butler's Lives of the Saints: August** Alban Butler, Paul Burns, 1998-01-01 For more than two centuries, Butler's has been one of the best known, most widely consulted hagiographies. In its brief and authoritative entries, readers can find a wealth of knowledge on the lives and deeds of the saints, as well as their ecclesiastical and historical importance since canonization. **The Oxford History of the British Empire: Historiography** Robin W. Winks, 1999 This volume investigates the shape and the development of scholarly and popular opinion about the British Empire over the centuries. *The Oxford History of the British Empire: Volume V: Historiography* Robin Winks, 1999-10-21 The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in the seventeenth century to the

reversion of Hong Kong to China at the end of the twentieth British imperialism was a catalyst for far reaching change The Oxford History of the British Empire as a comprehensive study helps us to understand the end of Empire in relation to its beginning the meaning of British imperialism for the ruled as well as for the rulers and the significance of the British Empire as a theme in world history This fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the British Empire more specifically The distinguished team of contributors discuss the many and diverse elements which have influenced writings on the Empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the Cold War They demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples The result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future *History of the Diocese of Derry from Earliest Times* Henry A. Jefferies, 2000 Thirteen contributions explore aspects of the history of the Catholic church in the northernmost diocese of Ireland From the establishment of the diocese in the sixth century to the Church's reaction to the Omagh bombing during the recent troubles the articles explore such topics as the life of
