Education Of The Professional Musician:

The Education of the Professional Musician ISME Commission for the Education of the Professional Musician. Seminar Meeting, 1995 The Education of the Professional Musician Hildegard C. Froehlich, Kris Chesky, 2000 The legendary Greek figure Orpheus was said to have possessed magical powers capable of moving all living and inanimate things through the sound of his lyre and voice Over time the Orphic theme has come to indicate the power of music to unsettle subvert and ultimately bring down oppressive realities in order to liberate the soul and expand human life without limits The liberating effect of music has been a particularly important theme in twentieth century African American literature The nine original essays in *Black Orpheus* examines the Orphic theme in the fiction of such African American writers as Jean Toomer Langston Hughes Claude McKay James Baldwin Nathaniel Mackey Sherley Anne Williams Ann Petry Ntozake Shange Alice Walker Gayl Jones and Toni Morrison The authors discussed in this volume depict music as a mystical shamanistic and spiritual power that can miraculously transform the realities of the soul and of the world Here the musician uses his or her music as a weapon to shield and protect his or her spirituality Written by scholars of English music women s studies American studies cultural theory and black and Africana studies the essays in this interdisciplinary collection ultimately explore the thematic linguistic structural presence of music in twentieth century African American fiction The Education of the Professional Musician Siglind Bruhn, 1995 Presentations responses and discussion excerpts from the 1994 seminar organized by the ISME Commission for the Education of the Professional Musician **Towards a Change of Attitude Regarding the Purpose, Goals and Values in the Education of the Professional Musician** ISME Commission on the Education of the Professional Musician. Professionalism in Music and Higher Music Education Heidi Westerlund, Helena Gaunt, 2021-06-07 This book addresses the need to rethink the concept and enactment of professionalism in music and how such concepts underpin professional higher music education There is an urgent imperative to enable the potential of professional musicians in our contemporary societies to be more fully realised recognising both intense challenges that are currently threatening some traditional music practices and significant scope for new practices to be imagined in response to deep veins of societal need Professionalism encompasses the conduct aims values responsibilities and ongoing development of a practising professional in the field Professional higher music education engages both with providing future professionals with relevant education in particular craft skills and with nurturing their visions for their work as artists in future societies The major focus of the book is on performance traditions that have dominated professional higher education notably western classical music Preparing Musicians, Making New Sound Worlds ISME Commission for the Education of the Professional Musician. Instrumental Music Teacher Kerry Boyle, International Society for Music Education (ISME), 2020-09-28 Instrumental teaching in the UK is characterised by a lack of regulation and curriculum whereby individuals can teach with no training or qualification Kerry Boyle explores the way in which individuals who begin teaching can negotiate successful careers in music without formal training Existing studies suggest that individuals in this context have complex understandings of professional identity preferring to identify as musicians or performers rather than teachers even when most of their income is derived from teaching Boyle explores the complex working lives of instrumental teachers in the UK including routes into instrumental teaching and the specific meanings associated with the role and identity of the professional musician for individuals involved in portfolio careers in music Through an examination of the lived experience of instrumental teachers this study highlights the need to revise existing notions of the professional musician to acknowledge contemporary careers in music The resulting insights can be used to inform and enhance existing approaches to careers in music and contribute to career preparation in undergraduate music students *Reflections on Elizabeth A. H. Green's Life and Career in Music Education* Jared R.

Rawlings, 2022-02-23 An engaging integration of scholarship and storytelling *Reflections on Elizabeth A H Green s Life and Career in Music Education* details the life and career of a pioneering figure in the field of instrumental music teacher education who was one of the first to document a curriculum for teaching conducting and stringed instruments Featuring interviews with Green s former students faculty colleagues and close friends this account combines reflections and memories with Green s conducting techniques and teachings *Reflections on Elizabeth A H Green s Life and Career in Music Education* uncovers pedagogical insights not available in the late educator s published texts focusing on ways to assist instructors in new and different ways to manage and direct large ensembles and build confidence in undergraduate music majors Through the exploration of an extraordinary educator s life it offers new insights into both the history of music education and present day pedagogy for string instruments and conducting *Music in American Higher Education* Edward Brookhart, 1988

Music, Higher Education, and Society David E. Myers, 2025-03-27 This volume asserts that institutional teaching study administration and performance of music should derive from essential goodness the transcendent value embodied in meaning making that is manifest through holistic cognitive creative kinesthetic productive and expressive reality The classical music ecosystem suffers from a legacy of survival rather than flourishing across increasingly diverse audiences among whom personal and shared meaning is the crux of perceived value Myers calls for a renaissance in professional education and practice that embeds rigorous and disciplined adherence to essential goodness as a non negotiable premise Change leadership is essential if classical music and musicians are to offer society the value it deserves through the classical arts and administrators boards funders and artists must adopt attitudes of service to this greater good in order to invite and lead participatory co creative engagement Through critical analysis of the longstanding status quo Myers offers powerful suggestions for change beginning in higher education and flowing through applications across society Contextualizing music higher education within wider ecosystems of teaching and practice this book shows how leaders can embrace strategic change as a positive opportunity and offers new models for addressing contemporary challenges in a mission driven way including preparing musicians for careers and engaging communities
