Education And The Threat Of Nuclear War Harvard Educational Review:

Education and the Threat of Nuclear War Belle Zars,1985 *Harvard Educational Review* Howard Eugene Wilson,1967
The Harvard Educational Review is a journal of opinion and research in the field of education Articles are selected edited and published by an editorial board of graduate students at Harvard University The editorial policy does not reflect an official position of the Faculty of Education or any other Harvard faculty Volume 81 Number 2 Summer 2011 *Education and the Threat of Nuclear War* Lewis Thomas,1984 *Dewey, Russell, Whitehead* Brian Patrick Hendley,2010-03-19 In *Philosophers as Educators* Brian Patrick Hendley argues that philosophers of education should reject their preoccupation with defining terms and analyzing concepts and embrace the philosophical task of constructing general theories of education Hendley discusses in detail the educational philosophies of John Dewey Bertrand Russell and Alfred North Whitehead He sees in these men excellent role models that contemporary philosophers might well follow Hendley believes that like these mentors philosophers should take a more active practical role in education Dewey and Russell ran their own schools and Whitehead served as a university administrator and as a member of many committees created to study education Horrendous Death, Health, and Well-being Daniel Leviton,1991 A treatment of the incidence of horrendous death both inadvertent and deliberate which views the phenomenon as the greatest public health problem of modern times The author argues that as man causes such deaths he can also learn to eliminate them by collective action **Bulletin of the Atomic Scientists** ,1984-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Encyclopedia of Violence, Peace, and Conflict** ,2008-09-05 The 2nd edition of *Encyclopedia of Violence Peace and Conflict* provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life Building on the highly regarded 1st edition 1999 and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over the Encyclopedia is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change Covering topics as diverse as Arms Control Peace Movements Child Abuse Folklore Terrorism and Political Assassinations the Encyclopedia comprehensively addresses an extensive information area in 225 multi disciplinary cross referenced and authoritatively authored articles In his Preface to the 1st edition Editor in Chief Lester Kurtz wrote The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully Instead we have increased the lethality of our combat through revolutions in weapons technology and military training The Encyclopedia of Violence Peace and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena Ten

years on the need for an authoritative and cross disciplinary approach to the great issues of violence and peace seems greater than ever More than 200 authoritative multidisciplinary articles in a 3 volume set Many brand new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world
