**The Schooling of Girls in Britain and Ireland, 1800- 1900** Jane McDermid, 2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 The Schooling of Girls in Britain and Ireland 1800 1900 presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes

**BOOK JACKET** Mary Sumner Sue Anderson-Faithful, 2018-01-01 The founder and president of the Mothers Union one of the first and largest women's organisations Mary Sumner 1828-1921 was an influential educator and a force to be reckoned with in the Church of England of the late nineteenth and early twentieth centuries Using the analytical tools of the sociologist Pierre Bourdieu Sue Anderson Faithful locates Mary Sumner's life and thought against social and religious networks in which she was restricted by gender yet privileged by class and proximity to distinguished individuals This dichotomy is key to understanding the achievements of a woman who both replicated and shaped Victorian attitudes to women's roles in society To Mary Sumner mission and education meant the propagation of religious knowledge through progressive pedagogy Her activism was intended to promote social reform at home and nurture the growth of the British Empire with mothers wielding their political power as educators of future citizens The symbiotic relationship between Church and State concentrated power in the hands of a ruling class with which Mary Sumner identified and which she supported In her view the legitimacy of national and imperial rule was intertwined with the moral force of Anglicanism Sue Anderson Faithful interprets Mary Sumner's lifelong work in the light of these relationships contrasting her assertion of personal agency and an empowering discourse of motherhood with her simultaneous reinforcement of patriarchy and class privilege
