Original **Elgar's Third Symphony** Anthony Payne, 2013-06-20 Elgar's Third Symphony has long been one of the great unknowns of twentieth century music Commissioned in 1932 by the BBC it appeared fragmentary and disorganized when Elgar died in 1934 A few months before his death he asked for his sketches to be destroyed saying that No one must tinker with it Yet he continued to talk about the Symphony even writing out passages that seem almost to be instructions for its completion In 1935 his great friend W H Reed published many of the sketches in facsimile allowing a tantalizing glimpse of the composer's final thoughts After much deliberation Elgar's heirs decided to commission the composer Anthony Payne to make a full length realization of the work first performed to great acclaim in February 1998 Payne's account of his long involvement with the Symphony's sketches is totally absorbing He explains the difficult decisions involved in filling the gaps that Elgar left and the responsibility that he felt in completing the last work of England's greatest composer **Daniels' Orchestral Music** David Daniels, David W. Christopher Dymont,2012 This is the first book to describe Arturo Toscanini s activities the life he led his concerts and

recording sessions during his visits to London and elsewhere in Britain in the years 1900-1952. During the 1930s Arturo Toscanini conducted many concerts broadcast by the BBC from London's Queen's Hall where he also made some unsurpassed recordings. Drawing on newly researched material in British and American archives, Christopher Dymont reveals how the most renowned and influential conductor of the twentieth century, notoriously microphone shy though he was, came to conduct so frequently in London, a tale replete with unexpected twists, turns and ingenious stratagems. Toscanini's dominating influence on London critics and audiences in the period covered by the narrative, extending through to his final appearances at the Royal Festival Hall in 1952, is copiously documented from contemporary sources. Dymont also presents fresh evidence showing how the remarkable combination of passionate conviction and architectural mastery that characterised Toscanini's conducting was grounded not only in his obsessive study of the score but also in his awareness of performing traditions dating back to the mid-nineteenth century. This book will fascinate those with a particular interest in Toscanini's career and recorded legacy. It is also essential reading for anyone with an interest in the history of conducting and recording in the first half of the twentieth century, set against the vividly evoked backdrop of London's concert scene of the period. This comprehensive study includes both an annotated table of all Toscanini's London concerts and his EMI discography. CHRISTOPHER DYMENT has written extensively about historic conductors since the 1970s, particularly Felix Weingartner and Arturo Toscanini. His first book on Weingartner was published in 1976, *The Edwardian Sense*. Morna O'Neill, Michael Hatt, 2010. This is the twentieth in a series of occasional volumes devoted to studies in British art, published by the Yale Center for British Art and the Paul Mellon Centre for Studies in British Art and distributed by Yale University Press.
