history the legacy of the Vanderbilts at the Biltmore estate and of author Tom Wolfe to uncover the murderous truth **The Master's Slave, Elijah John Fisher** Miles Mark Fisher, 1922 Mastery and Slavery in Victorian Writing J. Taylor, 2002-12-17 Taking Hegel's famous Master Slave Dialectic as its starting point this wide ranging book examines portrayals of masters slaves and servants in works by Carlyle Dickens Eliot Collins and others The questions raised about modern mastery and slavery are pursued in relation to intriguing nineteenth century figures as the American slave holder the musician the demagogue and the Jew *Across the Worlds of Islam* Edward E. Curtis IV, 2023-07-18 Winner 2024 Choice Outstanding Academic Title Muslim people are found all over the world Most live outside the Middle East from Asia to the Americas The vast majority of contemporary Muslims are not fluent in Arabic and speakers of languages such as Persian Urdu and Turkish have made essential contributions to Islamic history and culture However typical courses on Islam tend to downplay areas beyond the Middle East focusing on Arabic texts and elite theological and doctrinal arguments This book offers an inclusive view of the diversity and complexity of the many worlds of Islam investigating ethics and aesthetics as much as scriptures and theology By paying attention to Muslims who are socially culturally doctrinally or politically marginalized it provides a comprehensive and all embracing vision of the religion and its many interrelated communities Contributors from a range of personal and intellectual backgrounds explore the capaciousness of Muslim identities helping readers achieve a broader understanding of the past present and future of the Muslim world This book includes communities such as the Nation of Islam and Alevi Muslims and it goes beyond rituals like prayer and fasting to consider a wider array of practices such as tattooing *Across the Worlds of Islam* is at once student friendly and cutting edge written with both introductory courses and general readers in mind Examining Muslim identity and practice from the perspective of the margins it offers nuanced portraits of Muslim life across geographic and sectarian divisions **American Slavery as it was in 1839** Theodore Weld, C. Badgley, 2013-02-06 This book was created from the original title *American Slavery as it is in 1839 Testimony of a Thousand Witnesses* written by Theodore Weld It was the book that inspired Harriet Beecher Stowe to pen her novel *Uncle Tom's Cabin* and along with that book helped ignite the flames of the American Civil War The first hand eyewitness accounts in this book both shocked and infuriated many people in the northern free states who knew that slavery was bad but had no idea just how bad it really was The Abolitionist movement took off and began to grow with increased pressure being put on our government to end this abomination The southern slave states bitterly opposed any new laws to remove this blight from our country and the end result was Civil War This book is part of the Historical Collection of Badgley Publishing Company and has been transcribed from the original The original contents have been edited and corrections have been made to original printing spelling and grammatical errors when not in conflict with the author's intent to portray a particular event or interaction Annotations have been made and additional content has been added by Badgley Publishing Company in order to clarify certain historical events or interactions and to enhance the author's content Additional

Slavery and the Meetinghouse Ryan P. Jordan, 2007-03-28 Ryan P Jordan explores the limits of religious dissent in antebellum America and reminds us of the difficulties facing reformers who tried peacefully to end slavery In the years before the Civil War the Society of Friends opposed the abolitionist campaign for an immediate end to slavery and considered abolitionists within the church as heterodox radicals seeking to destroy civil and religious liberty In response many Quaker abolitionists began to build comeouter institutions where social and legal inequalities could be freely discussed and where church members could fuse religious worship with social activism The conflict between the Quakers and the Abolitionists highlights the dilemma of liberal religion within a slaveholding republic

In the Shadow of the Gallows Jeannine Marie DeLombard, 2012-07-24 From Puritan Execution Day rituals to gangsta rap the black criminal has been an enduring presence in American culture To understand why Jeannine Marie DeLombard insists we must set aside the lenses of pathology and persecution and instead view the African American felon from the far more revealing perspectives of publicity and personhood When the Supreme Court declared in Dred Scott that African Americans have no rights which the white man was bound to respect it overlooked the right to due process which ensured that black offenders even slaves appeared as persons in the eyes of the law In the familiar account of African Americans historical shift from plantation to prison we have forgotten how for a century before the Civil War state punishment affirmed black political membership in the breach while a thriving popular crime literature provided early America s best known models of individual black selfhood Before there was the slave narrative there was the criminal confession Placing the black condemned at the forefront of the African American canon allows us to see how a later generation of enslaved activists most notably Frederick Douglass could marshal the public presence and civic authority necessary to fashion themselves as eligible citizens At the same time in an era when abolitionists were charging Americans with the national crime of manstealing a racialized sense of culpability became equally central to white civic identity What for African Americans is the legacy of a citizenship grounded in culpable personhood For white Americans must membership in a nation built on race slavery always betoken guilt In the Shadow of the Gallows reads classics by J Hector St John de Cr vecoeur Edgar Allan Poe Frederick Douglass Herman Melville George Lippard and Edward Everett Hale alongside execution sermons criminal confessions trial transcripts philosophical treatises and political polemics to address fundamental questions about race responsibility and American civic belonging

Slavery in American Children's Literature, 1790-2010 Paula T. Connolly, 2013-07 The first comprehensive study of slavery in children s literature Slavery in American Children s Literature 1790 2010 historicizes the ways generations of authors have drawn upon antebellum literature in their own recreations of slavery Beginning with abolitionist and proslavery views in antebellum

children's literature Connolly examines how successive generations reshaped the genres of the slave narrative abolitionist texts and plantation novels to reflect the changing contexts of racial politics in America As a literary history of how antebellum racial images have been re created or revised for new generations *Slavery in American Children's Literature* ultimately offers a record of the racial mythmaking of the United States from the nation's beginning to the present day Book jacket

Slavery and Crime in Missouri, 1773-1865 Harriet C. Frazier, 2001-01-01 Slavery and its lasting effects have long been an issue in America with the scars inflicted running deep This study examines crimes such as stealing burglary arson rape and murder committed against and by slaves with most of the author's information coming from handwritten court records and newspapers These documents show the death penalty rarely applied when a slave killed another slave but that it always applied when a slave killed a white person Despite Missouri's grim criminal justice system the state's best lawyers were called upon to represent slaves in court on serious criminal charges and federal law applied to all persons granting slaves in Missouri protection that few other slave states had By 1860 Missouri's population was only 10 percent slave the smallest percentage of any slave state in America

Slavery and Freedom in Texas Jason A. Gillmer, 2017-11-01 In these absorbing accounts of five court cases Jason A Gillmer offers intimate glimpses into Texas society in the time of slavery Each story unfolds along boundaries between men and women slave and free black and white rich and poor old and young as rigid social orders are upset in ways that drive people into the courtroom One case involves a settler in a rural county along the Colorado River his thirty year relationship with an enslaved woman and the claims of their children as heirs A case in East Texas arose after an owner refused to pay an overseer who had shot one of her slaves Another case details how a free family of color carved out a life in the sparsely populated marshland of Southeast Texas only to lose it all as waves of new settlers civilized the county An enslaved woman in Galveston who was set free in her owner's will and who got an uncommon level of support from her attorneys is the subject of another case In a Central Texas community as another case recounts citizens forced a Choctaw native into court in an effort to gain freedom for his slave a woman who easily passed as white The cases considered here include *Gaines v Thomas* *Clark v Honey* *Brady v Price* and *Webster v Heard* All of them pitted communal attitudes and values against the exigencies of daily life in an often harsh place Here are real people in their own words as gathered from trial records various legal documents and many other sources People of many colors from diverse backgrounds weave their way in and out of the narratives We come to know what mattered most to them and where those personal concerns stood before the law

Children of Ezekiel Michael Lieb, 1998 Discusses the relationship between the biblical prophet Ezekiel's vision of wheels in the air and the present day end of time concept as seen in various religious sects

Self-Taught Heather Andrea Williams, 2009-11-20 In this previously untold story of African American self education Heather Andrea Williams moves across time to examine African Americans relationship to literacy during slavery during the Civil War and in the first decades of freedom *Self Taught* traces the historical antecedents to freedpeople's

intense desire to become literate and demonstrates how the visions of enslaved African Americans emerged into plans and action once slavery ended Enslaved people Williams contends placed great value in the practical power of literacy whether it was to enable them to read the Bible for themselves or to keep informed of the abolition movement and later the progress of the Civil War Some slaves devised creative and subversive means to acquire literacy and when slavery ended they became the first teachers of other freedpeople Soon overwhelmed by the demands for education they called on northern missionaries to come to their aid Williams argues that by teaching building schools supporting teachers resisting violence and claiming education as a civil right African Americans transformed the face of education in the South to the great benefit of both black and white southerners
