*John J. McCloy Roundtable on the Elimination of Nuclear Weapons* Larry D. Welch, 1998 This report examines the rewards and pitfalls of reducing nuclear stockpiles to successively lower levels and identifies specific problems that must be resolved at each stage of such a reduction process      An Elusive Consensus Janne E. Nolan, 2001-03-31 The United States continues to maintain a large nuclear arsenal guided by a deterrence strategy little changed since the collapse of the Warsaw Pact Notwithstanding changes in the size and composition of nuclear forces brought about since 1991 the fundamental rationales and planning principles which informed U S nuclear policy for decades remain in place despite the disappearance of a superpower nuclear enemy In this work Janne E Nolan traces the effort to articulate a post cold war nuclear doctrine through decisions taken in the Bush and Clinton administrations focusing on the leadership styles of presidents bureaucratic politics and broader foreign policy objectives Based on in depth interviews with policy participants this study illuminates in detail the dynamics by which the U S government has tried to reflect the dramatically altered international arena in its nuclear policies In two major policy developments the 1994 Nuclear Posture Review and the decision to sign the African Nuclear Weapons Free Zone Treaty U S policy makers sought to define the utility of nuclear weapons after the cold war and to gain broad based consensus For many reasons these efforts were largely unsuccessful in developing coherent policies with the absence of sustained presidential leadership proving most decisive      *Annual Report* Council on Foreign Relations, 1998
