Merrill,1968 The Function of Newspapers in Society Shannon E. Martin,David A. Copeland,2003-06-30 The demise of the newspaper has long been predicted Yet newspapers continue to survive globally despite competition from radio television and now the Internet because they serve core social functions in successful cultures Initial chapters of this book provide an overview of the development of modern newspapers Subsequent chapters examine particular societies and geographic regions to see what common traits exist among the uses and forms of newspapers and those artifacts that carry the name newspaper but do not meet the commonly accepted definition The conclusion suggests that newspapers are of such core value to a successful society that a timely and easily accessible news product will succeed despite or perhaps because of changes in reading habits and technology , **Journalism 1908** Betty Houchin Winfield,2008-09-03 The year 1908 was not remarkable by most accounts but it was an auspicious year for journalism As newspapers sought to recover from big city yellow journalism and circulation wars that reached their boiling point a few years earlier during the Spanish American War press clubs began to champion higher education And schools dedicated to journalism education led by the University of Missouri began to emerge Now sanctioned by universities journalism could teach acceptable behavior and establish credentials It was nothing less than the birth of a profession Journalism 1908 opens a window on mass communication a century ago It tells how the news media in the United States were fundamentally changed by the creation of academic departments and schools of journalism by the founding of the National Press Club and by exciting advances that included early newsreels the introduction of halftones to

print and even changes in newspaper design Journalism educator Betty Houchin Winfield has gathered a team of well known media scholars all specialists in particular areas of journalism history to examine the status of their profession in 1908 news organizations business practices media law advertising forms of coverage from sports to arts and more Various facets of journalism are explored and situated within the country's history and the movement toward reform and professionalism not only formalized standards and ethics but also labor issues concerning pay hours and job differentiation that came with the emergence of new technologies This overview of a watershed year is national in scope examining early journalism education programs not only at Missouri but also at such schools as Colgate Washington and Lee Wisconsin and Columbia It also reviews the status of women in the profession and looks beyond big city papers to Progressive Era magazines the immigrant press and African American publications Journalism 1908 commemorates a century of progress in the media and given the place of Missouri's School of Journalism in that history is an appropriate celebration of that school's centennial It is a lode of information about journalism education history that will surprise even many of those in the field and marks a seminal year with lasting significance for the profession
