Epstein,2022 Challenges the longstanding perception that modernist composers made art not money and that those who made money somehow failed to make art Patrons have long appeared as colorful exceptional figures in music history but this book recasts patrons and patronage as creative forces that shaped the sounds and meanings of new French music between the world wars Far from mere sources of funding early twentieth century patrons collaborated closely with composers treating commissions for new music as opportunities to express their own artistry Patrons developed new pathways to participate in music making going beyond commissions to establish ballet companies manage performance venues and establish state programs The impressive variety of patronage activities led to an explosion of new music as well as new styles and isms indelibly marking the repertoire that this book examines including a number of pieces frequently heard in concert halls today In addition to offering new perspectives on well known French repertoire this book challenges conceptions of patronage as a bygone phenomenon Complementing a dwindling cast of aristocratic patrons were new ranks of music publishers impresarios state bureaucrats opera directors and others capitalizing on their savings social connections and artistic vision to bring new music into the world In chapters on French discourse around patronage aristocratic commissions the stimulus provided by the interwar dance craze music publishing the Paris Opéra state intervention in French musical life and transatlantic musical exchanges the book blends cultural history with primary source study and music analysis It not only improves our understanding of French musical life and culture during the early twentieth century but also supplies us with essential insights into the ways modern music emerged at the intersection of music composition aesthetic and national politics and the creative labor of patrons *Notable American Women* Barbara Sicherman,Carol Hurd Green,1980 Modeled on the Dictionary of American Biography this set stands alone but is a good complement to that set which contained only 700 women of 15 000 entries The preparation of the first set of Notable American Women was supported by Radcliffe College It includes women from 1607 to those who died before the end of 1950 only 5 women included were born after 1900 Arranged throughout the volumes alphabetically entries are from 400 to 7 000 words and have bibliographies There is a good introductory essay and a classified list of entries in volume three Women in Music Karin Pendle,Melinda

British Women Composers and Instrumental Chamber Music in the Early Twentieth Century Laura

Seddon, 2016-04-15 This is the first full length study of British women's instrumental chamber music in the early twentieth century Laura Seddon argues that the Cobbett competitions instigated by Walter Willson Cobbett in 1905 and the formation of the Society of Women Musicians in 1911 contributed to the explosion of instrumental music written by women in this period and highlighted women's place in British musical society in the years leading up to and during the First World War Seddon investigates the relationship between Cobbett the Society of Women Musicians and women composers themselves The book's six case studies of Adela Maddison 1866-1929 Ethel Smyth 1858-1944 Morfydd Owen 1891-1918 Ethel Barns 1880-1948 Alice Verne Brett 1868-1958 and Susan Spain Dunk 1880-1962 offer valuable insight into the women's musical education and compositional careers Seddon's discussion of their chamber works for differing instrumental combinations includes an exploration of formal procedures an issue much discussed by contemporary sources The individual composers' reactions to the debate instigated by the Society of Women Musicians on the future of women's music is considered in relation to their lives careers and the chamber music itself As the composers in this study were not a cohesive group creatively or ideologically the book draws on primary sources as well as the writings of contemporary commentators to assess the legacy of the chamber works produced

Composers of the Nazi Era Michael H. Kater, 2000 How does creativity thrive in the face of fascism How can a highly artistic individual function professionally in so threatening a climate The final book in a critically acclaimed trilogy that includes *Different Drummers* OUP 1992 and *The Twisted Muse* OUP 1997 this is a detailed study of the often interrelated careers of eight outstanding German composers who lived and worked amid the dictatorship of the Third Reich Werner Egk Paul Hindemith Kurt Weill Karl Amadeus Hartmann Carl Orff Hans Pfitzner Arnold Schoenberg and Richard Strauss Noted historian Michael H Kater weighs issues of accommodation and resistance to ask whether these artists corrupted themselves in the service of a criminal regime and if so whether this is evident in their music He also considers the degrees to which the Nazis poetically socially economically and aesthetically succeeded in their treatment of these individuals whose lives and compositions represent diverse responses to totalitarianism
