Sabotaging the Sicilian, French & Caro-Kann with 2.b3 Marek Soszynski, Jerzy Konikowski, 2018-02-28 The Queenside Fianchetto Factor In the first full book to examine 2 b3 against the Sicilian French and Caro Kann mainlines interesting sidelines and current theory are reviewed In addition what actually happens in modern practice is surveyed The authors are optimistic for White and concentrate on the best continuations while trying to be objective It is in that spirit that they conclude that 2 b3 is sound against the Sicilian fun against the French and curious against the Caro Kann In all three cases the objective is to sabotage Black's play to take him out of his comfort zone The word sabotage has historically derived from throwing a clog into

machinery or in other words throwing a monkey wrench in the works here the wrench is a queenside fianchetto White aims his light square bishop toward the right flank he typically delays Ng1 f3 so that he may play Qd1 f3 or advance his f pawn and use his light square bishop to build a full scale kingside attack Queenside castling often occurs hoping for a kingside pawn storm Yet despite all these characteristics of 2 b3 White may still retain the option of d2 d4 for a more conventional looking 1 e4 opening With 2 b3 you will have one more arrow in your theoretical quiver to battle Black And like it or not Black will be compelled to deal with the queenside fianchetto factor

The Magic of Chess Tactics 2 Claus Dieter Meyer, Karsten Müller, 2017-12-07 Tactical Fireworks When released in 2002 the first volume of The Magic of Chess Tactics by FIDE Master

Claus Dieter Meyer and German Grandmaster Karsten Müller was extremely popular. It was one of the first books to deal with tactics on a high level. Like the first book intended for advanced Elo 1800 players, this second volume puts special tactical motifs and themes under the analytical microscope. Complicated tactics, the kind that separate tournament winners from the pack, require intuition, imagination, and precision. The focus in this book is on attacking techniques and transformations. The contents include: Attacking with the Queen and Knight, The Knight on the Attack, Attacking with Bishops of Opposite Colors, Pins, Learn from the World Champions, and Exchanges Transformations. The reader will find the analysis comprehensive and challenging. Dozens of exercises help reinforce the reader's understanding of this complex subject matter. So roll up your sleeves and prepare to ride herd on tactical fireworks and sharpen your tactical skills. *Corsair*, 1907 **Man vs.**

Machine Karsten Müller, Jonathan Schaeffer, 2018-10-30. Man vs Machine. Technology continues to advance at a rapid pace. It may sound quaint today, but not so long ago computers battled humans for supremacy at the game of chess. The challenge of building a computer program capable of defeating the best of human kind at chess was one of the original grand challenges of the fledgling field of artificial intelligence. On one side were dedicated scientists and hobbyists who invested decades of effort developing the software and hardware technology; on the other side were incredibly talented humans with only their determination and preparation to withstand the onslaught of technology. The man versus machine battle in chess is a landmark in the history of technology. There are numerous books that document the technical aspects of this epic story. The human side is not often told. Few chess players are inclined to write about their man-machine encounters other than annotating the games played. This book brings the two sides together. It tells the stories of many of the key scientists and chess players that participated in a 50-year research project to advance the understanding of computing technology. Grandmaster Karsten Müller and Professor Jonathan Schaeffer have managed to describe the fascinating history of the unequal fight of man against machine in an entertaining and instructive way. It evoked pleasant and not so pleasant memories of my own fights against the monsters. I hope that their work gives you as much pleasure as it has given me. From the Foreword by Vladimir Kramnik, 14th World Chess Champion. *The Publishers Weekly*, 1924 *Chess Life*, 2004 **Learn**
