**Embodied Voices** Leslie C. Dunn, Nancy A. Jones, 1994 As a material link between body and culture self and other the voice has been endlessly fascinating to artists and critics Yet it is the voices of women that have inspired the greatest fascination as well as the deepest ambivalence because the female voice signifies sexual otherness as well as sexual and cultural power Embodied Voices explores cultural manifestations of female vocality in the light of current theories of subjectivity the body and sexual difference The fourteen essays collected here examine a wide spectrum of discourses including myth literature music film psychoanalysis and critical theory Though diverse in their critical approaches the essays are united in their attempt to articulate the compelling yet problematic intersections of gender voice and embodiment as they have shaped the textual representation of women and women's self expression in performance *Female-Voice Song and Women's Musical Agency in the Middle Ages*, 2022-08-22 This collection of seventeen essays newly identifies contributions to musical culture made by women before 1500 across Europe You will learn about repertoire from such diverse locations as Iceland Spain and Italy and encounter examples of musicianship from the gender fluid professional musicians at the Islamicate courts of Syria to the nuns of Barking Abbey in England The book shows that women drove musical patronage dissemination composition and performance including within secular and ecclesiastical contexts and also reflects on the reception of medieval women's musical agency by both medieval poets and by modern recording artists Contributors are David Catalunya Lisa Colton Helen Dell Annemari Ferreira Rachel Golden Gillian L Gower Anna Kathryn Grau Carissa M Harris Louise McInnes Lisa Nielson Lauren Purcell Joiner Megan Quinlan Leah Stuttard Claire Taylor Jones Melissa Tu Angelica Vomera and Anne Bagnall Yardley **Cathy Berberian: Pioneer of Contemporary Vocality** Pamela Karantonis, Francesca Placanica, Pieter Verstraete, 2016-04-08 Cathy Berberian 1925 1983 was a vocal performance artist singer and composer who pioneered a way of composing with the voice in the musical worlds of Europe North America and beyond As a modernist muse for many avant garde composers Cathy Berberian went on to embody the principles of postmodern thinking in her work through vocality She re defined the limits of composition and challenged theories of the authorship of the musical score This volume celebrates her unorthodox path through musical landscapes including her approach to performance practice gender performativity vocal pedagogy and the culturally determined borders of art music the concert stage the popular LP and the opera industry of her times The collection features primary documentation some published in English for the first time of Berberian's engagement with the philosophy of voice new music early music pop jazz vocal experimentation and technology that has come to influence the next generation of singers such as Theo Bleckmann Susan Botti Joan La Barbara Rinde Eckert Meredith Monk Carol Plantamura Candace Smith and Pamela Z Hence this timely anthology marks an end to the long period of silence about Cathy Berberian's championing of a radical rethinking of the musical past through a reclaiming of the voice as a multifaceted phenomenon With a Foreword by Susan McClary Women

Musical Voices of Early Modern Women Thomasin LaMay, 2017-05-15 Recent scholarship has offered a veritable landslide of studies about early modern women illuminating them as writers thinkers midwives mothers in convents at home and as rulers Musical Voices of Early Modern Women adds to the mix of early modern studies a volume that correlates women's musical endeavors to their lives addressing early modern women's musical activities across a broad spectrum of cultural events and settings The volume takes as its premise the notion that while women may have been squeezed to participate in music through narrower doors than their male peers they nevertheless did so with enthusiasm diligence and success They were there in many ways but as women's lives were fundamentally different and more private than men's were their strategies tools and appearances were sometimes also different and thus often unstudied in an historical discipline that primarily evaluated men's productivity Given that many of these stories will not necessarily embrace a standard musical repertoire even as they seek to expand canonical borders The contributors to this collection explore the possibility of a larger musical culture which included women as well as men by examining early modern women in many headed ways through the lens of musical production They look at how women composed assuming that compositional gender strategies may have been used differently when applied through her vision how women were composed or represented and interpreted through music in a larger cultural context and how her presence in that dialog situated her in social space Contributors also trace how women found music as a means for communicating for establishing intellectual power for generating musical tastes and for enhancing the quality of their lives Some women

performed publicly and thus some articles examine how this impacted on their lives and families Other contributors inquire about the economics of music and women and how in different situations some women may have been financially empowered or even in control of their own money making This collection offers a glimpse at women from home stage work and convent from many classes and from culturally diverse countries including France Spain Italy England Austria Russia and Mexico and imagines a musical history centered in the realities of those lives Lives, Identities and Histories in the Central Middle

*Sensing Sound* Nina Sun Eidsheim, 2015-11-19 In *Sensing Sound* Nina Sun Eidsheim offers a vibrational theory of music that radically re envisions how we think about sound music and listening Eidsheim shows how sound music and listening are dynamic and contextually dependent rather than being fixed knowable and constant She uses twenty first century operas by Juliana Snapper Meredith Monk Christopher Cerrone and Alba Triana as case studies to challenge common assumptions about sound such as air being the default medium through which it travels and to demonstrate the importance a performance s location and reception play in its contingency By theorizing the voice as an object of knowledge and rejecting the notion of an a priori definition of sound Eidsheim releases the voice from a constraining set of fixed concepts and meanings In Eidsheim s theory music consists of aural tactile spatial physical material and vibrational sensations This expanded definition

of music as manifested through material and personal relations suggests that we are all connected to each other in and through sound Sensing Sound will appeal to readers interested in sound studies new musicology contemporary opera and performance studies
