Kaushik Roy, Peter Lorge

Epigraphia Indica 1933 1934 Volume 22:

Chinese and Indian Warfare - From the Classical Age to 1870 Kaushik Roy, Peter Lorge, 2014-12-17 This book examines the differences and similarities between warfare in China and India before 1870 both conceptually and on the battlefield. By focusing on Chinese and Indian warfare, the book breaks the intellectual paradigm requiring non-Western histories and cultures to be compared to the West and allows scholarship on two of the oldest civilizations to be brought together. An international group of scholars compare and contrast the modes and conceptions of warfare in China and India, providing important original contributions to the growing study of Asian military history.

Rewriting Buddhism Alastair Gornall, 2020-03-17 Rewriting Buddhism is the first intellectual history of premodern Sri Lanka's most culturally productive period. This era of reform, 1157-1270, shaped the nature of Theravada Buddhism both in Sri Lanka and also Southeast Asia, and even today continues to define monastic intellectual life in the region. Alastair Gornall argues that the long century's literary productivity was not born of political stability as is often thought, but rather of the social, economic, and political chaos brought about by invasions and civil wars. Faced with unprecedented uncertainty, the monastic community sought greater political autonomy, styled itself as royal court, and undertook a series of reforms, most notably a purification and unification in 1165 during the reign of Parakramabahu I. He describes how central to the process of reform was the production of new forms of Pali literature, which helped create a new conceptual and social coherence within the reformed community, one that served to preserve and protect their religious tradition while also expanding its reach among the more fragmented and localized elites of the period.

Capitals Of Bengal Before Calcutta, Some Famous, Some Lost, Some Not Found

Samir Ganguli, 2025-02-19 While researching for his first book, *Zamindars and Nawabs of Bengal*, the author came across numerous names of erstwhile capitals in Bengal, which inspired him to write this book. The time span covered in this work exceeds 3,000 years. The region known as Bengal during these centuries encompassed present-day West Bengal, Bangladesh, and parts of Odisha, Assam, Bihar, and Jharkhand. Before Calcutta became the capital, there were forty-five known capitals. This book includes the history of thirty-five of them, as lack of information led to the exclusion of ten others. Of the thirty-five capitals, fourteen are in West Bengal, sixteen in Bangladesh, and one each in Bihar and Jharkhand. The book chronicles the history of these capitals and their inhabitants. Most of these capitals were thriving cities with amenities that were on par with, if not more advanced than, contemporary capitals around the world.
