Burridge, 2004-08-09 The publication of Richard Burridge's *What Are the Gospels* in 1992 inaugurated a transformation in Gospel studies by overturning the previous consensus about Gospel uniqueness Burridge argued convincingly for an understanding of the Gospels as biographies a ubiquitous genre in the Graeco Roman world To establish this claim Burridge compared each of the four canonical Gospels to the many extant Graeco Roman biographies Drawing on insights from literary theory he demonstrated that the previously widespread view of the Gospels as unique compositions was false Burridge went on to discuss what a properly biographical perspective might mean for Gospel interpretation which was amply demonstrated in the revised second edition reflecting on how his view had become the new consensus This third twenty fifth anniversary edition not only celebrates the continuing influence of *What Are the Gospels* but also features a major new contribution in which Burridge analyzes recent debates and scholarship about the Gospels Burridge both answers his critics and reflects upon the new directions now being taken by those who accept the biographical approach This new edition also features as an appendix a significant article in which he tackles the related problem of the genre of Acts A proven book with lasting staying power *What Are the Gospels* is not only still as relevant and instructive as it was when first published but will also doubtlessly inspire new research and scholarship in the years ahead Provided by publisher **The Journal of Hellenic Studies** , 1929 *Encyclopedia of Greece and the Hellenic Tradition* Graham Speake, 2021-01-31 Hellenism is the living culture of the Greek speaking peoples and has a continuing history of more than 3 500 years The *Encyclopedia of Greece and the Hellenic Tradition* contains approximately 900 entries devoted to people places periods events and themes examining every aspect of that culture from the Bronze Age to the present day The focus throughout is on the Greeks themselves and the continuities within their own cultural tradition Language and religion are perhaps the most obvious vehicles of continuity but there have been many others law taxation gardens music magic education shipping and countless other elements have all played their part in maintaining this unique culture Today Greek arts have blossomed again Greece has taken its place in the European Union Greeks control a substantial proportion of the

world's merchant marine and Greek communities in the United States, Australia, and South Africa have carried the Hellenic tradition throughout the world. This is the first reference work to embrace all aspects of that tradition in every period of its existence. *Too Far for Comfort* Rana Tekcan, 2014-08-01

The dynamic between the biographer and the subject is perhaps one of the most fascinating aspects of biography as a genre. How does the biographer stage the illusion that is the narrative life, the illusion that the subject assumes a living form through words? In contrast to purely fictional forms, biography writing does not allow total freedom to the biographer in this creative act. Ideally, a biography's backbone is structured by accurate historical facts. But its spirit lies elsewhere. The way a biographer captures the spirit of a subject is intriguingly shaped by the historical distance between the two. We find three types of distance in biographical narrative: First, where the biographer and the subject personally know one another; second, where the biographer is a near contemporary of the subject; and third, where biographer and subject are distinctly separated in some cases by hundreds of years. In this revised and expanded edition, Rana Tekcan explores how some of the most accomplished biographers manage to recreate life across time and space. She looks at their illusionary art through the narrative strategies in Samuel Johnson's *Life of Savage*, James Boswell's *Life of Johnson*, Lytton Strachey's *Eminent Victorians*, Michael Holroyd's *Lytton Strachey*, Park Honan's *Jane Austen*, and Andrew Motion's *Keats*. *The Religion of Greece in Prehistoric Times* Axel Waldemar Persson, 1942 [Greek and Latin Literature](#) John Higginbotham, 2024-08-28

Greek and Latin Literature 1969 examines the two ancient literatures using a comparative method that recognizes the links between them. Most Latin genres owe something to their Greek forebears. How far was Virgil influenced by Homer? Cicero by Demosthenes? Horace by Sappho and Alcaeus? How far did their techniques differ? How far did they share the same interests? Each contributor to this volume aims to answer such questions. **Plato and the Creation of the Hebrew Bible** Russell E. Gmirkin, 2016-08-12

Plato and the Creation of the Hebrew Bible for the first time compares the ancient law collections of the Ancient Near East, the Greeks, and the Pentateuch to determine the legal antecedents for the biblical laws. Following on from his 2006 work *Berosus and Genesis*, Manetho and Exodus, Gmirkin takes up his theory that the Pentateuch was written around 270 BCE using Greek sources found at the Great Library of Alexandria and applies this to an examination of the biblical law codes. A striking number of legal parallels are found between the Pentateuch and Athenian laws, and specifically with those found in Plato's *Laws* of ca. 350 BCE. Constitutional features in biblical law, Athenian law, and Plato's *Laws* also contain close correspondences. Several genres of biblical law, including the Decalogue, are shown to have striking parallels with Greek legal collections, and the synthesis of narrative and legal content is shown to be compatible with Greek literature. All this evidence points to direct influence from Greek writings, especially Plato's *Laws*, on the biblical legal tradition. Finally, it is argued that the creation of the Hebrew Bible took place according to the program found in Plato's *Laws* for creating a legally authorized national ethical literature, reinforcing the importance of this specific Greek text to the authors of the Torah and Hebrew Bible in the early Hellenistic Era. This study offers a fascinating analysis of the background

to the Pentateuch and will be of interest not only to biblical scholars but also to students of Plato ancient law and Hellenistic literary traditions *The Poetry of Homer* Samuel Eliot Bassett, *The Classical Review*, 1929 **Catalogue**,

Reports to the President of Yale University Yale University, 1923 Some issues include reports of the secretary and other officers of the University *Judas* William Klassen, 1996 This fascinating book sifts the evidence and startlingly concludes that in the earliest sources Judas was not a traitor While the name Judas Iscariot evokes horror among many people Klassen argues persuasively that Judas may have meant no harm in handing over Jesus to the religious authorities The book traces the ways in which Judas is portrayed by the four writers of the gospels showing how the picture was increasingly demonized as the later gospels were written This is the most important study in English of Judas within the context of first century Judaism Klassen shows by rich reference to literature of both the ancient period and later times how the concept of Judas as traitor emerged **The Biographer and the Subject** Rana Tekcan, 2010-03-01 A good biography is a well staged illusion It creates on paper a vivid rounded and immediate sense of lived life In contrast to purely fictional forms biography writing does not allow total freedom to the biographer in the creative act Ideally a biography's backbone is formed by accurate historical facts But its soul lies elsewhere Since the concern is life something more is needed Nothing dry cold or dead but a vibrant impression of life that is left in the air after one turns over the last page But how does a biographer do it The way a biographer creates a subject is largely dictated by the historical distance between them There are three types of distance in biographical writing First where the biographer and the subject personally know one another second where the biographer is a near contemporary of the subject and third where biographer and subject are distinctly separated in some cases by hundreds of years Tekcan explores how some of the most accomplished biographers manage to recreate life across time and space She closely examines Samuel Johnson's *Life of Mr Richard Savage* James Boswell's *Life of Samuel Johnson* Lytton Strachey's *Eminent Victorians* Michael Holroyd's *Lytton Strachey* Park Honan's *Jane Austen* and Andrew Motion's *Keats*

Marcus Aurelius in the Historia Augusta and Beyond Geoffrey William Adams, 2013 This book examines the biography of the Roman Emperor Marcus Aurelius It seeks to further understand the author of the Historia Augusta alongside the reminiscences of the Emperor Marcus Aurelius Geoff W Adams arrives at this understanding through a study of a wide range of literary texts Marcus Aurelius was a very important ruler of the Roman Empire who has had an impact symbolically philosophically and historically upon how the Roman Empire has been envisioned Adams achieves this end to bring a clearer understanding to his representation and to modern interpretations of his highly interpreted and romanticized representations in the ancient texts

Seconding Sinai Hindy Najman, 2003-03-01 What is meant by attributing texts to Moses in Hebrew Bible and Second Temple Judaism The answer depends not only on the history of texts but also on the history of concepts of textuality This book criticizes the terms Pseudepigraphy and Rewritten Bible which presuppose conceptions of authentic attribution and textual fidelity foreign to ancient Judaism Instead this book develops the concept of a discourse whose creativity and authority depend on repeated returns to the exemplary figure and experience of a founder Attribution to Moses is a central example whose function is to re present the experience of revelation

at Sinai Distinctive features of Mosaic discourse are studied in Deuteronomy Jubilees the Temple Scroll and the works of Philo of Alexandria *Intellectuals in Politics in the Greek World(Routledge Revivals)* Frank Vatai,2014-06-17 *Intellectuals in Politics in the Greek World* first published in 1984 was the first comprehensive study of this recurrent theme in political sociology with specific reference to antiquity and led to significant revaluation of the role of intellectuals in everyday political life The term intellectual is carefully defined and figures as diverse as Pythagoras Plato and Aristotle Isocrates Heracleides of Ponteiuss and Clearchus of Soli are discussed The author examines the difference between the success of an intellectual politician like Solon and the failure of those such as Plato who attempted to mould society to abstract ideals It is concluded that ultimately most philosophers were conspicuously unsuccessful when they intervened in politics citizens regarded them as propagandists for their rulers while rulers treated them as intellectual ornaments The result was that many thinkers retreated to inter scholastic disputation where the political objects of discussion increasingly became far removed from contemporary reality *Death by Philosophy* Ava Chitwood,2004 Brings to vivid life the connections between philosophy and biography by examining the spectacular and often wildly implausible biographies of famous pre Socratic thinkers
