Uncivil Rights Jonna Perrillo, 2024-05-31 Almost fifty years after Brown v Board of Education a wealth of research shows that minority students continue to receive an unequal education At the heart of this inequality is a complex and often conflicted relationship between teachers and civil rights activists examined fully for the first time in Jonna Perrillo's *Uncivil Rights* which traces the tensions between the two groups in New York City from the Great Depression to the present While movements for teachers rights and civil rights were not always in conflict Perrillo uncovers the ways they have become so brought about both by teachers who have come to see civil rights efforts as detracting from or competing with their own goals and by civil rights activists whose aims have deprofessionalized the role of the educator Focusing in particular on unionized teachers Perrillo finds a new vantage point from which to examine the relationship between school and community showing how in this struggle educators activists and especially our students have lost out

length study of civil rights litigation from the late 1960s through the early 1980s *Race Relations Litigation in an Age of Complexity* fills a void in the scholarly literature on American courts and politics in the post *Brown versus Board of Education* era *Directory of Researchers in Educational Finance and Governance* Susan J. Peters, 1984 **School Choice Policies and Outcomes** Walter Feinberg, Christopher Lubienski, 2008-10-16 Perhaps no school reform has generated as much interest and controversy in recent years as the proposal to have parents select their children's schools Opponents of school choice fear that rolling back the government's role will lead to profit driven financial scandals sectarianism and increased class and racial isolation School choice advocates believe that state provision oversight and regulation stifle entrepreneurial creativity The contributors to this volume not only provide a clear assessment of the logic and evidence supporting the different sides of the debate but also unmask the assumptions about the relationship between markets government and educational achievement Their message is that neither markets nor government alone will guarantee freedom equality achievement or community If choice is to improve education and advance equality then educational policy cannot be placed on automatic and left to the free market Rather choice policy must be deliberately directed toward meeting these goals and this book shows how that could be accomplished
