Ernest Oppenheimer Economic Development:

Ernest Oppenheimer and the Economic Development of Southern Africa Theodore Emanuel Gugenheim Gregory, 2013-06

Ernest Oppenheimer and the Economic Development of Southern Africa Theodor Emanuel Gregory, 1962 The author of this factually detailed book was originally commissioned by Anglo American Corporation of South Africa to write a history of that institution but it was decided after the death of Ernest Oppenheimer to link the company history directly to his name As a conventional company history the book is strong on details but devoid of any serious criticism of the company and its leaders The focus is on the mining and marketing of diamonds and there are therefore several references to the development of mining in Namibia The author shows for example that the acquisition of monopoly control over the Namibian diamond fields through an Anglo subsidiary Consolidated Diamond Mines CDM played an important role in the formation of the newsyndicate in 1925 There is also some information of the strategy of De Beers during the depression in the 1930s during which CDM was closed down altogether for several years For another study of the Oppenheimer empire with fewer details see Edward Jessup Ernest Oppenheimer a study in power London Rex Collings 1979 357 p From a quite different perspective Duncan Innes has recently published a well documented and critical analysis of Anglo American Corporation Anglo American and the rise of modern South Africa Johannesburg London 1984 Eriksen Moorsom 1989 Ernest Oppenheimer and the Economic Development of Southern Africa Sir Theodore Gregory, 1962 Digging Deep Jade Davenport, 2013-12-18 Before the advent of the great mineral revolution in the latter half of the 19th century South Africa was a sleepy colonial backwater whose unpromising landscape was seemingly devoid of any economic potential Yet lying just beneath the dusty surface of the land lay the richest treasure trove of gold diamonds platinum coal and a host of other metals and minerals that has ever been discovered in one country It was the discovery and exploitation of first diamonds in 1870 and then gold in 1886 that proved the catalyst to the greatest mineral revolution the world has ever known which transformed South Africa into the supreme industrialised power on the African continent Here for the first time is the complete history of South Africa s phenomenal mineral revolution spanning a period of more than 150 years from its earliest commercial beginnings to the present day incorporating seven of the major commodities that have been exploited Digging Deep describes the establishment and unparalleled growth of mining tracing the history of the industry from its humble beginnings where copper was first mined on a commercial basis in Namaqualand in the Cape Colony in the early 1850s to the discovery and exploitation of the country s other major mineral commodities This is also the story of how mining gave rise to modern South Africa and how it compelled the country to develop and progress the way in which it did It also incorporates the stories of the visionary men Cecil Rhodes Alfred Beit Barney Barnato Sir Ernest Oppenheimer Sammy Marks and Hans Merensky who pioneered and shaped the development of the industry on which modern South Africa was built Harry Oppenheimer Michael Cardo, 2023-03-05 This book will surely be the most readable best informed most complete account of Harry

Oppenheimer's life there is ever likely to be Bill Nasson historian and author As chairman of Anglo American and De Beers Harry Oppenheimer held sway over his family's gold and diamond empire for a quarter of a century He combined a passion for commerce with a streak of creative genius In this the first comprehensive biography of Oppenheimer Michael Cardo has produced a vivid portrait based on unrestricted access to his subject's private papers and interviews with Oppenheimer's relatives and associates Cardo brings to life the places people and events that shaped Oppenheimer's career at the intersection of business and politics From the diamond fields of Kimberley where his father Ernest arrived to seek his fortune in 1902 through his long apprenticeship as heir apparent to Harry Oppenheimer's emergence on the world stage as a magnate and monarch in his own right the King of Diamonds and the man with the Midas touch Cardo tells the story of a dynasty As a financier philanthropist and public figure Oppenheimer straddles the history of 20th century South Africa In the 1950s the National Party regarded him as a threat to Afrikanerdom the sinister embodiment of English money power Forty years later Nelson Mandela praised Oppenheimer as a nation builder a key figure in South Africa's transition to democracy Yet nowadays Oppenheimer is demonised in some quarters as the archetype of white monopoly capital and blamed in part for democracy's disappointing dividends Meticulously researched and superbly written this authoritative work sheds new light on the multifaceted legacy of a renowned South African industrialist **Copper King in Central Africa** Hyden

Munene, 2022-01-31 **Copper King in Central Africa** offers a detailed account of the corporate history of the Rhokana Rokana Corporation and its Nkana mine Thematically and chronologically organised it explores the discovery of viable ores on the Northern Rhodesian/Zambian Copperbelt in the late 1920s which attracted foreign capital from South Africa Britain and the USA prompting the development of the Nkana mine and the formation of the Rhokana Corporation in the early 1930s It follows through the evolution of the copper mining industry up to the re-privatisation of the Zambian mining sector in 1991 The book ties into a single narrative the disparate themes of corporate organisation labour relations and profitability of Rhokana demonstrating how the firm was for a time the most important mining entity in the Northern Rhodesian/Zambian mining industry Rhokana was both an investment firm on the Copperbelt and a mining company through Nkana mine Thus the Corporation was central to the development and profitability of the copper industry in Zambia Its corporate and labour policies influenced the Copperbelt as a whole Employing the largest labour force in the mining sector Rhokana spearheaded the labour movement on the Copperbelt Its Nkana mine was also the largest producer of copper in the Northern Rhodesian mining industry between 1940 and 1953 and contributed hugely to the war economies of Britain and the USA Throughout its history Nkana was also a major source of cobalt After nationalisation of the mining sector in 1970 Rhokana surrendered its investments in the wider copper industry but remained central to the Copperbelt's smelting and refining operations owning the biggest metallurgical facilities in the industry **Africa, Asia, and South America Since 1800** A. J. H. Latham, 1995 A reference for graduate and undergraduate students presenting the bibliographic details and sometimes describing and

evaluating the content of over 5 000 books in English most published since 1945 and many quite recently but also some earlier works of enduring importance A section of works on all three continents is followed by sections on each which first consider the continent as a whole then each country usually by chronological periods and topics such as economics politics and society Indexed only by author and editor but the table of contents is detailed enough to provide adequate access

Distributed in the US by St Martin s Press Annotation copyright Book News Inc Portland Or **Blood, Sweat and Earth** Tijl Vanneste,2021-09-16 A sweeping history of our enduring passion for diamonds and the exploitative industry that fuels it Blood Sweat and Earth is a hard hitting historical expos of the diamond industry focusing on the exploitation of workers and the environment the monopolization of uncut diamonds and how little this has changed over time It describes the use of forced labor and political oppression by Indian sultans Portuguese colonizers in Brazil and Western industrialists in many parts of Africa as well as the hoarding of diamonds to maintain high prices from the English East India Company to De Beers While recent discoveries of diamond deposits in Siberia Canada and Australia have brought an end to monopolization the book shows that advances in the production of synthetic diamonds have not yet been able to eradicate the exploitation caused by the world s unquenchable thirst for sparkle **Diamonds** Ian Smillie,2014-04-10 Diamonds are a multi billion dollar business involving some of the world s largest mining companies a million and a half artisanal diggers more than a million cutters and polishers and a huge retail jewellery sector But behind the sparkle of the diamond lies a murkier story in which rebel armies in Angola Sierra Leone and the Congo turned to diamonds to finance their wars Completely unregulated so called blood diamonds became the perfect tool for money laundering tax evasion drug running and weapons trafficking Diamonds brings together for the first time all aspects of the diamond industry In it Ian Smillie former UN Security Council investigator and leading figure in the blood diamonds campaign offers a comprehensive analysis of the history and structure of today s diamond trade the struggle for effective regulation and the challenges ahead There is he argues greater diversification and competition than ever before but thanks to the success of the Kimberley Process this coveted and prestigious gem now represents a fragile but renewed opportunity for development in some of the world s poorest nations This part of the diamond story has rarely been told **Studies in the Economic History of Southern Africa** Z.A. Konczacki,Jane L. Parpart,Timothy M. Shaw,2014-01-14 First Published in 1990 Volume Two of Studies of Economic History of South Africa looks at the Lesotho and Swaziland regions The unfolding history and historiography of Southern Africa pose profound challenges for both analysis and praxis in the last decade of the twentieth century These challenges are reflected in the range of investigations and contradictions some of which are treated here which together constitute an intellectual and political conjuncture This collection of studies deals with the countries which were not included in the companion book on the economic history of the Front Line States Most of the space in the present volume is devoted to South Africa primarily because of its importance to the region but also because contributions to the economic history of that country in English are

very extensive as compared to the other states of Southern Africa International Bibliography of Business History Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians *Yours for the Union* Baruch Hirson, 2017-02-15 Yours for the Union stands as a landmark history of the making of the black working class in South Africa Drawing on a wide range of sources it covers the crucial period of 1930-47 when South Africa's rapid industrialisation led to the dramatic growth of the working class and uncontrolled urbanisation resulted in vast shanty towns which became a focal point for resistance and protest Importantly Hirson was one of the first historians to go beyond the traditional focus on the mines and factory workplaces broadening his account to include the lesser known community struggles of the urban ghettos and rural reserves Written by an author with first hand involvement in South African labour struggles Yours for the Union broke new ground with its account of the effort to mobilise urban squatters domestic workers and rural peasants and remains an indispensable resource for the study of the South African labour movement **Capital and Labour on the Kimberley Diamond Fields, 1871-1890** Robert Vicat Turrell, 1987-09-17 Based on new documentary sources this history of diamond mining in Kimberley is a major study of South Africa's mineral revolution and the formation of De Beers Consolidated Mines one of the most successful African mining companies Living Under Apartheid David M. Smith, 2023-07-28 Originally published in 1982 this book covers the unique spatial structure of society which was South Africa under apartheid It brings together a cohesive set of research based contributions to the understanding of this system which was without contemporary parallels The book considers issues such as industrial location and migrant labour at a national scale The case studies which are fully illustrated deal with problems associated with work and housing for blacks set in the 3 major metropolitan areas of Cape Town the Witwatersrand and Durban Of particular importance is the emphasis given to so called spontaneous or squatter settlement and to informal sector work for blacks in the emerging apartheid city something which links directly with central issues of development studies **Class, Race and Gold** Frederick A. Johnstone, 2022-10-05 Originally published in 1976 this book is a sociological and historical study of class and race relations in a crucial sector of South Africa the gold mining industry during and following the First World War The author develops a Marxist structuralist explanation of the system of racial discrimination and then goes in to examine the significant historical

events of this formative period notably those surrounding the strike and uprising of the white workers in 1922 The book explains a system of racial domination essentially in terms of the class positions and problems of the dominating groups and examines historical developments concerning race in terms of class **White Mineworkers on Zambia's Copperbelt, 1926-1974** Duncan Money, 2021-12-06 Life and work on the Zambian Copperbelt a concentrated industrialised mining region along the border with DR Congo has been a perennial subject for Africanist historians In this book Duncan Money for the first time focusses on the white mineworkers who monopolised skilled jobs on the mines from the 1920s to the 1960s and became one of the most affluent groups of workers on the planet Money argues that this group was a highly mobile global workforce which constituted and saw itself as a racialised working class For much of the twentieth century this white working class moved between mining and industrial centres across and beyond the British Empire and their actions and forms of organisation were strongly influenced by their international connections and by their mobility These transnational connections and the white working class militancy they produced played a crucial role in shaping social categories of race and class on the Copperbelt and determining the evolution of a region which quickly became one of the world's largest sources of copper See inside the book **Capital and Labour on the Rhodesian Railway System, 1888-1947** Jon Lunn, 1996-11-20 This important book is the first in depth history of the Rhodesian railway system Covering the period 1888-1947 when the Rhodesian railway system was privately owned by Cecil Rhodes's British South Africa Company this book uses the Rhodesian railway system as a prism through which it refracts many dimensions of the imperial experience in central and southern Africa ranging from the impulses underpinning the regional ambitions of Rhodes himself to the origins of black worker protest in the Rhodesias Democracy and Governance Review Yvonne G. Muthien, Meshack M. Khosa, Bernard Magubane, 2000 Authoritarian regimes of various sorts have crumbled worldwide to give way to liberal constitutional democracies Prerequisites for the consolidation of the new democracies are regular free and fair elections granting political parties legitimate authority and citizens protection by the rule of law Making a Killing Madelaine Drohan, 2010-08-06 A dramatic and compelling journey into the dark heart of globalization What happens when multinational corporations decide that the use of armed force is just business by other means In Making a Killing Madelaine Drohan looks at the shocking number of companies that have linked up with mercenaries warlords armies and private militias in order to make a profit In a world where multinationals often rival national governments in size and clout the implications of such partnerships are ominous What leads respectable corporations down the path to violence Drohan answers this question by examining the actions of several companies operating in Africa such as Ranger Oil West Africa which used the mercenary group Executive Outcomes to take on rebels in Angola's long running civil war and Talisman Energy whose security was provided by Sudanese army units conducting a scorched earth policy in the oil fields Drohan traces the modern roots of corporate armed force beginning with Cecil Rhodes's British South Africa Company which at the turn of the century built its own army Also

included is the stranger than fiction tale of ex MI5 spymaster Sir Percy Sillitoe who was hired by the De Beers diamond king to prevent the Soviet Union from acquiring smuggled diamonds in order to develop the hydrogen bomb These accounts read like adventure stories in the tradition of Rudyard Kipling and Ian Fleming but they are essential reading for anyone interested in the effects of unfettered multinational influence Making a Killing provides a road map for corporations policy makers and investors struggling to come to terms with their roles in today s increasingly globalized world

Colonialism in Africa 1870-1960: Volume 5, A Bibliographic Guide to Colonialism in Sub-Saharan Africa L. H. Gann, Peter Duignan, 1969 A comprehensive study of recent African history examining the political social and economic effects of colonialism
