Library, 1990 **Ernst Ludwig Kirchner** Ernst Ludwig Kirchner, Bernhard Bürgi, 2003 The German born Expressionist artist Ernst Ludwig Kirchner 1880 1938 first came to Davos in 1917 on a rest cure His body and mind devastated by the war mountain life promised recovery and proved extremely fruitful artistically If at first Kirchner met his new environment with the same nervous brushstrokes and perspectivist escalations found in his Berlin street scenes his inner turmoil soon subsided producing calmer and stronger bands of pigment and later an exalted experience of nature New imagery resulted as well going beyond Kirchner's primary focus on landscapes to include interiors and a series of self portraits and figure paintings of rural neighbors With its selection of paintings works on paper sculptures photographs and tapestry from European and American private collections this monograph shows how Kirchner after Segantini and Hodler became the third great painter of the Alps Life in the Mountains finishes with works from the years 1925 26 when Kirchner returned to Germany leaving his union with the natural life behind Hand and Head Peter Springer, 2002-05 Springer sees in it not a harsh condemnation of militarism but a marked ambivalence in the artist's attitude toward war This new reading of the painting grows out of

Springer's assessment of its imagery in relation to patronage, gender relations and national identity and particularly to propaganda and satire. Using Kirchner's letters and other documentation much of it only recently available, Springer reconstructs the years of Kirchner's military service.

*Drawing from the Modern: 1880-1945* Jodi Hauptman, Museum of Modern Art (New York, N.Y.), 2004

While art history has made room for the flurry of movements that emerged in the period following World War II, the myriad artistic developments of the last thirty years have yet to be assigned firm historical categories. *Drawing from the Modern* 1975-2005, the final installment in a series of inaugural year exhibitions produced by the Department of Drawings, attempts to tell a provisional story of the years from 1975 to the present as reflected through MoMA's singular drawings collection. While making no claims to comprehensiveness, the installation details both the blossoming of different art positions on a broad international scale in this era and the coming of age of drawing as an independent and for many artists primary mode of expression. Organized chronologically and in loose clusters of artists working in the same milieu or vein of interest, the exhibition features works by more than fifty artists, including Bruce Nauman, Gerhard Richter, Martin Kippenberger, Marlene Dumas, Gabriel Orozco, Kara Walker, and Luc Tuymans.

*Ernst Ludwig Kirchner* Pamela Kort, 2008

A founding member of the early twentieth-century German avant-garde artists group Die Brücke, Ernst Ludwig Kirchner moved to Berlin in 1912 and became enthralled by what he called the symphony of the great city. He responded to the intensity of Berlin's street life by recording the urban spectacle around him, most notably in *Berlin Street Scene* 1913-14, which is widely considered one of the greatest German paintings of the twentieth century. This beautifully illustrated scholarly volume, written and edited by the noted independent curator and art historian Pamela Kort, provides a full exploration of the history and significance of Kirchner's masterpiece. Featuring full reproductions and details of *Berlin Street Scene* and other related artworks, as well as plentiful documentary photographs and supporting materials, this volume illuminates the ominous force of nervous energy and sexual tension that Kirchner sensed lurking beneath the veneer of civilized life.

**FRÄNZI - End of an error. Three "Brücke"-Artists - One Model** Gerd Presler, 2016-01-23

What was it that fascinated the three painters? In an environment suppressed by provincial, deadlocked standards, Fränzi embodied the kind of freedom that was maintained only in distant archipelagos: a freedom that expressed uninhibited nudity and the joy of movement. A celebration, an inspiration for the painters.

*Ernst Ludwig Kirchner - the sketchbooks* Katharina Beisiegel, 2019

The small-format oilcloth booklets that Ernst Ludwig Kirchner fills throughout his life—page for page with pencil, crayon, chalk, ink, watercolor paints, or charcoal—were for him who didn't spend a day without a sketchbook: drawn diaries, documentation, and experiment room. The masterly talent of the painter for drawing is revealed in them. With a few precise strokes, he could

capture whole sceneries Kirchner recorded everything his artistic eye appealed to him for painting and sometimes animated to write The inconspicuous black booklets form their own and unique genre in Ernst Ludwig Kirchner s oeuvre and are among the most important original documents for art historical research For the very first time they were published within the publication for the exhibition Kirchner s Sketchbook From Pencil Stroke To Hologram in Kirchner Museum Davos The sketchbooks show which like no other genre motive groups occupied Kirchner throughout his life and how he got his stylistic development from the street scenes to the New Style in thousands of sketches worked out Based on their studies it is possible tracing genesis from draft to finished painting
