Genlis she excavates a complex community of European and British women authors In chapters that incorporate history network theory and feminist literary history she examines the century and a half literary lineage connecting Madame de Maintenon to Mary Wollstonecraft including Charlotte Lennox and Fran oise de Graffigny and their radical responses to sexual violence Neither simply a reaction to nor collusion with patriarchal and national literary forms but rather both women s writing offered an invitation to group membership through a literary project of self transformation In so doing argues Cheek women s writing was the first modern literary category to capitalize transnationally on the virtue of identity anticipating the global literary marketplace s segmentation of affinity based reading publics and continuing to define women s writing to this day Routledge Library Editions: Percy Shelley Various,2021-03-11 Percy Shelley is widely considered one of the most important Romantic poets of the 19th Century and was a key influence on the Victorian and pre Raphaelite poets in the century following his death in 1822 However for many years his writing was largely ignored in the mainstream due to the radical politics he espoused and it is only in relatively recent times he has become universally admired Routledge Library Editions Percy Shelley collects a broad range of scholarship ranging from examinations of Shelley s style and political intentions to an assessment of his impact on the broader Romantic Movement This set reissues 4 books on Percy Shelley originally published between 1945 and 2009 and will be of interest to students of literature and literary history **The Routledge International Handbook of Interracial and Intercultural Relationships and Mental Health** Shivon Raghunandan,Roy Moodley,Kelley Kenney,2025-07-08 The Routledge International Handbook of Interracial and Intercultural Relationships and Mental Health presents critical theoretical empirical and psychological accounts of intercultural intimacies It challenges pervasive Eurocentric discourse and ideas and offers current scholarly practical equitable global and intercultural responsive philosophies theories clinical frameworks and practices The chapters in this text offer critical perspectives on the mental health and well being of intercultural couples inclusive of multi cultural multi ethnic multi faith multi sexual multi racial multi gendered multi abled couples and their intersections A diverse range of international contributors present an intersectional analysis of traditional and contemporary cultural ideas and relationship philosophies and explore multiple global and cultural psychologies that shape the health and well being of intercultural couples and their families This handbook is essential for students educators mental health clinicians and researchers in counselling psychotherapy clinical psychology psychiatry and social work programmes **Gay and Lesbian Politics** Mark Blasius,1994 An active participant in and theorist of the gay and lesbian movement Mark Blasius contends that being gay or lesbian is by definition political By extension the phenomenon of a movement founded on collective identity is a quintessential part of American politics The continually rising public consciousness of the needs and interest of gays and lesbians provides Blasius with a vehicle for showing how a particular aspect of human life comes to assume political dimensions Upon this premise he analyzes the process of how power is exercised through sexuality and traces the historical conditions that have made possible

a gay and lesbian politics Drawing on works of political philosophy social science including Foucault and gay and lesbian studies Blasius explores the invention of a gay and lesbian ethos through which participation even for apolitical gays and lesbians goes beyond a shared culture and perspective It is a way of life more encompassing than either sexual orientation or lifestyle alone Though he acknowledges and reflects upon the divergent range of gay and lesbian experiences Blasius provides a framework based on theories of power sexuality and ethics that elaborates the significance of the movement as a whole within contemporary society Author note Mark Blasius Associate Professor of Political Science at City University of New York LaGuardia is the co author of *We Are Everywhere An Historical Sourcebook in Gay and Lesbian Politics* Loving Creation Gary Chartier,2022 Gary Chartier offers an alternative to natural law theories that disregard people s welfare and embrace impartiality He envisions Christian love as focused on creation to enrich social practices and personal life *Loving Creation* contributes to theological understanding personal moral reflection church practice and participation in public life

Queer Faith Melissa E. Sanchez, 2019-08-20 Honorable Mention 2020 Aldo and Jeanne Scaglione Prize given by the Modern Language Association Uncovering the queer logics of premodern religious and secular texts Putting premodern theology and poetry in dialogue with contemporary theory and politics *Queer Faith* reassesses the commonplace view that a modern veneration of sexual monogamy and fidelity finds its roots in Protestant thought What if this narrative of history and tradition suppresses the queerness of its own foundational texts *Queer Faith* examines key works of the prehistory of monogamy from Paul to Luther Petrarch to Shakespeare to show that writing assumed to promote fidelity in fact articulates the affordances of promiscuity both in its sexual sense and in its larger designation of all that is impure and disorderly At the same time Melissa E Sanchez resists casting promiscuity as the ethical queer alternative to monogamy tracing instead how ideals of sexual liberation are themselves attached to nascent racial and economic hierarchies Because discourses of fidelity and freedom are also discourses on racial and sexual positionality excavating the complex historical entanglement of faith race and eroticism is urgent to contemporary queer debates about normativity agency and relationality Deliberately unfaithful to disciplinary norms and national boundaries this book assembles new conceptual frameworks at the juncture of secular and religious thought political and aesthetic form It thereby enlarges the contexts objects and authorized genealogies of queer scholarship Retracing a history that did not have to be Sanchez recovers writing that inscribes radical queer insights at the premodern foundations of conservative and heteronormative culture

Against Purity Alexis Shotwell, 2016-12-06 The world is in a terrible mess It is toxic irradiated and full of injustice Aiming to stand aside from the mess can produce a seemingly satisfying self righteousness in the scant moments we achieve it but since it is ultimately impossible individual purity will always disappoint Might it be better to understand complexity and indeed our own complicity in much of what we think of as bad as fundamental to our lives *Against Purity* argues that the only answer if we are to have any hope of tackling the past present and future of colonialism disease pollution and climate change is a resounding yes Proposing a powerful new conception of social movements as custodians for the past and incubators for liberated futures *Against Purity* undertakes an analysis that draws on theories of race disability gender and animal ethics as a foundation for an innovative approach to the politics and ethics of responding to systemic problems Being against purity means that there is no primordial state we can recover no Eden we have desecrated no pretoxic body we might uncover through enough chia seeds and kombucha There is no preracial state we could access no erasing histories of slavery forced labor colonialism genocide and their concomitant responsibilities and requirements There is no food we can eat clothes we can buy or energy we can use without deepening our ties to complex webbing of suffering So what happens if we start from there Alexis Shotwell shows the importance of critical memory practices to addressing the full implications of living on colonized land how activism led to the official reclassification of AIDS why we might worry about studying amphibians when we try to fight industrial contamination and that we are all affected by nuclear reactor meltdowns The slate has never been clean she reminds us and we can't wipe off the surface to start fresh there's no fresh to start But Shotwell argues hope found in a kind of distributed ethics in collective activist work and in speculative fiction writing for gender and disability liberation that opens new futures
