Erotic Antiques Or Love Is An Antic Thing:

Erotic Antiques Harriet Bridgeman, 1974 **Subject Catalog, 1975** Library of Congress, 1975 *Library of Congress Catalogs* Library of Congress, 1976 Late Antique Epistemology P. Vassilopoulou, S. Clark, 2009-02-12 Late Antique Epistemology explores the techniques used by late antique philosophers to discuss truth Non rational ways to discover truth or to reform the soul have usually been thought inferior to the philosophically approved techniques of rational argument suitable for the less philosophically inclined for children savages or the uneducated Religious rituals oracles erotic passion madness may all have served to waken courage or remind us of realities obscured by everyday concerns What is unusual in the late antique classical philosophers is that these techniques were reckoned as reliable as reasoned argument or better still Late twentieth century commentators have offered psychological explanations of this turn but only recently had it been accepted that there might also have been philosophical explanations and that the later antique philosophers were not necessarily deluded *Families in the Roman and Late Antique World* Lena Larsson Loven, Mary Harlow, 2012-02-02 This volume seeks to explain developments within the structure of the family in antiquity in particular in the later Roman Empire and late antiquity Contributions extend the traditional chronological focus on the Roman family to include the transformation of familial structures in the newly formed kingdoms of late antiquity in Europe thus allowing a greater historical perspective and establishing a new paradigm for the study of the Roman family Drawing on the latest research by leading scholars in the field the book includes new approaches to the life course and the family in the Byzantine empire family relationships in the dynasty of Constantine the Great death burial and commemoration of newborn children in Roman Italy and widows and familial networks in Roman Egypt In short this volume seeks to establish a new agenda for the understanding of the Roman family and its transformation in late antiquity **The Dynamics of Paratextuality in Late Antique Literature** Christian Guerra, Markus Kersten, Ann-Kathrin Stähle, 2024-11-14 Through an examination of paratextuality in late antique literature this collection of essays reconsiders the importance of the written material that appears in the margins of ancient poetic texts Paratexts such as headings prefaces letters et al have largely been skimmed over or completely disregarded in favour of the main ancient work However there is now a new wave of scholarship that takes into consideration the reading of books in line with the different margins or frames and the structures de constructed by them A salient feature of late antique poetry is the presence of the paratextual For example the prefaces of Ausonius Claudian Avianus Sidonius Apollinaris and Venantius Fortunatus are studied in their own right by the contributors who present new understandings and interpretations of the aims of these late antique writers In keeping with its subject matter this volume presents a multitude of approaches intended not only to look at but rather to read and take seriously the paratextual material The result is a reframing of our appreciation of the marginal matter which has up until this point been overlooked *The Evolution of Love* Emil Lucka, 1922

Narrative, Imagination and Concepts of Fiction in Late Antique Hagiography , 2023-11-13 This volume explores

concepts of fiction in late antique hagiographical narrative in different cultural and literary traditions It includes Greek Latin Syriac Armenian Persian and Arabic material Whereas scholarship in these texts has traditionally focussed on historical questions this book approaches imaginative narrative as an inherent element of the genre of hagiography that deserves to be studied in its own right The chapters explore narrative complexities related to fiction such as invention authentication intertextuality imagination and fictionality Together they represent an innovative exploration of how these concepts relate to hagiographical discourses of truth and the religious notion of belief while paying due attention to the various factors and contexts that impact readers responses **The Babylonian Talmud and Late Antique Book Culture** Monika

Amsler,2023-04-06 In this book Monika Amsler explores the historical contexts in which the Babylonian Talmud was formed in an effort to determine whether it was the result of oral transmission Scholars have posited that the rulings and stories we find in the Talmud were passed on from one generation to the next each generation adding their opinions and interpretations of a given subject Yet such an oral formation process is unheard of in late antiquity Moreover the model exoticizes the Talmud and disregards the intellectual world of Sassanid Persia Rather than taking the Talmud s discursive structure as a sign for orality Amsler interrogates the intellectual and material prerequisites of composers of such complex works and their education and methods of large scale data management She also traces and highlights the marks that their working methods inevitably left in the text Detailing how intellectual innovation was generated Amsler s book also sheds new light on the content of the Talmud This title is also available as Open Access on Cambridge Core **From an Antique Land** Carl S.

Ehrlich,2009-01-16 From an Antique Land introduces the various cultures and literatures of the Ancient Near East including literature originally written in Egyptian Sumerian Akkadian Hittite Ugaritic Canaanite Hebrew and Aramaic The timeframe extends from the invention of writing through **The Genres of Late Antique Christian Poetry** Fotini Hadjittofi,Anna

Lefteratou,2020-10-12 Classicizing Christian poetry has largely been neglected by literary scholars but has recently been receiving growing attention especially the poetry written in Latin One of the objectives of this volume is to redress the balance by allowing more space to discussions of Greek Christian poetry The contributions collected here ask how Christian poets engage with and are conscious of the double reliance of their poetry on two separate systems on the one hand the classical poetic models and on the other the various genres and sub genres of Christian prose Keeping in mind the different settings of the Greek speaking East and the Latin speaking West the contributions seek to understand the impact of historical setting on genre the influence of the paideia shared by authors and audiences and the continued relevance of traditional categories of literary genre While our immediate focus is genre most of the contributions also engage with the ideological ramifications of the transposition of Christian themes into classicizing literature This volume offers important and original case studies on the reception and appropriation of the classical past and its literary forms by Christian poetry Catalogue

J.B. Muns (Firm), The School of Libanius in Late Antique Antioch Raffaella Cribiore,2016-07-26 This book is a study of the

fourth century sophist Libanius a major intellectual figure who ran one of the most prestigious schools of rhetoric in the later Roman Empire He was a tenacious adherent of pagan religion and a friend of the emperor Julian but also taught leaders of the early Christian church like St John Chrysostom and St Basil the Great Raffaella Cribiore examines Libanius's training and personality showing him to be a vibrant educator though somewhat gloomy and anxious by nature She traces how he cultivated a wide network of friends and former pupils and courted powerful officials to recruit top students Cribiore describes his school in Antioch how students applied how they were evaluated and trained and how Libanius reported progress to their families She details the professional opportunities that a thorough training in rhetoric opened up for young men of the day Also included here are translations of 200 of Libanius's most important letters on education almost none of which have appeared in English before Cribiore casts into striking relief the importance of rhetoric in late antiquity and its influence not only on pagan intellectuals but also on prominent Christian figures She gives a balanced view of Libanius and his circle against the far flung panorama of the Greek East

In an Antique Land Amitav Ghosh, 2011-07-20 Once upon a time an Indian writer named Amitav Ghosh set out an Indian slave name unknown who some seven hundred years before had traveled to the Middle East The journey took him to a small village in Egypt where medieval customs coexist with twentieth century desires and discontents But even as Ghosh sought to re create the life of his Indian predecessor he found himself immersed in those of his modern Egyptian neighbors Combining shrewd observations with painstaking historical research Ghosh serves up skeptics and holy men merchants and sorcerers Some of these figures are real some only imagined but all emerge as vividly as the characters in a great novel In an Antique Land is an inspired work that transcends genres as deftly as it does eras weaving an entrancing and intoxicating spell

Late Antique Letter Collections Cristiana Sogno, Bradley K. Storin, Edward J. Watts, 2019-11-19 Bringing together an international team of historians classicists and scholars of religion this volume provides the first comprehensive overview of the extant Greek and Latin letter collections of late antiquity ca 300-600 CE Each chapter addresses a major collection of Greek or Latin literary letters introducing the social and textual histories of each collection and examining its assembly publication and transmission Contributions also reveal how collections operated as discrete literary genres with their own conventions and self presentational agendas This book will fundamentally change how people both read these texts and use letters to reconstruct the social history of the fourth fifth and sixth centuries

Non-Elegiac Latin Love Poetry of Late Antiquity Vasileios Pappas, 2025-05-19 For about five hundred years between Ovid's death 17 AD and Maximianus's Elegies 6th century AD the genre of love elegy disappears Does this mean that love poetry in general was no longer being written This was certainly not the case Poets continued to compose love poetry merely in other forms than elegy This book deals with non elegiac Latin love poetry of Late Antiquity It is the first monograph to focus on the metaliterary interpretation of four non elegiac poetic works the *Pervigilium Veneris* Ausonius Bissula Reposianus *De concubitu Martis et Veneris* and the *Aegritudo Perdicae* The book contains all the required

information about these poems including their date authorship structure and literary tradition However its content is predominantly original as it examines subjects that have not previously been discussed in the past These include a the generic interaction between the poems host genre and several guest genres that are present within them b the metaliterary discourse developed in several passages which reveals the metapoetic self consciousness of their poets c their hidden demands for the innovation of love poetry and d their allusive comments on the conservatism of this era **A Companion**

to Roman Love Elegy Barbara K. Gold,2012-04-25 A Companion to Roman Love Elegy is the first comprehensive work dedicated solely to the study of love elegy The genre is explored through 33 original essays that offer new and innovative approaches to specific elegists and the discipline as a whole Contributors represent a range of established names and younger scholars all of whom are respected experts in their fields Contains original never before published essays which are both accessible to a wide audience and offer a new approach to the love elegists and their work Includes 33 essays on the Roman elegists Catullus Tibullus Propertius Sulpicia and Ovid as well as their Greek and Roman predecessors and later writers who were influenced by their work Recent years have seen an explosion of interest in Roman elegy from scholars who have used a variety of critical approaches to open up new avenues of understanding *Children and Family in Late Antique*

Egyptian Monasticism Caroline T. Schroeder,2020-09-17 This is the first book length study of children in one of the birthplaces of early Christian monasticism Egypt Although comprised of men and women who had renounced sex and family the monasteries of late antiquity raised children educated them and expected them to carry on their monastic lineage and legacies into the future Children within monasteries existed in a liminal space simultaneously vulnerable to the whims and abuses of adults and also cherished as potential future monastic prodigies Caroline T Schroeder examines diverse sources letters rules saints lives art and documentary evidence to probe these paradoxes In doing so she demonstrates how early Egyptian monasteries provided an intergenerational continuity of social cultural and economic capital while also contesting the traditional family s claims to these forms of social continuity *Monasteries and the Care of Souls in Late Antique*
