The conditions for perfect erotic love, Furber and Callahan write in their interesting study, are «first, the recognition of the unity of sexual pleasure that can be shared by both men and women, and second, the abolition of sexual polarization through an understanding that each sex can be the other's double, psychologically and emotionally» (6). The ideal is seldom realized, however, for opposite these two conditions is invariably an «antagonistic movement that tends to emphasize distinctions which impede and thwart the continual process of subjective exchanges that gradually induce each sex to see and appreciate the other as its double» (6). Consequently, the majority of «personal relationships» in literature «reside in a vast territory that lies between the extremes of total identification with the opposite sex and radical sexual polarization» (7).

It is the intention of Furber and Callahan to chart some of this vast territory as it is displayed in works written over some 700 years—that is, from about the middle of the twelfth century to the middle of the nineteenth. I find their discussions very unequal, sometimes stimulating and commanding of the reader's assent, other times incomplete or poorly thought out. Both authors are university professors of French literature, and when the work examined belongs to this canon, which is more than half the time, their readings tend to be far more persuasive than otherwise. Thus the final explications in the book—of *La Nouvelle Héloïse* (129-36), *Les Liaisons dangereuses* (142-53), and several of Balzac's novels (157-80)—I find generally compelling and, indeed, the strongest parts of the argument.

Erotic Love in Literature begins by positing certain generalizations about the Middle Ages and then looking at the Tristan stories of Béroul and Thomas, the romances of Chrétien de Troyes, and Jean de Meun's continuation of *Le Roman de la Rose*. The specific readings are informative, but some theoretical assumptions are questionable or confused. The authors write, for instance,

Erotic Love In Literature From Medieval Legend To Romantic Illusion:

Erotic Love in Literature Donald Furber, Anne Callahan, 1982 **Medieval Sexuality** Joyce E. Salisbury, 2019-01-17
Originally published in 1990 Well annotated bibliographical entries cover works on history religion medicine philosophy law and literature in western Europe from about the third century A D through the end of the medieval period The primary sources are organised thematically and separately from secondary sources Languages covered include English Spanish Portuguese French German Italian and Latin The focus is on sexuality and sexual attitudes not on the related topics of marriage and family Detailed indexes are also included **The Telling of the Act** Peter Maxwell Cryle, 2001 This book tells how the diverting array of pleasures in eighteenth century libertine fiction gave way through a process of thematic drift and realignment to a powerfully linear story that actually defined sex and the gender roles pertaining to it Many of the key notions in modern talk about sex are in fact narrative ones climax foreplay and the sex act are all said to lie at the heart of human sexuality But The Telling of the Act questions whether these notions deserve to be thought of as timeless and in fact locates their emergence in the second half of the eighteenth century *Writing the Voice of Pleasure* A. Callahan, 2001-11-09 The Voice of Pleasure makes a persuasive and fascinating argument that the romantic couple of Western representation is not heterosexual Nor is it homosexual With insightful new readings of landmarks of Western culture from Tristan and Yseult to Seinfeld Callahan demonstrates that the illusion of heterosexuality is created by a male artist's assumption of a feminine voice to express desire Named the troubadour effect for the first time here this tradition of male femininity in romantic writing results in a cultural model of desire best described as heterosexuality without women The most compelling aspect of the book is its attention to the effect of this paradox on women writers Illuminating her argument with striking examples from the troubadours to Toni Morrison the author shows how women writers inscribe their vagabondage a term she coins to name the consequences of the troubadour effect for women's agency as both writers and lovers Routledge Revivals: Shakespeare and Feminist Criticism (1991) Philip C Kolin, 2017-02-17 First published in 1991 this book is the first annotated bibliography of feminist Shakespeare criticism from 1975 to 1988 a period that saw a remarkable amount of ground breaking work While the primary focus is on feminist studies of Shakespeare it also includes wide ranging works on language desire role playing theatre conventions marriage and Elizabethan and Jacobean culture shedding light on Shakespeare's views on and representation of women sex and gender Accompanying the 439 entries are extensive informative annotations that strive to maintain the original author's perspective supplying a careful and thorough account of the main points of an article **Venus and Adonis** Philip C. Kolin, 1997-02-01 This is the first collection of critical essays devoted exclusively to Shakespeare's first published work his long narrative poem Venus and Adonis which established his reputation as the literary darling of London and the heir of Ovid Particularly important is the book's coverage of the little known presence of Venus and Adonis on stage As *The Permeable Self* Barbara Newman, 2021-09-17 How

Barbara Newman asks did the myth of the separable heart take such a firm hold in the Middle Ages from lovers exchanging hearts with one another to mystics exchanging hearts with Jesus What special traits gave both saints and demoniacs their ability to read minds Why were mothers who died in childbirth buried in unconsecrated ground Each of these phenomena as diverse as they are offers evidence for a distinctive medieval idea of the person in sharp contrast to that of the modern subject of individual Starting from the premise that the medieval self was more permeable than its modern counterpart Newman explores the ways in which the self's porous boundaries admitted openness to penetration by divine and demonic spirits and even by other human beings She takes up the idea of coinherence a state familiarly expressed in the amorous and devotional formula I in you and you in me to consider the theory and practice of exchanging the self with others in five relational contexts of increasing intimacy Moving from the outside in her chapters deal with charismatic teachers and their students mind reading saints and their penitents lovers trading hearts pregnant mothers who metaphorically and literally carry their children within and women and men in the throes of demonic obsession In a provocative conclusion she sketches some of the far reaching consequences of this type of personhood by drawing on comparative work in cultural history literary criticism anthropology psychology and ethics *The Permeable Self* offers medievalists new insight into the appeal and dangers of the erotics of pedagogy the remarkable influence of courtly romance conventions on hagiography and mysticism and the unexpected ways that pregnancy often devalued in mothers could be positively ascribed to men virgins and God The half forgotten but vital idea of coinherence is of relevance far beyond medieval studies however as Newman shows how it reverberates in such puzzling phenomena as telepathy the experience of heart transplant recipients who develop relationships with their deceased donors the phenomenon of psychoanalytic transference even the continuities between ideas of demonic possession and contemporary understandings of obsessive compulsive disorder In *The Permeable Self* Barbara Newman once again confirms her status as one of our most brilliant and thought provoking interpreters of the Middle Ages
