Anna Kuxhausen

Eroticism And The Body Politic:

Eroticism and the Body Politic Lynn Hunt, Lynn Avery Hunt, 1991 By the end of the nineteenth century women had become an undeniable force both in the public discussion of social life and in politics itself Yet in art and literature women's bodies continued to be represented and domesticated by men They were still more often the object of the artist's or writer's gaze than they were the subject of their own representing processes The erotic potential of women's bodies however was far from a marginal concern in the elaboration of modern forms of politics art literature and psychology In *Eroticism and the Body Politic* scholars from art history history and literature examine the frequent intersections between the body erotic and the body politic Focusing on eighteenth and nineteenth century France they show how eroticized representations of bodies had a multitude of political and cultural meanings The authors consider the eroticized body in a wide variety of media from Fragonard's paintings of erotic mothers to political pornography attacking Marie Antoinette to the new woman of fin de siècle decorative arts Exploring the possibilities of a multidisciplinary approach the volume shows that eroticism had an impact far beyond the usual confines of libertine or pornographic literature and that politics included much more than voting meeting or demonstrating At a time of general methodological ferment in the human sciences *Eroticism and the Body Politic* brings fresh approaches to the developing field of cultural studies **Romanticism, Maternity, and the Body Politic** Julie Kipp, 2003-08-14

In *Romanticism Maternity and the Body Politic* Julie Kipp examines Romantic writers' treatments of motherhood and maternal bodies in the context of the legal medical educational and socioeconomic debates about motherhood so popular during the period She argues that these discussions turned the physical processes associated with mothering into matters of national importance The privately shared space signified by the womb or the maternal breast were made public by the widespread interest in the workings of the maternal body These private spaces evidenced for writers of the period the radical exposure of mother and child to one another for good or ill Kipp's primary concern is to underline the ways that writers used representations of mother-child bonds as ways of naturalizing endorsing and critiquing Enlightenment constructions of interpersonal and intercultural relations This fascinating literary and cultural study will appeal to all scholars of Romanticism

An American Body-politic Bernd Herzogenrath, 2010 A reflection on the metaphor of the body politic throughout American history **From the Womb to the Body Politic** Anna Kuxhausen, 2013-04-22 In Russia during the second half of the eighteenth century a public conversation emerged that altered perceptions of pregnancy birth and early childhood Children began to be viewed as a national resource and childbirth heralded new members of the body politic The exclusively female world of mothers midwives and nannies came under the scrutiny of male physicians state institutions a host of zealous reformers and even Empress Catherine the Great Making innovative use of obstetrical manuals belles lettres children's primers and other primary documents from the era Anna Kuxhausen draws together many discourses medical pedagogical and political to show the scope and audacity of new notions about childrearing Reformers aimed to teach women to care for

the bodies of pregnant mothers infants and children according to medical standards of the Enlightenment Kuxhausen reveals both their optimism and their sometimes fatal blind spots in matters of implementation In examining the implication of women in public even political roles as agents of state building and the civilizing process From the Womb to the Body Politic offers a nuanced expanded view of the Enlightenment in Russia and the ways in which Russians imagined their nation while constructing notions of childhood

National Conceptualisations of the Body Politic Andreas Musolff, 2020-11-09 This book presents the results of a large scale experiment into interpretations of the metaphor the Nation as a Body among 1 800 respondents from 30 linguistic and cultural backgrounds In this first account of an empirical study of cross cultural global metaphor interpretation of that scale Musolff confirms that the meanings of metaphors are complex culturally mediated and may differ for senders and recipients The book provides a historical and cultural map of the traditions underlying differences in how the nation as a body or the body politic is understood Musolff challenges the hypotheses of the universality of the nation as a predominantly male gendered and hierarchically organized concept and in so doing puts into question some of the key presuppositions of traditional historical and cognitive approaches to metaphor For scholars and students of figurative language the book lays out methodological foundations for cross cultural metaphor comparison and reveals hidden meaning differences in political metaphor in English as lingua franca

Black Mothers and the National Body Politic Andrea Powell Wolfe, 2020-10-14 Black Mothers and the National Body Politic The Narrative Positioning of the Black Maternal Body from the Civil War Period through the Present focuses on the struggles and triumphs of black motherhood in six works of narrative prose composed from the Civil War period through the present Andrea Powell Wolfe examines the functioning of the black maternal body to both define and undermine ideal white womanhood the physical scarring of the black mother and the reclamation of the black maternal body as a site of subversion and nurturance as well as erotic empowerment and the construction of oppressive discourses surrounding black female bodies and reproduction and the development of resistance to these types of discourses These tensions undergird a multifaceted discussion of the narrative positioning of the black maternal body within and in relationship to the national body politic an inherently exclusionary and restrictive metaphorical entity constructed and socially contracted over time by an already politically empowered citizenry Ultimately close analysis of the texts under study suggests that the United States as a figurative body complete with imagined parts that perform separate functions from intelligence to labor ingestion to expulsion has simultaneously used and cast off the black maternal body over the course of centuries

Radical History Review: Volume 52 Barbara Smith, 1992-11-12 This is volume 52 of the Radical History Review series It deals specifically with new directions in gender history and the history of sexuality

Rousseau's Republican Romance Elizabeth Rose Wingrove, 2000-02-22 In Rousseau's Republican Romance Elizabeth Wingrove combines political theory and narrative analysis to argue that Rousseau's stories of sex and sexuality offer important insights into the paradoxes of democratic consent She suggests that despite Rousseau's own protestations man

and citizen are not rival or contradictory ideals. Instead they are deeply interdependent. Her provocative reconfiguration of republicanism introduces the concept of consensual nonconsensuality, a condition in which one wills the circumstances of one's own domination. This apparently paradoxical possibility appears at the center of Rousseau's republican polity and his romantic dyad; in both instances the expression and satisfaction of desire entail a twin experience of domination and submission. Drawing on a wide variety of Rousseau's political and literary writings, Wingrove shows how consensual nonconsensuality organizes his representations of desire and identity. She demonstrates the inseparability of republicanism and accounts of heterosexuality in an analysis that emphasizes the sentimental and somatic aspects of citizenship. In Rousseau's texts, a politics of consent coincides with a performative politics of desire and of emotion. Wingrove concludes that understanding his strategies of democratic governance requires attending to his strategies of symbolization. Further, she suggests that any understanding of political practice requires attending to bodily practices.

Eroticism and Death in Theatre and Performance Karoline Gritzner, 2010-10. Eros and Death are the two central drives and compulsions of the human psyche, and their dynamic interconnectedness has been pervasive in the formation of Western thought and culture. The essays brought together in this collection offer new perspectives on the eros-death relation in a wide selection of dramatic texts, theatrical practices, and cultural performances. Topics explored range from Greek tragedy, Shakespearean theatre, the work of Georg Büchner, Bertolt Brecht, the kiss of death in opera, the theatricality of Parisian culture, to the performance of conjuring contemporary British.

Body Politics in Development Wendy Harcourt, 2013-04-04. Body Politics in Development sets out to define body politics as a key political and mobilizing force for human rights in the last two decades. This passionate and engaging book reveals how once tabooed issues such as rape, gender-based violence, and sexual and reproductive rights have emerged into the public arena as critical grounds of contention and struggle. Engaging in the latest feminist thinking and action, the book describes the struggles around body politics for people living in economic and socially vulnerable communities and covers a broad range of gender and development issues, including fundamentalism, sexualities, and new technologies, from diverse viewpoints. The book's originality comes through the author's rich experience and engagement in feminist activism and global body politics, and it was winner of the 2010 FWSA Book Prize.

Postcommunism and the Body Politic Ellen E. Berry, 1995-07. The epidemic of mass rape in the former Yugoslavia has illustrated once again, and in particularly brutal fashion, the inextricable relationship between national politics, sexual politics, and body politics. The nexus of these three forces is highly charged in any culture at any time in history, but especially so among cultures in which rapid, even cataclysmic, changes in material realities and national self-conceptions are eroding or overwhelming previously secure boundaries. The postcommunist moment in the so-called Second World Central and Eastern Europe and the former Soviet Union has dramatically exposed the opportunities and dangers that arise when the political, cultural, and economic foundations of a society are de- and then re-structured. Gender roles and relations, expressions of sexuality, or attempts to

recontain them representations of the body especially the female body and the larger cultural meanings it assumes are particularly marked sites to witness the performance of complex national dramas of crisis and change This groundbreaking volume turns its attention to the Second World specifically to such subjects as the birth of the sex media and porn industry in Russia Russian women and alcoholism cinema in post communist Hungary patriotism and gender in Poland sexual dissidence in Eastern Europe and women in the former Yugoslavia go to the Genders website **The Body Politic** Catherine A. Holland,2013-07-04 This work advances an original thesis that challenges the dominant schools of thought concerning the liberal tradition in the US **The Female Body in Western Culture** Susan Rubin Suleiman,1986 The female body has occupied a central place in the Western imagination its images pervading poetry and story mythology and religious doctrine the visual arts and scientific treatises It has inspired both attraction and fear been perceived as beautiful and unclean alluring and dangerous a source of pleasure and nurturing but also a source of evil and destruction In *The Female Body in Western Culture* twenty three internationally noted scholars and critics in specially commissioned essays explore these representations and their consequences for contemporary art and culture Ranging from Genesis to Gertrude Stein and Angela Carter from ancient Greek ritual to the Victorian sleeping cure from images of the Madonna to modern film and Surrealist art the essays cover a wide spectrum of approaches and subject matter They all converge however around questions of power and powerlessness voice and silence subjecthood and objectification And they point the way to the new possibilities and displacements of traditional male female oppositions Androgyny in a new key This book demonstrates that a blurring of gender boundaries does not have to deny difference **The Erotic Whitman** Vivian R. Pollak,2000-08-04 In this provocative analysis of Whitman s exemplary quest for happiness Vivian Pollak skillfully explores the intimate relationships that contributed to his portrayal of masculinity in crisis She maintains that in representing himself as a characteristic nineteenth century American and in proposing to heal national ills Whitman was trying to temper his own inner conflicts as well The poet s expansive vision of natural eroticism and of unfettered comradeship between democratic equals was however only part of the story As Whitman waged a conscious campaign to challenge misogynistic and homophobic literary codes he promoted a raceless classless ideal of sexual democracy that theoretically equalized all varieties of desire and resisted none Pollak suggests that this goal remains imperfectly achieved in his writings which liberates some forbidden voices and silences others Integrating biography and criticism Pollak employs a loosely chronological organization to describe the poet s multifaceted faith in sex Drawing on his early fiction journalism poetry and self reviews as well as letters and notebook entries she shows how in spite of his personal ambivalence about sustained erotic intimacy Whitman came to imagine himself as the phallic choice of America *Uncivil Rites* Robert Detweiler,1996 Body Politics and the Fictional Double Debra Walker King,2000 This book focuses on the challenges women face when their externally defined identities and representations as bodies their body fictions speak louder than what they know to be their lived experience As objects of

interpretation female bodies in search of health care legal assistance professional respect identity confirmation and financial security must first confront the fictionalized doubles This volume includes reflections on women s day to day lives as well as the cultural production literature MTV film etc that give body fictions their powerful influence By exploring how these fictions are manipulated politically expressively and communally contributors offer reinterpretations that challenge the fictional double while theorizing the discursive and performative forms that it takes **Erotic Utopia** Olga

Matich,2005-08-01 The first generation of Russian modernists experienced a profound sense of anxiety resulting from the belief that they were living in an age of decline What made them unique was their utopian prescription for overcoming the inevitability of decline and death both by metaphysical and physical means They intertwined their mystical erotic discourse with European degeneration theory and its obsession with the destabilization of gender In *Erotic Utopia* Olga Matich suggests that same sex desire underlay their most radical utopian proposal of abolishing the traditional procreative family in favor of erotically induced abstinence 2006 Winner CHOICE Award for Outstanding Academic Titles Current Reviews for Academic Libraries Honorable Mention Aldo and Jean Scaglione Prize for Studies in Slavic Languages and Literatures Modern Language Association Offers a fresh perspective and a wealth of new information on early Russian modernism It is required reading for anyone interested in fin de si cle Russia and in the history of sexuality in general Bernice Glatzer Rosenthal *Slavic and East European Journal* Thoroughly entertaining Avril Pyman *Slavic Review* Citoyennes Annie Smart,2011-12-23 In *Citoyennes* Annie Smart argues that many revolutionary and pre revolutionary works constructed a civic identity for women and portrayed the home as a site for both civic virtue and private subjectivity This interdisciplinary study offers a fresh interpretation of the role of women and the home in eighteenth century France and goes a long way to filling a gaping home in the contemporary literature on the subject **Literary Politics** Jonathan Ewell,2008 *Parlor Politics* Catherine Allgor,2000 In the days before organized political parties the social machine built by these early federal women helped to ease the transition from a failed republican experiment to a burgeoning democracy

Unveiling the Power of Verbal Beauty: An Psychological Sojourn through **Eroticism And The Body Politic**

In a global inundated with screens and the cacophony of immediate interaction, the profound energy and mental resonance of verbal beauty often disappear in to obscurity, eclipsed by the regular barrage of noise and distractions. Yet, nestled within the lyrical pages of **Eroticism And The Body Politic**, a interesting perform of fictional splendor that impulses with organic thoughts, lies an remarkable trip waiting to be embarked upon. Published with a virtuoso wordsmith, this enchanting opus manuals readers on a psychological odyssey, delicately exposing the latent possible and profound influence stuck within the complicated web of language. Within the heart-wrenching expanse of the evocative evaluation, we will embark upon an introspective exploration of the book is central subjects, dissect its captivating writing design, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
