accounts of the Oregon Trail comic authors David Lasky and Frank Young have created a graphic narrative of one family's epic journey. The main character is an 11 year old girl whose family sets course for the West to seek new opportunities and to escape the eastern city where they had been living. Oregon Trail reveals all of the planning equipment and logistics that went into traveling across an untamed continent in the 1800s. In addition to its visualization of the family's journey, the book features a series of two page spreads detailing a visual inventory of everything the family took with them including the parts of a covered wagon and a personally annotated map of the trail. Readers get a ground level feel for what it was like to be part of this storied migration west not a dry recitation of dates and facts but an immediately memorable living history. **Danny R. S. Heller**, 2013-01-12

The Oregon Trail was 2 000 miles of prairie grasses and sage brush rivers and streams desolation and dust drenching rains and blazing sun life and death. Along the way people are met and friends are made as together the emigrants travel across the country. For some it was a new beginning for others an escape from the past. For Danny it is a dream of a horse ranch and a home. In 1867 the trail was not as rough as it had been but still not all who started on the Oregon Trail make it to the end. Bad weather bad choices sickness and disease ended the journey for some and they were buried along the trail like so many before them. Danny is the story of determination and perseverance of life and death of beginnings and endings. It is also a story about love. The Oregon Trail : Sketches of Prairie and Rocky Mountain Life F.
