SHORT BOOK REVIEWS

Essential Burn Care for Non-Burn Specialists Jong O. Lee,2023-07-19 Despite a decreasing number of burns and improvement in mortality of burn patients in the United States burn injuries are still frequent Non burn specialists such as emergency medicine physicians and primary care physicians will inevitably treat burn patients In many instances the first clinicians to see burn patients are non burn specialists in the urgent care emergency department or primary care clinic yet they typically do not have any formal training or exposure to burns in residency As a result many clinicians feel uneasy about managing burns even if the burn is minor If a burn center is in a reasonable proximity one can transfer the patient but prior to transfer or if no burn center is available these clinicians may have to perform the initial management It is important that they understand the basic principles of burn care In times of burn disasters non burn specialists are needed to care for burn patients as burn centers can be quickly overwhelmed They should be able to manage burn patients including stabilization resuscitation and wound care The text includes all current management available today for the care of burn patients It is organized in a stepwise manner with clear information listed in sequential chapter formats Chapter one offers the basic epidemiology of burn care while chapters three and four discuss the initial assessment and management The chapter five discusses inhalation injury while the next three chapters focus on burn wound management including face and hand The majority of chapters that follow center on a specific type of burn or burn patient The last few chapters discuss aftercare including scar management and burn rehabilitation Written by experts in the field *Essential Burn Care for Non Burn Specialists* is a valuable guide for any physician involved in burn treatment such as emergency physicians primary care physicians and general and plastic surgeons

An American Health Dilemma W. Michael Byrd,Linda A. Clayton,2001-12-21 First published in 2002 An

American Health Dilemma is the story of medicine in the United States from the perspective of people who were consistently officially mistreated abused or neglected by the Western medical tradition and the US health care system It is also the compelling story of African Americans fighting to participate fully in the health care professions in the face of racism and the increased power of health corporations and HMOs This tour de force of research on the relationship between race medicine and health care in the United States is an extraordinary achievement by two of the leading lights in the field of public health Ten years out it is finally updated with a new third volume taking the story up to the present and beyond remaining the premiere and only reference on black public health and the history of African American medicine on the market today No one who is concerned with American race relations with access to and quality of health care or with justice and equality for humankind can afford to miss this powerful resource
