## Healing Power Of Blake A Distillation:

*The Healing Power of Blake* John Diamond, 2007-02 I believe Dr John Diamond to be the foremost living advocate for enhancing the Life Force through the Arts In this bok he reveals the poet William Blake as a healer of extraordinary power The Healing Power of Blake is strong medicine for our troubled times Richard Lippin M D **Blake. Wordsworth. Religion.** Jonathan Roberts, 2011-01-13 A reassessment of Romantic religion and the structure of modern religious debate argued through the history of interpretation of Blake s and Wordsworth s religious visions Matrophilia and the Inner Temple John Diamond, 2012-05-06 Matrophilia the love of and for the mother is the ultimate basis of health and the bedrock of Dr Diamond s work In this revelatory essay he explores the concept with characteristic depth and reveals a simple yet powerful meditation using the Inner Temple his name for the fourth ventricle of the brain the place where the Holy of Holies within each of us exists This short profoundly insightful work is an offering for the ages by one of the great healers of our time Art for Healing John Diamond, 2011-02-16 In this major statement on art and healing Dr John Diamond reveals his unique approach At its root are the twin concepts of Guidance that everything we do including all creativity is guided from the Spirit World and Matrophilia the love of the mother the ultimate basis of all health These two aspects are exemplified in Paleolithic cave art created by painter shamans for the purpose of healing I can in my mind very clearly see the ancient sufferers twenty or thirty thousand years ago stumbling through the passageways in almost total darkness climbing up and down all sorts of makeshift ladders and suddenly emerging into a cave filled with the most incredible paintings They would be overwhelmed by what had been done through not by the shamans They would become aware of a completely different world the World of Spirit and would see would feel nothing but Matrophilia in the cave And that was its healing Brilliantly integrating an astonishing array of learning from the spiritual to the psychological from ancient oriental art to Jackson Pollock and punctuated throughout by original insights Art for Healing offers an entirely new appreciation of art and by extension all human creativity as a modality for holistic health **Blake**, 2001 An illustrated quarterly The Meridians and Beyond John Diamond, 2015-09-08 The Meridians and Beyond is the second volume of writings selected from the milestone series of Diamond Reports newsletters that Dr Diamond created over many years for health professionals and students of his work The series as a whole presented his groundbreaking research in holistic health psychiatry acupuncture philosophy spirituality the Arts all bound together by the core concept of Life Energy the Healing Power within The focus of this second volume is Dr Diamond s pioneering research into the relationship between the acupuncture meridians and the emotions The papers cover important topics including relationships and marriage parenting the Will to be Well learning difficulties and much more Illustrated by many remarkable cases histories Dr Diamond builds on his earlier work such as his influential best sellers Your Body Doesn t Lie and Life Energy revealing key psychological syndromes and showing their relationship to particular meridians The Diamond Reports teem with insights and original findings that will benefit not only

those already familiar with Dr Diamond's work but also those new to it. His vision of total health which he now calls The Diamond Path of Life and which fuses the physical, emotional and spiritual aspects of medicine into a coherent whole manifests in practically every page of the reports which were far ahead of their time when they were produced and remain so even today.

**Beyond the Obvious** John Diamond, 2014-10-13 There is a level in the appreciation of all art forms that transcends any of the physical qualities of the creation. In photography it also transcends the imagery, the program and what we may call the message of the photograph. I believe that my Special Gift has always been to be able to look deeply into my patients and students through what I would call a photographer's eye seeing beyond the obvious and into the spirit, the soul of the subject. John Diamond M.D. In this magnificent collection of writings one of the world's great healers offers his insights into using photography as a therapeutic medium. Ranging from essays of a deep spirituality to practical advice for photographers at all levels of experience, *Beyond the Obvious* reflects a totally original approach developed by Dr Diamond over more than half a century of research and experimentation. The result is an inspirational book that shows us how to look beyond the obvious.

**Holism and Beyond** John Diamond, 2007-02 Holistic healing is based on the belief that a patient should be helped by a single doctor who, according to author Dr Diamond, believes that a true understanding of a patient is an understanding of his or her total universe. The caregiver must recognize the patient's individuality as well as appreciate the myriad of interrelationships in that person's universe. In *Holism and Beyond* Dr Diamond presents a complete explanation of his healing process which epitomizes the very essence of holism. **Singing and Surgery** John Diamond, 2014-10-13 Inspired by a series of surgical operations undergone by Dr Diamond in the spring of 2010, this remarkable book was created to encourage others to view surgery as a spiritual, transcendental experience rather than one rooted in fear and anxiety. The result is a unique, deeply personal collection of reflections, poems and meditations. Its themes include using the power of music innate in us all to help transcend traumatic experience such as surgery; a belief in the Spirit World and that everything that we do and that happens to us in our lives is the result of Guidance from that world. While these themes are found elsewhere in Dr Diamond's writings, nowhere are they expressed with such compelling concision, depth and coherence. *Singing and Surgery* exudes a spirituality and wisdom that confirms the author's place at the forefront of today's holistic doctor-healers. It will be an inspiration for anyone undergoing surgery, to those interested in the use of music as a therapeutic modality, and more generally, anyone interested in the spiritual dimension of medicine. A rare blend of psychiatrist, traditional healer and spiritual guide, Diamond has combined an eclectic array of cultural and healing arts to address the intractable issues of the human soul. Tom Monte, *East West Journal*.
