Contemporary Caribbean Cultures and Societies in a Global Context
Franklin W. Knight, Teresita Martínez-Vergne, 2006-05-18 The Caribbean ranks among the earliest and most completely globalized regions in the world. From the first moment Europeans set foot on the islands to the present products people and ideas have made their way back and forth between the region and other parts of the globe with unequal but inexorable force. An inventory of some of these unprecedented multidirectional exchanges this volume provides a measure of as well as a model for new scholarship on globalization in the region. Ten essays by leading scholars in the field of Caribbean studies identify and illuminate important social and cultural aspects of the region as it seeks to maintain its own identity against the unrelenting pressures of globalization. These essays examine cultural phenomena in their creolized forms from sports and religion to music and drink as well as the Caribbean manifestations of more universal trends from racial inequality and feminist activism to indebtedness and economic uncertainty. Throughout the volume points to the contending forces of homogeneity and differentiation that define globalization and highlights the growing agency of the Caribbean peoples in the modern world. Smoker beyond the Sea Juan José Baldrich, 2022-10-21 In this groundbreaking volume Juan José Baldrich traces the deep changes affecting Puerto Rican tobacco growers and manufacturers and their export markets from the Spanish colonization of the island to the present. Based on more than twenty years of research in the United States and Puerto Rico the book sheds light on the important history of tobacco in Puerto Rico while highlighting the people and practices that have indelibly shaped Puerto Rico and its culture. *Smoker beyond the Sea: The Story of Puerto Rican Tobacco* is a work of recovery that examines tobacco's transitions from medicinal use to rolls fit for chewing and pipe smoking followed by the appropriation of the Cuban paradigm for cigars and cigarettes and finally to the US models after the 1898 invasion. This pioneering volume also offers the only history of the US tobacco monopoly in local agriculture and manufacture from its

beginning in 1899 to the bankruptcy of its last successor company forty years later Baldrich's extensive research documents the organization of the cigar and cigarette manufacturing sectors and the resulting development of trade unions and socialist ideals. This multidisciplinary investigation gives due attention to the modifications that farmers made to tobacco planting and harvesting techniques in fine tuning plants to the expected aromas and tastes of the manufactured commodities. In addition Baldrich pays considerable attention to gender relations in the labor process not only in the manufacturing sector but also in tobacco agriculture. The book also provides the only narrative of the rise and maturity of the Hermanos Cheos a powerful apocalyptical movement that began and spread in the tobacco growing regions. Ultimately this encompassing volume fills a major gap in the histories of tobacco producing islands in the Caribbean. [The Diaspora Strikes Back](#) Juan

Flores, 2010-04-02 In *The Diaspora Strikes Back* the eminent ethnic and cultural studies scholar Juan Flores flips the process on its head what happens to the home country when it is being constantly fed by emigrants returning from abroad. He looks at how Nuyoricans Puerto Rican New Yorkers have transformed the home country introducing hip hop and modern New York culture to the Caribbean island. While he focuses on New York and Mayaguez in Puerto Rico the model is broadly applicable. Indians introducing contemporary British culture to India New York Dominicans bringing slices of New York culture back to the Dominican Republic Mexicans bringing LA culture from fast food to heavy metal back to Guadalajara and Monterrey. This ongoing process is both massive and global and Flores's novel account will command a significant audience across disciplines.

The Expressive Lives of Elders Jon Kay, 2018-09-20 Can traditional arts improve an older adult's quality of life? Are arts interventions more effective when they align with an elder's cultural identity? In *The Expressive Lives of Elders* Jon Kay and contributors from a diverse range of public institutions argue that such mediations work best when they are culturally, socially and personally relevant to the participants. From quilting and canning to weaving and woodworking this book explores the role of traditional arts and folklore in the lives of older adults in the United States highlighting the critical importance of ethnographic studies of creative aging for both understanding the expressive lives of elders and for designing effective arts therapies and programs. Each case study in this volume demonstrates how folklore and traditional practices help elders maintain their health and wellness providing a road map for initiatives to improve the lives and well being of America's aging population. **Spanish Now!
