España del siglo XXI Juan Jesús González,2020-09-03 El presente texto en el que han participado destacados sociólogos de distintas universidades españolas comienza con un recorrido retrospectivo de las vicisitudes de la sociedad española desde la crisis de la década de 1970 hasta la Gran Recesión con sus efectos de agravamiento de la desigualdad social y una dinámica de polarización y fragmentación políticas. A lo largo de sus capítulos ofrece un diagnóstico de cuestiones fundamentales como son los efectos de la revolución reproductiva en particular el envejecimiento demográfico la consolidación de la población inmigrante así como su grado de integración socioeconómica los cambios en la institución familiar y la reducción de la segregación ocupacional de género la evolución de la estratificación social de las últimas décadas con rasgos destacados como el marcado crecimiento de la clase de servicios y la emergencia del precariado la situación del Estado de Bienestar y la movilidad social y por último las bases sociales de la vieja y la nueva política así como los cambios que han tenido lugar en el sistema mediático en paralelo a los cambios registrados en el sistema político **Italian Fascism and Spanish Falangism in Comparison**

Giorgia Priorelli,2020-07-01 This book compares the Italian Fascist and the Spanish Falangist political cultures from the early 1930s to the early 1940s using the idea of the nation as the focus of the comparison. It argues that the discourse on the nation represented a common denominator between these two manifestations of the fascist phenomenon in Mussolini's Italy and Franco's Spain. Exploring the similarities and differences between these two political cultures, this study investigates how Fascist and Falangist ideologues defined and developed their own idea of the nation over time to legitimise their power within their respective countries. It examines to what extent their concept of the nation influenced Italian and Spanish domestic and foreign policies. The book offers a four-level framework for understanding the evolution of the fascist idea of the nation: the ideology of the nation, the imperial projects of Fascism and Falangism, race and the nation, and the place of these cultures in the new Nazi continental order. In doing so, it shows how these ideas of the nation had significant repercussions on fascist political practice. **El-Hi Textbooks & Serials in Print, 2000** ,2000 El Mundo de la Juventud ,1980

Spanish-American Short Stories / Cuentos hispanoamericanos Stanley Appelbaum,2012-06-07 These 17 stories from the Caribbean and Central and South America encompass the works of Rubén Darío, José Martí, Amado Nervo, Rómulo Gallegos and Ricardo Palma. Nationalism in the New World Don Harrison Doyle, Marco Antonio Villela Pamplona,2010-01-25 Nationalism in the New World brings together work by scholars from the United States, Canada, Latin America and Europe to discuss the common problem of how the nations of the Americas grappled with the basic questions of nationalism: Who are we? How do we imagine ourselves as a nation? Debates over the origins and meanings of nationalism have emerged at the forefront of the humanities and social sciences over the past two decades. However, these discussions have been mostly about nations in Europe, the Middle East, Asia or Africa. In addition, their focus is usually on the violence spawned by ethnic and religious strains of nationalism, which have been largely absent in the Americas. The contributors to this volume Americanize the conversation on nationalism. They ask how the countries of the Americas fit into the larger world of nations and in what

ways they present distinctive forms of nationhood. Such questions are particularly important because as the editors write the American nations that came into being in the wake of revolutions that shook the Atlantic world beginning in 1776 provided models of what the modern world might become. American nations were among the first nation states to emerge on the world stage. As former colonies with multiethnic populations, American nations could not logically rest their claim to nationhood on ancient bonds of blood and history. Out of a world of empires and colonies, the independent states of the Americas forged new nations based on a varied mix of modern civic ideals instead of primordial myths, on ethnic and religious diversity instead of common descent, and on future hopes rather than ancient roots. *Win or Lose in Rural Development* Eugenio

Cejudo-García, Francisco Antonio Navarro-Valverde, José Antonio Cañete-Pérez, 2024-02-23. This process of systematization and theorization would contribute to improving the decision making in rural development, concretely the practice of these policies and initiatives. The book shows the problems, results, and best practices that cause the rural development in different areas, along with Europe. The multidisciplinary and international character of the authors in the analysis of rural development will enrich the publication and facilitate the different and critical reflections on the contributions, errors, and meaning of these rural development practices.
