El Desafío Mexicano Nexos:

Mexican Politics in Transition Judith Gentleman, 2019-03-13 Initiated in the mid 1970s Mexico's program of political reform was designed to provide a new opportunity for political competition In this book contributors examine the significance political mobilization has had and the extent to which the reform has served as a vehicle for defusing discontent in the wake of Mexico's failed oil based development

Peace and War Mary Le Cron Foster, Robert A. Rubinstein, French political and theorist Aron 1905 83 published *Paix et guerre entre les nations* in 1962 in Paris to clarify and transcend the debate between rational schematics and sociological perspectives in the discipline of international relations by arguing that the two are not contradictory but complementary The 1966 English translation was published by Doubleday New York Annotation c 2003 Book News Inc Portland OR booknews com

La lucha por la hegemonía en México, 1968-1990 Miguel Basáñez, 1990 La lucha por la hegemonía en México es una penetrante investigación en la que el autor sintetiza con objetividad y rigor académico los últimos veintidós años de vida política en México Su preocupación se centra en los tres sectores sociales que luchan por ganar la hegemonía: el público, el privado y la disidencia Se analiza la composición social, la organización política y los rasgos ideológicos de cada uno de estos sectores para llegar a definir cuáles son los grupos poderosos que toman las principales decisiones en el país o que influyen de manera importante en el curso de la vida económica y política Ante los acontecimientos políticos la disyuntiva básica es si la hegemonía después de 1968 continuaba en manos del sector público o pasaba al sector privado El análisis de la economía indica que la opción se plantea entre una orientación hacia un proyecto nacionalista o hacia uno de tipo internacionalista Al clarificar las raíces sociales, la organización política y los rasgos ideológicos de los sectores sociales así como su comportamiento económico y político se llega a la conclusión que las interpretaciones de la política mexicana en términos de democracia, bonapartismo, corporatismo o populismo son inadecuadas El autor ofrece dos categorías nuevas en el análisis político: el Estado contradictorio y la política hegemocrática

Mexico-United States Relations Arturo Santa-Cruz, 2012-09-10

Sovereignty is a key factor to consider when studying the Mexico United States relationship During most of the twentieth century as a result of the new character of the Mexican post revolutionary regime there was a decoupling between the state s maximalist discourse on sovereignty and its practice Sovereignty as an undifferentiated whole does not exist it should instead be disaggregated into the myriad issue areas in which it is constantly negotiated Focusing on a tripartite classification relating to the construction of Mexico s sovereignty towards its northern neighbor since 1920 this volume illustrates how Mexico s sovereignty has varied not only according to the times but also according to the issues at stake In doing so Arturo Santa Cruz comprehensively covers a variety of issues in the bilateral agenda such as drug trafficking electoral observation human rights investment migration security and trade as well as some defining moments in the relationship such as the 1923 US granting of recognition to the Mexican post revolutionary regime the 1938 oil nationalization the 1982 debt crisis and the 1995 financial bailout These diverse cases analyzed through an original analytical approach capture sovereignty s multifocal meaning
