Fidel Castro: El Libro Negro Héctor Velasco, 2024-03-20 Me propuse escribir esta contribución para que los jóvenes y ciudadanos del mundo no se equivoquen una vez más creyendo en falsos ideales tratando de encontrar la felicidad el progreso y el triunfo a través de falsos políticos que siempre tienen un bloqueo mental respecto al comunismo socialismo o socialismo bolivariano que solo arrastra hambre muerte y destrucción Me concentré en muchos momentos de mi vida intentando descifrar por qué este cerebro superior del ciudadano Fidel Castro cayó en este fango de arena movediza en una Revolución que desde que triunfó no brindó una real felicidad a sus miles de seguidores al contrario les dejó como herencia hambre destrucción carencias y pared Para qué sirvió tanto sacrificio Un cerebro especial desperdiciado Y así perdí la oportunidad de ser un gran líder mundial como lo fue su paisano José Martí reconocido por sus bien trazados versos y por su lucha total por la verdad la justicia y la libertad

Art and Revolution in Latin America, 1910-1990 David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910-40 in Cuba 1959-89 and in Nicaragua 1979-90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement's artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution's attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process

Smith, 2017-11-14

Stephanie J. Smith brings Mexican politics and art together chronicling the turbulent relations between radical artists and the postrevolutionary Mexican state The revolution opened space for new political ideas but by the late 1920s many government officials argued that consolidating the nation required coercive measures toward dissenters While artists and intellectuals some of them professed Communists sought free expression in matters both artistic and political Smith reveals how they simultaneously learned the fine art of negotiation with the increasingly authoritarian government in order to secure clout and financial patronage But the government Smith shows also had reason to accommodate artists and a surprising and volatile interdependence grew between the artists and the politicians Involving well known artists such as Frida Kahlo Diego Rivera and David Alfaro Siqueiros as well as some less well known including Tina Modotti Leopoldo Múndez and Aurora Reyes politicians began to appropriate the artists' nationalistic visual images as weapons in a national propaganda war High stakes negotiating and co-opting took place between the two camps as they sparred over the production of generally accepted notions and representations of the revolution's legacy and what it meant to be authentically Mexican

This edited volume advances meaning centered approaches to understanding the social construction of public intellectuals and their enduring influence on contemporary societies The contributors reject reductionist perspectives that depict intellectuals and their ideas as mere byproducts of broader social forces Instead the volume champions a multidimensional approach that recognizes the semi autonomy and causal power of intellectual discourses At the core of this framework is the concept of dramatic intellectuals figures who navigate collective anxieties and hopes shaping public discourse through master narratives of salvation and catastrophe utopia and apocalypse Through diverse case studies the volume identifies key features of their master stories including stark binaries the social construction of meta adversaries and meta saviors the mobilization of cultural traumas and ideological packs and the Cassandra complex Each chapter examines at least one pivotal dramatic intellectual within her cultural context exploring how these figures shape public discourse and collective imagination The volume covers a diverse range of intellectuals including Karl Marx Sigmund Freud Carl Jung
