Caporicci, Armelle Sabatier, 2019-11-04 Written by an international group of highly regarded scholars and rooted in the field of intermedial approaches to literary studies this volume explores the complex aesthetic process of picturing in early modern English literature The essays in this volume offer a comprehensive and varied picture of the relationship between visual and verbal in the early modern period while also contributing to the understanding of the literary context in which Shakespeare wrote Using different methodological approaches and taking into account a great variety of texts including Elizabethan sonnet sequences metaphysical poetry famous as well as anonymous plays and court masques the book opens new perspectives on the literary modes of picturing and on the relationship between this creative act and the tense artistic religious and political background of early modern Europe The first section explores different modes of looking at works of art and their relation with technological innovations and religious controversies while the chapters in the second part highlight the multifaceted connections between European visual arts and English literary production The third section explores the functions performed by portraits on the page and the stage delving into the complex question of the relationship between visual and verbal representation Finally the chapters in the fourth section re appraise early modern reflections on

the relationship between word and image and on their respective power in light of early seventeenth century visual culture with particular reference to the masque genre

Nation and Nurture in Seventeenth-Century English Literature

Rachel Trubowitz, 2012-05-31 Nation and Nurture in Seventeenth Century English Literature connects changing seventeenth century English views of maternal nurture to the rise of the modern nation especially between 1603 and 1675 Maternal nurture gains new prominence in the early modern cultural imagination at the precise moment when England undergoes a major paradigm shift from the traditional dynastic body politic organized by organic bonds to the post dynastic modern nation comprised of symbolic and affective relations The book also demonstrates that shifting early modern perspectives on Judeo Christian relations deeply inform the period s interlocking reassessments of maternal nurture and the nation especially in the case of Milton The book s five chapters analyze a wide range of reformed and traditional texts including A pitiless Mother William Gouge s Of Domesticall Duties Shakespeare s Macbeth Charles I s Eikon Basilike and Milton s Paradise Lost and Samson Agonistes Equal attention is paid to such early modern visual images as The power of women a late sixteenth century Dutch engraving William Marshall s engraved frontispiece to Richard Braithwaite s The English Gentleman and Gentlewoman 1641 and Peter Paul Rubens s painting of Pero and Cimon or Roman Charity 1630 The book argues that competing early modern figurations of the nurturing mother mediate in politically implicated ways between customary biblical models of English kingship and innovative Hebraic Puritan paradigms of Englishness

Conscience in Early Modern English Literature Abraham Stoll, 2017-10-05 Conscience in Early Modern English Literature describes how poetry theology and politics intersect in the early modern conscience In the wake of the

Reformation theologians attempt to understand how the faculty works poets attempt to capture the experience of being in its grip and revolutionaries attempt to assert its authority for political action The result Abraham Stoll argues is a dynamic scene of conscience in England thick with the energies of salvation and subjectivity and influential in the public sphere of Civil War politics Stoll explores how Shakespeare Spenser Herbert and Milton stage the inward experience of conscience He links these poetic scenes to Luther Calvin and English Reformation theology He also demonstrates how they shape the public discourses of conscience in such places as the toleration debates among Levellers and in the prose of Hobbes and Milton In the literature of the early modern conscience Protestant subjectivity evolves toward the political subject of modern liberalism

Literature and Union Gerard Carruthers, Colin Kidd, 2018-01-05 Literature and Union opens up a new front in interdisciplinary literary studies There has been a great deal of academic work both in the Scottish context and more broadly on the relationship between literature and nationhood yet almost none on the relationship between literature and unions This volume introduces the insights of the new British history into mainstream Scottish literary scholarship The contributors who are from all shades of the political spectrum will interrogate from various angles the assumption of a binary opposition between organic Scottish values and those supposedly imposed by an overbearing imperial England Viewing Scottish literature as a clash between Scottish and English identities loses sight of the internal Scottish political and religious divisions which far more than issues of nationhood and union were the primary sources of conflict in Scottish culture for most of the period of Union until at least the early twentieth century The aim of the volume is to reconstruct the story of Scottish literature along lines which are more historically persuasive than those of the prevailing grand narratives in the field The chapters fall into three groups 1 those which highlight canonical moments in Scottish literary Unionism John Bull Rule Britannia Humphry Clinker Ivanhoe and England their England 2 those which investigate key themes and problems including the Unions of 1603 and 1707 Scottish Augustanism the Burns Cult Whig Presbyterian and sentimental Jacobite literatures and 3 comparative pieces on European and Anglo Irish phenomena
