**Soldier, Rebel, Traitor** Alexander R. Brondarbit, 2022-05-05 John Wenlock first Lord Wenlock was a leading diplomat courtier and soldier during the Wars of the Roses whose remarkable career offers us a fascinating insight into one of the most turbulent periods in English medieval history And yet he has hitherto been overshadowed by his more illustrious contemporaries Alexander Brondarbit's meticulously researched and perceptive biography is overdue It establishes Wenlock as a major figure in his own right and records in vivid detail how this shrewd nobleman found his way through the brutal conflicts of his times Wenlock served in Henry V's military campaigns in France in the 1420s before moving on to a career in the royal households of Henry VI Margaret of Anjou and Edward IV As a diplomat he led multiple embassies to Burgundy and France and in addition to the kings he served he was closely connected with other notable figures of the age such as Richard Neville earl of Warwick But Wenlock's speciality was on the battlefield he took part in many raids skirmishes and sieges and in three major battles including the Battle of Tewkesbury in 1471 where he lost his life Using primary sources as well as contemporary assessments in chronicles and letters Alexander Brondarbit gives a nuanced description of the main episodes in Wenlock's long career and throws new light on the motivation of a man who has been labelled a Prince of Turncoats because of his frequent changes of allegiance *Quarterly Bulletin of the Providence Public Library* Providence Public Library (R.I.), 1920 **The London Mercury** Sir John Collings Squire, 1919 From Kings to Warlords Katharine Simms, 2000 Native Irish chieftains not totally subdued after the Norman invasion of Ireland recovered a measure of their power in the later middle ages unfamiliar sources illuminate developments The Norman invasion of Ireland 1169 did not result in a complete conquest and those native Irish chieftains who retained independent control of their territories achieved a recovery of power in the later middle ages Katharine Simms studies the experience of the resurgent chieftains who were undergoing significant developments during this period The most obvious signs of change were the gradual disappearance of the title of king and the ubiquitous presence of mercenary soldiers On a deeper level the institution of kingship itself had died as is shown by this study of the election and inauguration of Irish kings their counsellors officials vassals army and sources of revenue as they evolved between the twelfth and sixteenth centuries Sources such as the Irish chronicles bardic poetry genealogies brehon charters and rentals family tract and sagas are all used in addition to the more familiar evidence of the Anglo Norman administration the Church and Tudor state papers Dr KATHARINE SIMMS lectures in the Department of Medieval History Trinity College Dublin
