English Art And Modernism 1900 1939:

English Art and Modernism, 1900-1939 Charles Harrison, 1994 This critically acclaimed book is both a detailed history of the development of modern art in England in the early twentieth century and a study of the evolution of the concept of modernism among English artists critics and theorists Charles Harrison explores the two main phases of modern art activity during the period the years before and during the First World War when the principal factions were Sickert's Camden Town Group the English Post Impressionists and the Vorticists and the 1930s when a new avant garde assembled in response to recent developments in European art only to divide into groupings of abstract artists Surrealists and Realists Harrison discusses the artists of the period the most important individual works and the writings of the critics resulting in a major contribution to knowledge about the art and theory of modernism Publisher's description English art and modernism Charles Harrison, 1994 English Art, 1860-1914 David Peters Corbett, Lara Perry, 2000 In one of the first studies of its kind Orphan texts seeks to insert the orphan and the problems its existence poses in the larger critical areas of the family and childhood in Victorian culture In doing so Laura Peters considers certain canonical texts alongside lesser known works from popular culture in order to establish the context in which discourses of orphanhood operated The study argues that the prevalence of the orphan figure can be explained by considering the family The family and all it came to represent legitimacy race and national belonging was in crisis In order to reaffirm itself the family needed a scapegoat it found one in the orphan figure As one who embodied the loss of the family the orphan figure came to represent a dangerous threat to the family and the family reaffirmed itself through the expulsion of this threatening difference Orphan texts will be of interest to final year undergraduates postgraduates academics and those interested in the areas of Victorian literature Victorian studies postcolonial studies history and popular culture English Art and Modernism ,1983 The Modernity of English Art, 1914-30 David Peters Corbett, 1997 The modernity of English art reconceptualises the history of English painting from 1914 to the end of the 1920s Whereas most accounts have tended to see the period as marked by a tension between the native tradition and Modernism this ground breaking book rethinks the 1920s by situating both Modernist and non Modernist painters within a wider cultural history Established figures such as Paul Nash Edward Wadsworth and Wyndham Lewis as well as lesser known artists like Charles Sims John Armstrong and Ethelbert White are discussed and illustrated in a series of innovative readings within this context The modernity of English art offers a new account of painting in England after 1914 and argues for a strongly revisionist view of the significance of the modern during this important but neglected period in English art British Art and the First World War, 1914-1924 James Fox, 2015-07-30 The First World War is usually believed to have had a catastrophic effect on British art killing artists and movements and creating a mood of belligerent philistinism around the nation In this book however James Fox paints a very different picture of artistic life in wartime Britain Drawing on a wide range of sources he examines the cultural activities of largely forgotten individuals and institutions as

well as the press and the government in order to shed new light on art s unusual role in a nation at war He argues that the conflict's artistic consequences though initially disruptive were ultimately and enduringly productive He reveals how the war effort helped forge a much closer relationship between the British public and their art a relationship that informed the Francis Bacon Michael Peppiatt, 2019-03-13 This book a biography on country's cultural agenda well into the 1920s Francis Bacon is inspired by the friendship the author had with Bacon and based on records of the conversations that took place since 1963 The book forms the first comprehensive account of the artist s life and his work Mike Huggins, Mike O'Mahony, 2013-10-18 This comprehensive novel and exciting interdisciplinary collection brings together leading international authorities from the history of sport social history art history film history design history cultural studies and related fields to explore the ways in which visual culture has shaped and continues to impact upon our understanding of sport as an integral element within popular culture Visual representations of sport have previously been little examined and under exploited by historians with little focused and rigorous scrutiny of these vital historical documents This study seeks to redress this balance by engaging with a wide variety of cultural products ranging from sports stadia and monuments in the public arena to paintings prints photographs posters stamps design artefacts films and political cartoons By examining the contexts of both the production and reception of this historical evidence and highlighting the multiple meanings and social significance of this body of work the collection provides original powerful and stimulating insights into the ways in which visual material assists our knowledge and understanding of sport This collection will facilitate researchers publishers and others with an interest in sport to move beyond traditional text based scholarship and appreciate the powerful imagery of sport in new ways This book was previously published as a special issue of the International Journal of the History of Sport

British Culture of the Post-War Alastair Davies, Alan Sinfield, 2013-04-15 From Angus Wilson to Pat Barker and Salman Rushdie British Culture of the Post War is an ideal starting point for those studying cultural developments in Britain of recent years Chapters on individual people and art forms give a clear and concise overview of the progression of different genres They also discuss the wider issues of Britain s relationship with America and Europe and the idea of Britishness Each section is introduced with a short discussion of the major historical events of the period Read as a whole British Culture of the Postwar will give students a comprehensive introduction to this turbulent and exciting period and a greater understanding of the cultural production arising from it "Women's Contributions to Visual Culture, 1918?939 " KarenE.

Brown, 2017-07-05 An exploration of women s contributions to visual culture in major urban centres between the wars 1918 1939 this collection sheds new light on women s relationships with the processes of modernism and modernization Women s work in a variety of mediums is explored including design print illustration murals poster art and costume design as well as more conventional forms of painting and sculpture International in scope the volume discusses artists and exhibitions from the United Kingdom Greece Mexico France Ireland and the United States The contributors place a strong emphasis on

archival research yet each addresses contemporary concerns in feminist art history By focusing on a very specific time period the essays place a central concern on the history and theory of art and gender and are united by their coherent focus on Becoming Modern Carolyn women s role in the agency and mediation of artistic production in the interwar period Burke, 1996 Born in London of mixed Jewish and English parentage and a much photographed beauty she moved in the pivotal circles of international modernism in Florence as Gertrude Stein's friend and Marinetti's lover in New York as Marcel Duchamp's co conspirator and Djuna Barnes's confidante in Mexico with her greatest love the notorious boxer poet Arthur Cravan in Paris with the Surrealists and Man Ray The Cambridge History of Twentieth-Century English Literature Laura Marcus, Peter Nicholls, 2004 Publisher Description "Painted Men in Britain, 1868?918 " JongwooJeremy Kim, 2017-07-05 An original and overdue exploration of the representation of masculinity in British academic art in the late nineteenth and early twentieth centuries Painted Men in Britain 1868 1918 analyzes transgressions of gender and sexuality as represented in paintings by Leighton Sargent Tuke and their contemporaries in the Royal Academy This volume treats paintings as eloquent objects no narratives of which are too elusive to be traced and challenges conventional binaries of masculine versus feminine or heterosexual versus homosexual Consulting not only the paintings themselves but also newspapers journals criticism novels and poetry of the day Painted Men argues against the misconception of British academic art as merely reactionary and even blind to the dynamism of its own time Instead this art is shown to engage with broader social attitudes and contemporary sexual debates As the book reveals the complexities of specific paintings it illuminates different and competing attitudes toward masculinity and modernity in British art of the period Aesthetics of Uncertainty Janet Wolff, 2008 Abstract **Landscape and Power, Second Edition** William John Thomas Mitchell, W. J. T. Mitchell, 2002-04-15 This text considers landscape not simply as an object to be seen or a text to be read but as an instrument of cultural force a central tool in the creation of national and social identities. This edition adds a new Transnational Perspectives on Artists' Lives Marleen Rensen, Christopher Wiley, 2020-10-06 preface and five new essays This book demonstrates the significance of transnationality for studying and writing the lives of artists While painters musicians and writers have long been cast as symbols of their associated nations recent research is increasingly drawing attention to those aspects of their lives and works that resist or challenge the national framework The volume showcases different ways of treating transnationality in life writing by and about artists investigating how the transnational can offer intriguing new insights on artists who straddle different nations and cultures It further explores ways of adopting transnational perspectives in artists biographies in order to deal with experiences of cultural otherness or international influences and analyses cross cultural representations of artists in biography and biofiction Gathering together insights from biographers and scholars with expertise in literature music and the visual arts Transnational Perspectives on Artists Lives opens up rich avenues for researching transnationality in the cultural domain at large Visual Culture Norman
