English Cistercian Monasteries And Their Patrons In The Twelfth Century:

English Cistercian Monasteries and Their Patrons in the Twelfth Century Bennett D. Hill, 1968 This little book is intended as a study of certain aspects of the Cistercian Order in the first century of its history in England. Although the book's central theme is a constitutional problem in a broader sense it is concerned with the economic and political influences which shaped the spiritual bases of a monastic institute. Preface

English Cistercian monasteries and their patrons in the twelfth century Bennett D. Hill, 1982

English Cistercian Monasteries and Their Patrons in the Twelfth Century ; a Study in the Decline of an Ideal Bennett D. Hill, 1963

Religious Patronage in Anglo-Norman England, 1066-1135 Emma Cownie, 1998 Although the Norman Conquest of 1066 swept away most of the secular and ecclesiastical leaders of pre-Conquest England it held some positive aspects for English society such as its effects on Anglo-Saxon monastic foundations which this study explores. The first part deals in depth with five individual case studies: Abingdon, Gloucester, Bury St Edmunds, St Albans and St Augustine's Canterbury as well as Fenland and other houses showing how despite mixed fortunes the major houses survived to become the richest in England. The second part places the experiences of the houses in the context of structural changes in religious patronage as well as within the social and political nexus of the Anglo-Norman realm. Dr Cownie analyses the pattern of gifts to religious houses on both sides of the Channel looking at the reasons why they were made.

EMMA COWNIE gained her Ph.D. from the University of Wales at Cardiff. She currently holds a research fellowship at King's College London.

The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century. Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students, researchers and the general public a reliable up-to-date and convenient resource covering this field of major importance in the development of Western history and international art and architecture.

The Nobility and Ecclesiastical Patronage in Thirteenth-century England Elizabeth Gemmill, 2013 While there has been work on the nobility as patrons of monasteries this is the first real study of them as patrons of parish churches and is thus the first study to tackle the subject as a whole. Illustrated with a wealth of detail it will become an indispensable work of reference for those interested in lay patronage and the Church more generally in the middle ages.

Professor David Carpenter, Department of History, King's College London. This book provides the first full-length integrated study of the ecclesiastical patronage rights of the nobility in medieval England. It examines the nature and extent of these rights, how they were used, why and for whom they were valuable, what challenges lay patrons faced and how they looked to the future in making gifts to the Church. It takes as its focus the thirteenth century, a critical period for the survival and development of these rights, being a time of ambitious Church reform, of great change in patterns of land ownership in the ranks of the higher nobility and of bold assertion by the English Crown of its claims to control Church property. The thirteenth century also saw a proliferation

of record keeping on the part of kings bishops and nobility and the author uses new evidence from a range of documentary sources to explore the nature of the relationships between the English nobility the Church and its clergy a relationship in which patronage was the essential feature Dr Elizabeth Gemmill is University Lecturer in Local History and Fellow of Kellogg College University of Oxford

Monastic and Religious Orders in Britain, 1000-1300 Janet Burton, 1994-01-28 This book traces the development of monasticism in England Scotland and Wales from the last half century of Anglo Saxon England to 1300 It explores the nature of the impact of the Norman settlement on monastic life and how Britain responded to new European ideas on monastic life In particular it examines Britain s response to the needs of religious women It covers every aspect of the life and work of the religious orders their daily life the buildings in which they lived their contribution to intellectual developments and to the economy Particular attention is paid to the relationship between religious houses and their founders and patrons This shows the degree of dependence of religious houses on local patrons Indeed one major theme which emerges from the book is the constant tension between the ideals of monastic communities and the demands of the world

The Haskins Society Journal 34 Person William North, Contributor Laura E Wangerin, 2024-10-08 Essays illuminating a wide range of topics from Cistercian preachers and the geography of purgatory to royal and ecclesiastical justice and power This volume continues the Society s commitment to historical and interdisciplinary research from the early and central Middle Ages and demonstrates its belief that the close interrogation of primary documents yields new insights into or important recalibrations of our understanding of the past It begins by surveying the works of the Greek Fathers rendered into Latin in late antiquity exploring their reception and deployment in England before the conquest The twelfth century occupies a central place in this volume Four papers offer close readings or re readings of key authors or sources one reconstructs William of Malmesbury s journeys in the mid 1130s another offers a new reading of two of Aelred of Rievaulx s royal biographies a third considers the influence of Henry of Marcy on Herbert of Clairvaux s *Liber visionum et miraculorum Clarevallensium* and a fourth examines the *Historia Gaufredi Ducis* and its outsized impact on the history of the ritual of dubbing Two papers address royal and ecclesiastical justice in mid thirteenth century France through meticulous work with archival sources they respectively consider the case of Geoffroy de Milly and limits of sovereign authority and enquetes as a technique of power Further topics include the emerging geography of purgatory in the imagination of the twelfth and thirteenth centuries the different dimensions of medieval institutional culture as seen in the intersection of earthly and angelic power in Angevin England placed in dialogue with American medieval historiography and the evolving historiographical treatment of men of the Church employed as trusted administrators by Italian communes The volume concludes with two essays on significant moments in the history of American medieval studies examinations of the publication history of Evelyn Faye Wilson s *Stella Maris* of John of Garland and of the life scholarship and legacy of Bennett David Hill round out the volume

Mortmain Legislation and the English Church 1279-1500 Sandra Raban, 1982-08-19 This

is a comprehensive survey of medieval English mortmain legislation from both the point of view of the crown and that of the Church. It examines methods of enforcement and evaluates their success. It traces the emergence of licensing policies and the increasing exploitation of licences for fiscal purposes while at the same time establishing that this was not their original purpose. The extent to which the Church was acquiring land on a threatening scale by the later thirteenth century is questioned and the effects of the legislation on subsequent acquisition are assessed against the background of new fashions in ecclesiastical patronage and a more hostile economic climate. The statutes of 1279 and 1391 are well known. What this study shows is how much variation lay behind the apparently straightforward system of licensing and how closely the issue of mortmain tenure was related to wider social, political and economic considerations. *English Cistercian monasteries and their patrons in the 12th century* Bennett David Hill, 1968 *The Religious Orders in Pre-Reformation England* James G. Spirituality Gordon Mursell, 2001-01-01 This wide ranging historical survey provides an indispensable resource for those interested in exploring teaching or studying English spirituality. In two stand alone volumes it traces history from Roman times until the year 2000. The main Christian traditions and a vast range of writers and spiritual themes from Anglo Saxon poems to late modern feminist spirituality are included. These volumes present the astonishing richness and variety of responses made by English Christians to the call of the divine during the past two thousand years. **Medieval**

Agriculture, the Southern French Countryside, and the Early Cistercians Constance H. Berman, 1986 Vassals, Heiresses, Crusaders, and Thugs Hugh M. Thomas, 2016-11-11 In recent decades works of the gentry have revolutionized our understanding of late medieval and early modern England. In *Vassals, Heiresses, Crusaders, and Thugs* Hugh M. Thomas takes the study of the gentry back to the period 1154-1216. His conclusions not only reveal remarkable similarities between the gentry of various periods but also shed light on the massive changes that transformed England in the Angevin Period.

Virtuosity, Charisma and Social Order Ilana Friedrich-Silber, 1995-04-28 This book is a comparative macrosociological study of the interaction between religious virtuosi and society in two civilizations: traditional Theravada Buddhism and Medieval Catholicism. Merging Weberian sociology with the Maussian tradition of gift analysis and criticizing the neglect of meaning in current comparative historical sociology, the author also argues the need for a multidimensional approach capable of addressing the part played by religious orientations in shaping the institutional strength and ideological power of religious elites in the historical framework of the Great Traditions.
