A Traditionalist History of the Great War, Book II Alexander

Wolfheze,2021-01-27 This book analyzes the world of 1914 by combining the approaches of traditionalist hermeneutics and 20th century geopolitics The juxtaposition of these two frameworks incorporated in the principles of Sacred Geography and Sea Power allows for a Traditionalist perspective on the choices facing the Ten Great Powers on the eve of the Great War The book s multifaceted approach follows the iconoclastic culture critique method of the Traditional School that was developed by Ren Gu non Frithjof Schuon and Julius Evola it shows the pre war world as essentially different from the post war world Thus the Ten Great Power protagonists of the Great War may be understood on their own terms rather than through a backward projection of politically correct values on the existentially different human life world of 1914 Dislodging the historical materialist progress premise that underpins contemporary academic historiography this book reasserts the highest claim of the Art of History meta narrative meaning
