English Episcopal Acta Lincoln 1186 1206:

English Episcopal Acta: Lincoln 1186-1206 David M. Smith, 1980 *English episcopal acta*, 1986 *English Episcopal Acta: Lincoln, 1186-1206* David Michael Smith, 1986 *English Episcopal Acta* Janet E. Burton, 1988 **English Episcopal Acta: Lincoln 1186-1206** David Michael Smith, B. R. Kemp, 1980 *English Episcopal Acta* 29 Philippa Hoskin, David Michael Smith, British Academy, B. R. Kemp, 2005-05-26 This latest edition to the English Episcopal Acta series brings together for the first time edited versions of all the extant charters issued by the bishops of Durham between 1241 and 1283 Nicholas Farnham Walter Kirkham Robert Stichill and Robert of Holy Island the last two unusually at this date monastic bishops The surviving charters provide insights into episcopal administration and estate management in the mid thirteenth century diocese A full introduction considers the lives of these little studied bishops and the diplomatic of their charters as well as the unusual structure of the episcopal households here The bishops itineraries are also given in an appendix This volume complements EEA 24IR 0 19 726234 1 and EEA 25 0 19 726235 X which contained the acta from 1153 onwards

English Episcopal Acta 31, Ely 1109-1197 Nicholas Karn, David Michael Smith, British Academy, 2005-12-15 The 170 acta published in this volume provide one of the best records of the structuring of a new diocese and the establishment of a cathedral chapter The diocese of Ely comprising historic Cambridgeshire was founded in 1109 and its first four bishops oversaw the elaboration of a system of local ecclesiastical government and also the formulation of a settlement between themselves and the Benedictine monks of Ely whose church became the cathedral Two of the bishops also held high secular office William de Longchamp was effective regent of England while King Richard I was on Crusade and the acta issued in connection with these duties shed light on the delegation of royal power **English Episcopal Acta** M. G. Snape, David Michael Smith, 2002 This volume the second of two to cover the years 1196 1237 publishes the acta of Philip of Poitou Richard Marsh and Richard Poore Appendices present documents other than acta including personal letters and itineraries Pagination continues from the previous volume *Bishops, Clerks, and Diocesan Governance in Thirteenth-Century England* Michael Burger, 2012-10-22 This book investigates how bishops deployed reward and punishment to control their administrative subordinates in thirteenth century England Bishops had few effective avenues available to them for disciplining their clerks and rarely pursued them preferring to secure their service and loyalty through rewards The chief reward was the benefice often granted for life Episcopal administrators security of tenure in these benefices however made them free agents allowing them to transfer from diocese to diocese or even leave administration altogether they did not constitute a standing episcopal civil service This tenuous bureaucratic relationship made the personal relationship between bishop and clerk more important Ultimately many bishops communicated in terms of friendship with their administrators who responded with expressions of devotion Michael Burger's study brings together ecclesiastical social legal and cultural history producing the first synoptic study of thirteenth century English diocesan administration in decades His research

provides an ecclesiastical counterpoint to numerous studies of bastard feudalism in secular contexts **English Episcopal Acta 30: Carlisle 1133-1292** David M. Smith, British Academy, 2005-06-30 The area comprising what became the counties of Cumberland and Westmorland was long disputed both politically and ecclesiastically between the English and Scottish kingdoms The bishopric of Carlisle was the last see in England to be created before the Reformation changes of the 1540s This latest volume in the English Episcopal Acta series brings together for the first time an edition of all the surviving charters issued by bishops of Carlisle from 1133 until the death of Bishop Ralph de Ireton in 1292 The extant charters provide great insights into the episcopal administration of this border bishopric for the first 150 years of the see's existence The introduction provides an account of the diocese the bishops and their households discussion of the diplomatic aspects and style of the surviving charters and the episcopal seals Offering fresh insights into this formative period of English history this volume will be of interest to scholars and students of ecclesiastical medieval and local history **Westminster Abbey and Its People, C.1050-c.1216** Emma Mason, 1996 This book surveys the monastic community at Westminster from the time when Edward the Confessor 1042-1066 adopted it as his burial church down to the end of the reign of king John Originating according to legend during the Roman occupation the West Minster was converted from a little collegiate church into a Benedictine monastery around 970 However the growth of its significance largely dates from its massive endowment by king Edward who commissioned a lavish rebuilding of the abbey church a focal point in his programme of monarchical propaganda Dr Mason covers every aspect of the abbey community in detail examining the careers of the abbots and priors whilst ensuring that lesser figures are not neglected monks craftsmen lay servants the personnel of the royal court who were closely associated with the abbey The author also considers the community's dealings with the growing ecclesiastical bureaucracy the management of its properties including its parochial churches and its relationship with other religious houses Dr EMMA MASON teaches in the Department of History Birkbeck College **Plympton Priory** Allison D. Fizzard, 2008 A case study examining the history of a house of English Augustinian canons this book reveals the ways in which Plympton Priory formed connections with the laity the episcopacy the secular clergy and the Crown in the late Middle Ages *Women in England in the Middle Ages* Jennifer Ward, 2006-10-12 Medieval women faced many of the problems of their modern counterparts in bringing up their families balancing family and work and responding to the demands of their communities Of many women in the period of a thousand years before 1500 we know little or nothing though their typical ways of life on farms or in the towns can be reconstructed with accuracy from a variety of sources We know more about a far smaller number of elite women including queens such as Eleanor of Aquitaine and Margaret of Anjou noblewomen whose characters and attitudes can be sensed directly or indirectly and a variety of religious women Literary sources help flesh out real attitudes such as those of Chaucer's Wife of Bath Jennifer Ward shows the life cycle of medieval women from birth via marriage and child rearing to widowhood and death She also brings out the slow changes in the position of women over a

millennium *Veiled Women* Sarah Foot, 2023-01-09 There is no published account of the history of religious women in England before the Norman Conquest Yet female saints and abbesses such as Hild of Whitby or Edith of Wilton are among the most celebrated women recorded in Anglo Saxon sources and their stories are of popular interest This book offers the first general and critical assessment of female religious communities in early medieval England It transforms our understanding of the different modes of religious vocation and institutional provision and thereby gives early medieval women s history a new foundation Lincoln, 1186-1206 David Michael Smith, 1986 The Secular Clergy in England, 1066-1216 Hugh M. Thomas, 2014-08-14 The secular clergy priests and other clerics outside of monastic orders were among the most influential and powerful groups in European society during the central Middle Ages The secular clergy got their title from the Latin word for world saeculum and secular clerics kept the Church running in the world beyond the cloister wall with responsibility for the bulk of pastoral care and ecclesiastical administration This gave them enormous religious influence although they were considered too worldly by many contemporary moralists trying for instance to oppose the elimination of clerical marriage and concubinage Although their worldliness created many tensions it also gave the secular clergy much worldly influence Contemporaries treated elite secular clerics as equivalent to knights and some were as wealthy as minor barons Secular clerics had a huge role in the rise of royal bureaucracy one of the key historical developments of the period They were instrumental to the intellectual and cultural flowering of the twelfth century the rise of the schools the creation of the book trade and the invention of universities They performed music produced literature in a variety of genres and languages and patronized art and architecture Indeed this volume argues that they contributed more than any other group to the Twelfth Century Renaissance Yet the secular clergy as a group have received almost no attention from scholars unlike monks nuns or secular nobles In *The Secular Clergy in England 1066 1216* Hugh Thomas aims to correct this deficiency through a major study of the secular clergy below the level of bishop in England from 1066 to 1216 *Princes of the Church* David Rollason, 2017-06-14 *Princes of the Church* brings together the latest research exploring the importance of bishops palaces for social and political history landscape history architectural history and archaeology It is the first book length study of such sites since Michael Thompson s *Medieval Bishops Houses* 1998 and the first work ever to adopt such a wide ranging approach to them in terms of themes and geographical and chronological range Including contributions from the late Antique period through to the eighteenth and nineteenth centuries it deals with bishops residences in England Scotland Wales the Byzantine Empire France and Italy It is structured in three sections design and function which considers how bishops palaces and houses differed from the palaces and houses of secular magnates in their layout design furnishings and functions landscape and urban context which considers the relationship between bishops palaces and houses and their political and cultural context the landscapes and towns or cities in which they were set and the parks forests and towns that were planned and designed around them and architectural form which considers the extent of shared features between bishops palaces and

houses and their relationship to the houses of other Church potentates and to the houses of secular magnates **St David of Wales** J. Wyn Evans, Jonathan M. Wooding, 2007 The cult of St David has been an enduring symbol of Welsh identity across more than a millennium This volume traces the evidence for the cult of St David through archaeological historical hagiographical liturgical and toponymic evidence **Power, Politics and Episcopal Authority** Angelo Silvestri, 2014-11-24 It is impossible to completely understand the history of the medieval church without understanding how bishops control was exercised in the diocese and in the city This book assesses the differences shifts and changes in the power of the bishop in the cities and the dioceses of Lincoln and Cremona from the middle of the 11th century to the mid 14th century Lincoln with the biggest medieval diocese in England and with its unique series of bishops such as Hugh of Wells Hugh of Avalon Robert of Hereford
