Experience, Evidence, and Sense Anna Wierzbicka, 2010-06-24 This book is based on two ideas first that any language English no less than any other represents a universe of meaning shaped by the history and experience of the men and women who have created it and second that in any language certain culture specific words act as linchpins for whole networks of meanings and that penetrating the meanings of those key words can therefore open our eyes to an entire cultural universe In this book Anna Wierzbicka demonstrates that three uniquely English words evidence experience and sense are exactly such linchpins Using a rigorous plain language approach to meaning analysis she unpacks the dense cultural meanings of these key words disentangles their multiple meanings and traces their origins back to the tradition of British empiricism In so doing she reveals much about cultural attitudes embedded not only in British and American English but also English as a global language An interdisciplinary work Experience Evidence and Sense will be of interest to both scholars and students in linguistics and English as well as historians of ideas sociologists anthropologists literary scholars and scholars of communication

Religious Experience and Its Transformational Power Sabrina Müller,2023-06-19 The author approaches the phenomenon religious experience through a qualitative study in which young urban people from Europe and the USA are empirically examined It becomes clear that individuals themselves are constructive agents of experience and theology Religious experience manifests itself as a transformative perspective of hope in the lives of young people The study ends with a plea for a theology from below based on liberation theology and feminist theories in which contextual perspectives are central to practical theological theorising

Ranjesh's Practical Golden Global English Speaking Course for Trainers & Trainees Ranjesh Kumar,2020-11-05

Literatures of Exile in the English Revolution and Its Aftermath, 1640-1690 Philip Major,2010 Original and thought provoking this collection sheds new light on an important yet understudied feature of seventeenth century England s political and cultural landscape exile It considers exile both as physical displacement from England to France Germany the Low Countries and America and as inner mental withdrawal The essays assembled here demonstrate among other things both the shared and highly individual experiences in exile of figures conspicuously diverse in political and religious allegiance

English Studies Beyond the 'Center' Myles Chilton,2015-11-06 This book addresses the shape of English studies beyond the center by analyzing how the discipline has developed and by considering how lessons from this analysis relate to the discipline as a whole The book aims to open a cross disciplinary conversation about the nature of the English major in both non Anglophone and Anglophone countries by addressing the tensions between language and literature pedagogy the relevance of a focus on hyper canonical Anglophone literature in a world of global Englishes world literature and multilingual students and by reflecting on the necessary contingency and cross purposes of blended literature and language classrooms Many of the book s points of discussion arise from the author s experience as an English professor in Japan where the particularities of English language and literature pedagogy raise significant challenges to Anglo centric critical and pedagogical assumptions

English Studies Beyond the Center Teaching Literature and the Future of Global English therefore argues that English literature must make a case for itself by understanding its place in a newly configured discipline Issues discussed in the book include English language and literature pedagogy in Japan The modes through which EFL and English literary studies converge and diverge Globalized English beyond the Anglo American perspective English classroom practices particularly in Japan

Student Power! The Radical Days of the English Universities Esmée Sinéad Hanna,2014-01-16 Student Power The Radical days of the

English Universities is an original contribution to the exploration and understanding of the radicality of the English student movement of the 1960s This movement was significant and widespread within English universities and occurred within the context of global student unrest The research on which this book is founded brings together two key data sources documents and oral history interviews presenting previously unpublished and original research to detail the events of this important social movement The book's central focus is the exploration of the key events within the movement detailing the type of actions that occurred across the duration of the movement so as to paint a picture of what the movement was like Key insight is offered from those who were involved in the protests giving a voice to those who know first hand what it was like to be a student at the height of the Swinging Sixties The significance of the 1960s student movement is also refocused through a contemporary lens In light of recent renewals in student activism comparisons and contrasts between the current situation of students within the higher education system in England and those who were students in the Sixties are discussed By exploring what can be learnt from students of the Sixties focusing upon how they were able to create and sustain a social movement of this scale we can understand the constraints and influences on political action by students today This book is therefore relevant not only to our understanding of the past but also for thinking about social movements in the present The book therefore offers a rich narrative of a fascinating social movement telling previously untold stories of what it was like to be part of the biggest rebellion of English students at the height of the dramatic decade of change that was the Sixties This title will be of interest to academics students activists as well as those with a general interest in the history of the Sixties

Narratives of East Asian Women Teachers of English Gloria Park, 2017-09-13 This book is a powerful narrative of how six women experienced their lives alongside their desire to overcome the challenging and empowering nature of the English language The volume shares who they are as transnational and mobile women living in the midst of linguistic privilege and marginalization It is one outcome of a research project and the lived experiences which surround and influence and were influenced by it The author documents how she and her research partners began studying what had drawn them to US TESOL programs and how English was and is a symbol of power and privilege a symbol of educational access and a pursuit of equity yet at times is also a symbol of linguistic marginalization

The Art of Contemporary English Culture George H Gilpin, 1991-08-12 Old Age in English History Pat Thane, 2000-05-11 At the end of the twentieth century more people are living into their seventies eighties nineties and beyond a process expected to continue well into the next millennium The twentieth century has achieved what people in other centuries only dreamed of many can now expect to survive to old age in reasonably good health and can remain active and independent to the end in contrast to the high death rate ill health and destitution which affected all ages in the past Yet this change is generally greeted not with triumph but with alarm It is assumed that the longer people live the longer they are ill and dependent thus burdening a shrinking younger generation with the cost of pensions and health care It is also widely believed that the past saw few survivors into old age and these

could be supported by their families without involving the taxpayer In this first survey of old age throughout English history these assumptions are challenged Vivid pictures are given of the ways in which very large numbers of older people lived often vigorous and independent lives over many centuries The book argues that old people have always been highly visible in English communities and concludes that as people live longer due to the benefits of the rise in living standards far from being burdens they can be valuable contributors to their family and friends

Multiculturalism, Language, and Race in English Education in Japan: Agency, Pedagogy, and Reckoning Gregory Paul Glasgow ,2023-03-15 It is claimed that the English language teaching ELT profession incorporates principles of multiculturalism tolerance and pluralism especially since it is viewed as a practical tool to promote intercultural exchange However as movements for social justice worldwide become more prevalent some stakeholders in the field are beginning to question the field's genuine commitment to such values In Japan for example is the English language truly viewed as a practical communication tool to engage with diverse interlocutors on the global stage Or do problematic discourses regarding the notion of the ownership of English and the idealized speaker of English prevail due to the lingering dichotomy between so called non native English speaking teachers NNESTs and native English speaking teachers NESTs a dichotomy that unfortunately intersects with views of ethnoracial and cultural difference and which leads to discriminatory tendencies in pedagogical practices educational cultures and social structures The overall purpose of this volume is to initiate conversations about how issues surrounding language race and multiculturalism currently inform pedagogical practice in English Language Teaching ELT in Japan We the editor and contributors intend to explore these issues with the hope that the experiences and pedagogical actions documented in this volume will motivate others to reflect on current challenges raise appreciation for diversity in ELT and dismantle inequities

The Politics and Poetics of Contemporary English Tragedy Sean Carney,2013-01-01 The Politics and Poetics of Contemporary English Tragedy is a detailed study of the idea of the tragic in the political plays of David Hare Howard Barker Edward Bond Caryl Churchill Mark Ravenhill Sarah Kane and Jez Butterworth Through an in depth analysis of over sixty of their works Sean Carney argues that their dramatic exploration of tragic experience is an integral part of their ongoing politics This approach allows for a comprehensive rather than selective study of both the politics and poetics of their work Carney's attention to the tragic enables him to find a common discourse among the canonical English playwrights of an older generation and representatives of the nineties generation challenging the idea that there is a sharp generational break between these groups Finally Carney demonstrates that tragic experience is often denied by the social discourse of Englishness and that these playwrights make a crucial critical intervention by dramatizing the tragic

The Implementation of Teacher Evaluation for Professional Development in Primary Education in Taiwan Chao-Wen Liu,2011-02-14 Teacher evaluation is an activity of assessing teachers performance It is equivalent to teacher appraisal teacher performance management in England This study explores the complexities of implementing Teacher Evaluation in

primary schools in Taiwan It concentrates principally on the development of Teacher Evaluation in Taiwan in the light of international research especially that relating to the English context The philosophical perspective with which this study is most closely aligned is constructivism In particular using qualitative methods of documentary analysis and interviews it explores the nature of Teacher Evaluation and the meaning held by implementers Government publications including books journals and other documentation from public institutions were examined to trace the development of Teacher Evaluation in Taiwan and how it might be influenced by globalisation Interviews were carried out with 3 head teachers and 7 teachers from 3 primary schools in Taiwan and 3 officers from different levels of official organisations A Recommended Model of Teacher Evaluation was synthesised from the review of international research Using the Recommended Model of Teacher Evaluation to evaluate the implementation of Teacher Evaluation for Professional Development in Taiwan the effectiveness of the project was demonstrated However by looking at the empirical data some limitations were observed including deficiencies in the administrative system teachers heavy workload the reluctance of teachers to accept changes and insufficient knowledge of the relevant policy Other obstacles were noted including inadequately trained evaluators the lack of a mechanism for professional dialogue and the incoherence of the educational policy This study shows that most teachers agree with the measures in the Teacher Evaluation for Professional Development implemented by the Ministry of Education although some supplementary measures need to be established in a more sophisticated manner before it can be implemented fully Finally this study further proposes suggestions for a Teacher Evaluation model based on the Recommended Model of Teacher Evaluation the implementation of the current Teacher Evaluation for Professional Development and ideal models mentioned by the interviewees
