has changed significantly since 1948 when Beveridge's major report *Voluntary Action* was first published. Sixty years later a group of historians analyse and reassess the impact of Beveridge's ideas about voluntary action for social advance in this timely volume. Using examples from the UK, Australasia and Canada, this book clearly articulates the importance and significance of Beveridge's ideas on voluntary action within an international context. With the emphasis of governments on the importance of the voluntary or third sector and the development of policies and practices to enhance social capital, build civil society and engage communities, this book will be invaluable for those interested in how the third sector has evolved over time. It will be of interest to historians, social policy researchers, political theorists, economists and educationalists.

**International Review of Social History**, 1956      *Serving the empire in the Great War* Andrekos Varnava, 2017-08-07

This book contributes to the growing literature on the role of the British non-settler empire in the Great War by exploring the service of the Cypriot Mule Corps on the Salonica Front and after the war in Constantinople. Varnava encompasses all aspects of the story of the Mule Corps from the role of the animals to the experiences of the men driving them both during and after the war, as well as how and why this significant story in the history of Cyprus and the British Empire has been forgotten. The book will be of great value to anyone interested in the impact of the Great War upon the British Empire in the Mediterranean and vice versa.      *The English Countryside Between the Wars* Paul Brassley, Jeremy Burchardt, Lynne Thompson, 2006

Organised into sections on society, culture, politics and the economy and embracing subjects as diverse as women novelists and village crafts, this book argues that almost everywhere we look in the countryside between the wars, there were signs of new growth and dynamic development.      **IBSS: Anthropology: 2002 Vol.48** Compiled by the British Library of Political and Economic Science, 2004-03-01

*working-class men in Britain, 1850-1940* Brad Beaven, 2013-07-19. From the bawdy audience of a Victorian Penny Gaff to the excitable crowd of an early twentieth-century football match, working-class male leisure proved to be a contentious issue for contemporary observers. For middle-class social reformers from across the political spectrum, the spectacle of popular leisure offered a view of working-class habits and a means by which lifestyles and behaviour could be assessed. For the mid-Victorians gingerly stepping into a new mass democratic age, the desire to create a bond between the recently enfranchised male worker and the nation was more important than ever. This trend continued as those in governance perceived that good leisure and citizenship could fend off challenges to social stability such as imperial decline, the mass degenerate city.

hooliganism civic and voter apathy and fascism Thus between 1850 and 1945 the issue of male leisure became enmeshed with changing contemporary debates on the encroaching mass society and its implications for good citizenry Working class culture has often been depicted as an atomised and fragmented entity lacking any significant cultural contestation Drawing on a wealth of primary and secondary source material this book powerfully challenges these recent assumptions and places social class centre stage once more Arguing that there was a remarkable continuity in male working class culture between 1850 and 1945 Beaven contends that despite changing socio economic contexts male working class culture continued to draw from a tradition of active participation and cultural contestation that was both class and gender exclusive This lively and readable book draws from fascinating accounts from those who participated in and observed contemporary popular leisure making it of importance to students and teachers of social history popular culture urban history historical geography historical sociology and cultural studies

**Soldiers as Citizens** Nick Mansfield,2019 This is the first exploration of the British army to combine labour political and military history It analyses the political lives of nineteenth century rank and file soldiers in the context of a developing working class culture It focuses on the significant radical and socialist movements alongside influential working class conservatism *Leisure, Citizenship and Working-class Men in Britain, 1850-1945* Brad Beaven,2005 From the bawdy audience of a Victorian Penny Gaff to the excitable crowd of an early twentieth century football match working class male leisure proved to be a contentious issue for contemporary observers For middle class social reformers from across the political spectrum the spectacle of popular leisure offered a view of working class habits and a means by which lifestyles and behaviour could be assessed For the mid Victorians gingerly stepping into a new mass democratic age the desire to create a bond between the recently enfranchised male worker and the nation was more important than ever This trend continued as those in governance perceived that good leisure and citizenship could fend off challenges to social stability such as imperial decline the mass degenerate city hooliganism civic and voter apathy and fascism Thus between 1850 and 1945 the issue of male leisure became enmeshed with changing contemporary debates on the encroaching mass society and its implications for good citizenry Working class culture has often been depicted as an atomised and fragmented entity lacking any significant cultural contestation Drawing on a wealth of primary and secondary source material this book powerfully challenges these recent assumptions and places social class centre stage once more Arguing that there was a remarkable continuity in male working class culture between 1850 and 1945 Beaven contends that despite changing socio economic contexts male working class culture continued to draw from a tradition of active participation and cultural contestation that was both class and gender exclusive This lively and readable book draws from fascinating accounts from those who participated in and observed contemporary popular leisure making it of importance to students and teachers of social history popular culture urban history historical geography historical sociology and cultural studies

**Charity and Mutual Aid in Europe and North America since 1800** Bernard Harris,Paul Bridgen,2012-04-06

International in perspective the essays in this volume are primarily concerned with two facets of the mixed economy of welfare charity and mutual aid Emphasizing the close relationship between these two elements and the often blurred boundaries between each of them and commercial provision contributors raise crucial questions about the relationship between rights and responsibilities within the mixed economy of welfare and the ties which bind both the donors and recipients of charity and the members of voluntary organisations The volume critically assesses the relationships between the statutory and voluntary sectors in a variety of national settings including Britain the United States the Netherlands Sweden Norway Canada and Germany during the last two hundred and fifty years making the book as topical as it is significant
