English Country Furniture The National And Regional Vernacular 15001900:

English Country Furniture David Knell,1992 **The Single Homemaker and Material Culture in the Long Eighteenth Century** David Hussey,Margaret Ponsonby,2016-03-03 The Single Homemaker and Material Culture in the Long Eighteenth Century represents a new synthesis of gender history and material culture studies It seeks to analyse the lives and cultural expression of single men and women from 1650 to 1850 within the main focus of domestic activity the home Whilst there is much scholarly interest in singleness and a raft of literature on the construction and apprehension of the home no other book has sought to bring these discrete studies together Similarly scholarly work has been limited in evaluating gendered consumption practices during the long eighteenth century because of an emphasis on the homes of families Analysing the practices of single people emphasises the differences but also amplifies the similarities in their strategies of domestic life Becoming America Jon Butler,2001-12-28 Butler s panoramic view of the American colonies after 1680 transforms the customary picture of pre revolutionary America revealing a strikingly modern character that belies the 18th century quaintness fixed in history 21 halftones Dynamics of outport furniture design Walter W. Peddle,2002-01-01 This richly illustrated study profiles one of the most colourful and distinctive forms of regional furniture in North America and demonstrates the skills of Newfoundlanders and Labradoreans as natural innovators clever designers practiced recyclers and masters of adaptation Published in English **English Country Furniture** David Knell,1992 A preoccupation with the finest period furnishings of the upper classes of English society has until very recently dominated the literature on antique furniture resulting in a neglect of the humbler but equally important furniture used in ordinary homes over the centuries While furniture historians in North America and in many European countries have long accepted the vital importance of their own vernacular or country furniture recognising it as an essential element of social history the English equivalent has often been treated almost with contempt by British writers and relegated to the back pages of native furniture studies This attitude is now recognised as unacceptable however and the vernacular furniture of England has accordingly become the focus of intensive research Making use of much of this recent research English Country Furniture throws fresh light on the uses dates and stylistic differences of the everyday furniture found in cottages farmhouses and town houses of ordinary people over a span of some four centuries Special emphasis is placed on the 18th and 19th centuries in recognition of the much higher survival rates of true folk furniture from more recent times Each of the examples illustrated most of them previously unpublished in book form is accompanied by a detailed caption giving timber an accurate date range and an extensive description including such information as regional characteristics finish stylistic influence and construction This is the only major work devoted to the evolution of both national and regional vernacular furniture in England from the Middle Ages up to the 20th century It is also the first to stress the full importance of Oriental influence on 18th century furniture design the first to make use of fresh and exciting material salvaged from the Mary Rose and the first to pinpoint precisely the

inventions of several items of machinery used in furniture making **American Furniture in the Metropolitan Museum of Art** Frances Gruber Safford, 2007 The Metropolitan Museum's preeminent collection of early colonial furniture is expertly documented in this long awaited publication. It covers the full spectrum of furniture forms made during the 17th and early 18th centuries from chairs and other seating to tables, boxes, various types of chests and cupboards and desks. Each of the 141 objects is thoroughly described with detailed information on provenance, construction, condition, inscriptions, dimensions and materials. Photographed anew in color for this volume, each piece is explicated in terms of the styles and craftsmanship of the period and is evaluated in light of comparative pieces in public and private collections throughout the country. One appendix contains photographic details of construction and decorative elements and another has drawings of joints and moldings.

Buildings in Society: International Studies in the Historic Era Liz Thomas, Jill Campbell, 2018-05-31 This book presents a series of papers reflecting the latest approaches to the study of buildings from the historic period. This volume does not examine buildings as architecture; rather, it adopts an archaeological perspective to consider them as artefacts reflecting the needs of those who commissioned them. *The Age of Homespun* Laurel Thatcher Ulrich, 2009-08-26 They began their existence as everyday objects but in the hands of award-winning historian Laurel Thatcher Ulrich, fourteen domestic items from preindustrial America ranging from a linen tablecloth to an unfinished sock relinquish their stories and offer profound insights into our history. In an age when even meals are rarely made from scratch, homespun easily acquires the glow of nostalgia. The objects Ulrich investigates unravel those simplified illusions, revealing important clues to the culture and people who made them. Ulrich uses an Indian basket to explore the uneasy coexistence of native and colonial Americans. A piece of silk embroidery reveals racial and class distinctions and two old spinning wheels illuminate the connections between colonial cloth making and war. Pulling these divergent threads together, Ulrich demonstrates how early Americans made use of sold and saved textiles in order to assert their identities, shape relationships and create history. **Coalescence of Styles**

Jane L. Cook, 2001-01-17 From the mid-eighteenth century on, cultural life in the northern valley of the St. John River blended the traditions of Acadian and French Canadian settlers with those of American immigrants. In the southern valley, Mi'kmaq interacted with American newcomers and Loyalist settlers while the later influx of Scottish and Irish immigrants introduced more layers of cultural traditions. Using an impressively diverse combination of artifacts, artwork, maps and primary literature from over sixty museum collections and archives, Cook addresses the experiences of immigrants and artisans and their influence on the cultural boundaries along one of eastern North America's most important rivers. She moves beyond a mere catalogue of objects to provide an important comparative analysis of material heritage showing how furniture embodied the lifestyles of differing groups of settlers. *British Book News* British Council, 1992 Includes no. 53a British wartime books for young people. **Identifying American Furniture** Milo M. Naeve, 1998 In 36 brief sections, Naeve identifies the distinguishing characteristics of each style that makes up America's rich furniture heritage. Each trend is related to

international stylistic movements innovative craftsmen influential publications and the technological improvements that shaped them Key factors of each style are highlighted for easy identification *Books in Print* ,1991 **Antique Trader**

Regan,1995-05 Covers 300 years of antiques from beds to wardrobes and Art Nouveau to Queen Anne with over 750 detailed listings chronologically arranged by furniture type and style with 450 photos Includes an illustrated glossary of terms and illustrated stylistic guidelines a special feature on furniture collecting and more **The publishers weekly** ,1992 **British Book News** ,1991 Library Catalog of the Metropolitan Museum of Art, New York Metropolitan Museum of Art (New York, N.Y.).
