The Oxford Handbook of the Eighteenth-Century Novel J. A. Downie, 2016-09-01

Although the emergence of the English novel is generally regarded as an eighteenth century phenomenon this is the first book to be published professing to cover the eighteenth century English novel in its entirety This Handbook surveys the development of the English novel during the long eighteenth century in other words from the later seventeenth century right through to the first three decades of the nineteenth century when with the publication of the novels of Jane Austen and Walter Scott the novel finally gained critical acceptance and assumed the position of cultural hegemony it enjoyed for over a century By situating the novels of the period which are still read today against the background of the hundreds published between 1660 and 1830 this Handbook not only covers those masters and mistresses of early prose fiction such as Defoe Richardson Fielding Sterne Burney Scott and Austen who are still acknowledged to be seminal figures in the emergence and development of the English novel but also the significant number of recently rediscovered novelists who were popular in their own day At the same time its comprehensive coverage of cultural contexts not considered by any existing study but which are central to the emergence of the novel such as the book trade and the mechanics of book production copyright and censorship the growth of the reading public the economics of culture both in London and in the provinces and the re printing of popular fiction after 1774 offers unique insight into the making of the English novel

The English

Novel 1770-1829 James Raven, Antonia Forster, Stephen Bending, 2023 Examining copies of all known surviving novels and

reconstructing those lost this volume provides full details and a new introductory account of the authorship publication and review of new prose novels in English 1770 1799 **Authorship, Commerce and the Public** E. Clery, C. Franklin, P.

Garside, 2002-10-02 These essays explore the remarkable expansion of publishing from 1750 to 1850 which reflected the growth of literacy and the diversification of the reading public Experimentation with new genres methods of advertising marketing and dissemination forms of critical reception and modes of access to writing are also examined in detail This collection represents a new wave of critical writing extending cultural materialism beyond its accustomed concern with historicizing the words on the page into the economics of literature and the investigation of neglected areas of print culture

Conversion and Reform in the British Novel in the 1790s A. Markley, 2008-12-22 Conversion and Reform analyzes the work of those British reformists writing in the 1790s who reshaped the conventions of fiction to reposition the novel as a progressive political tool Includes new readings of key figures such as Mary Wollstonecraft and Thomas Holcroft

Literature in a Time of Migration Josephine McDonagh, 2021-05-13 Literature in a Time of Migration offers a profound rethinking of British fiction in light of the new practices of human mobility that reshaped the nineteenth century world Building on the growing critical engagement with globalization in literary studies it confronts the paradox that at a time when transnational human movement occurred globally on an unprecedented scale British fiction appeared to turn inward to tell stories of local places that valorized stability and rootedness In contrast this book reveals how literary works from the end of the Napoleonic Wars to the advent of the New Imperialism were active components of a culture of colonization and emigration Fictional texts as print commodities were enmeshed in technologies of transport and communication and innovations in literary form were spurred by the conditions and consequences of human movement Examining works by Scott Charlotte Bront Dickens and George Eliot as well as popular contemporaries Mary Russell Mitford John Galt and Thomas Martin Wheeler this volume demonstrates how literary texts overlap with an agenda set in public discussions of colonial emigration that they also helped to shape Debates about assisted emigration forced and free migration colonization settlement and the removal of native peoples figure in fictions in complex ways Read alongside writings by emigration theorists practitioners and enthusiasts for colonization fictional texts reveal a powerful and sustained engagement with British migratory practices and their worldwide consequences Literature in a Time of Migration is a timely reminder of the place and importance of migration within British cultural heritage

Americomania and the French Revolution Debate in Britain, 1789-1802 Wil Verhoeven, 2013-11-12 This book explores the evolution of British identity and participatory politics in the 1790s. Wil Verhoeven argues that in the course of the French Revolution debate in Britain, the idea of America came to represent for the British people the choice between two diametrically opposed models of social justice and political participation. Yet the American Revolution controversy in the 1790s was by no means an isolated phenomenon. The controversy began with the American crisis debate of the 1760s and 1770s which overlapped with a wider Enlightenment debate about transatlantic utopianism. All of these debates were based in the material world on the availability of vast quantities of cheap American land. Verhoeven investigates the relation that existed throughout the eighteenth century between American soil and the discourse of transatlantic utopianism between America as a physical geographical space and America as a utopian/dystopian idea/image.

Selling Ancestry Stéphane Jettot, 2023-08-08 Often cited but rarely studied in their own right, family directories allow a reconsideration of how ancestry and genealogy became an object of widespread commercialization across the eighteenth century. These directories replaced the expensive, locally produced early modern artefacts: tombs, windowpanes, illuminated pedigrees, and began to reach a wide audience of readers in the British Isles and the colonies. From the first Peerage in 1709 to the guidebooks of Debrett's and Burke's in the 1830s, Stéphane Jettot offers an insight into the cumulative process leading to the creation of these hybrid products: a combination of court almanacs, county histories and town directories. Employed by contemporaries as reference tools to navigate through a dynamic and changing society, they could be used as a means to probe contemporary attitudes towards social status and political events. Published by the most prominent London booksellers who shared their copyrights among themselves, they relied on the considerable

involvement of thousands of families in the counties In their correspondence with publishers many new and old elites desired to insert their own narrative into a general history of Britain by dispatching documents quotations and anecdotes Based on a unique source base this book provides a systematic review of these directories their production and sale but also their potential role in shaping the character of social change Jettot demonstrates the wider ramifications of genealogy and its structural ability to reinvent itself associate amateurs and antiquarians alike and thrive on the wavering lines between facts and fiction offering an exciting and unique insight into the social history of eighteenth century Britain *The Broadview Reader in Book History* Michelle Levy,Tom Mole,2014-10-23 Book History has emerged as one of the most exciting new interdisciplinary fields of study in the humanities By focusing on the production circulation and reception of the book in all its forms it has transformed the study of history literature and culture The Broadview Book History Reader is the most complete and up to date introduction available to this area of study The reader reprints 33 key essays in the field grouped conceptually and provided with headnotes explanatory footnotes an introduction a chronology and a glossary of terms *British Short Fiction in the Early Nineteenth Century* Tim Killick,2016-05-23 In spite of the importance of the idea of the tale within Romantic era literature short fiction of the period has received little attention from critics Contextualizing British short fiction within the broader framework of early nineteenth century print culture Tim Killick argues that authors and publishers sought to present short fiction in book length volumes as a way of competing with the novel as a legitimate and prestigious genre Beginning with an overview of the development of short fiction through the late eighteenth century and analysis of the publishing conditions for the genre including its appearance in magazines and annuals Killick shows how Washington Irving's hugely popular collections set the stage for British writers Subsequent chapters consider the stories and sketches of writers as diverse as Mary Russell Mitford and James Hogg as well as didactic short fiction by authors such as Hannah More Maria Edgeworth and Amelia Opie His book makes a convincing case for the evolution of short fiction into a self conscious intentionally modern form with its own techniques and imperatives separate from those of the novel **A Companion to Scottish Literature** Gerard Carruthers,2023-12-26 A Companion to Scottish Literature offers fresh readings of major authors and periods of Scottish literary production from the first millennium to the present Bringing together contributions by many of the world's leading experts in the field this comprehensive resource provides the historical background of Scottish literature highlights new critical approaches and explores wider cultural and institutional contexts Dealing with texts in the languages of Scots English and Gaelic the Companion offers modern perspectives on the historical milieux thematic contexts and canonical writers of Scottish literature Original essays apply the most up to date critical and scholarly analyses to a uniquely wide range of topics such as Gaelic literature national and diasporic writing children's literature Scottish drama and theatre gender and sexuality and women's writing Critical readings examine William Dunbar Robert Burns Walter Scott Robert Louis Stevenson Muriel Spark and Carol Ann Duffy amongst others With full references and
