offer a dynamic mix of approaches that range from expansive perspectives on particular periods and genres to extended analyses of select case studies Essays are included from every major Western period including Classical Middle Ages Renaissance and so on right up to the contemporary This collection provides a telling demonstration of the myriad ways that humanity has learned to live with the inevitability of death where live with itself might mean any number of things from consoling to memorializing to rationalizing to fending off to evading and perhaps most compellingly of all to escaping Engagingly written and drawing on examples from around the world this volume is indispensable to both students and scholars working in the fields of medical humanities thanatography death studies life writing Victorian studies modernist studies narrative contemporary fiction popular culture and more [Trials of Authorship](#) Jonathan Crewe, 2024-06-28 The English Renaissance has been the focus of intense interpretive activity It has been a scene of trial for the critical methodologies of deconstruction feminism new historicism psychoanalytic poststructuralism and cultural studies Trials of Authorship extends and challenges this theoretically informed criticism Jonathan Crewe argues that the commitment to innovation transgression and radical change has increasingly obscured some powerfully resistant elements both in Renaissance culture and in these critical discourses themselves He calls for a recognition of defensive perverse and self limiting trends in Renaissance writing and also of the conservative investment by critics in the Renaissance as a cultural epoch Crewe focuses on the relatively stable poetic and cultural forms operative in the Renaissance He argues that these established forms which shape poetic composition social interaction and individual identity are subject to only limited reconstruction by English authors in the sixteenth century They facilitate and limit literary and social expression and result in more sharply conflicted literary production than current critics have been willing to acknowledge Moreover Crewe argues that while this literary production is dominantly masculinist it nevertheless reveals the stresses of negotiating complex structures of class and gender history and culture The literary results are accordingly varied and do not lend themselves to uniform interpretation Trials of Authorship presents a consecutive reading of English Renaissance authors from Wyatt to Shakespeare and redraws the existing picture of the English Renaissance in the sixteenth century It does so by concentrating on authors whose canonical status is somewhat precarious namely the poets Wyatt Surrey and Gascoigne and the non literary authors of two Tudor prose biographies The book makes a case for the continuing significance of all the texts in question while its emphasis on them also constitutes an intentional shift away from the Elizabethan period towards that of Henry VIII This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990
